Ref. No. BCCL/MCW/PO/Environment/2012- 722

Dated :01.12.2012

The Director(S),
Ministry of Environment & Forest
Eastern Regional Office, Chandrashekharapur,
PO: Rail Vihar, Bhuvneshwar – 751023

Sub : Submission of six monthly E.M.P. clearance report of Madhuban Coal Washery, B.C.C.L.
under Block-II Area.

Dear Sir,

It is brought to your kind notice that following measures have been taken for pollution Control measures and Environment :-

1. In process plant, coal fines mixed with water is allowed to settle in thickner and thickened slurry is pumped to hydro cyclone where two product is obtained. The overflow of hydro cyclone i.e. clear effluents, recycled in process plant for further use where underflow(Thickned slurry) of 0.3mm aperture size on it. This process reduces the slurry generation in pond up to 60%.

However, during this period 30908.54 Te. of slurry was recovered and desposed off in the form of recycling and E-auction sale.

2. The coal dust accumulation on roads and nearby areas are regularly suppressed or upkeped by Water spray on it three to four times per day by Water Tanker.

3. About 30,000 plant has been planted already in and around the Washery premises since inception of Washery. About 2,000 Trees have been planted to up keep the Environment clean in four to five years span of time.

However, we are enclosing the following for your ready reference.

- Encl. 1) Photo copy of Consent to Operate.
2) Photo copy of Compliance report.
3) Compliance of Environment statement.
4) Air Analysis report.

This is for your kind information please.

Thanking you,

Yours faithfully

(VIJAY KUMAR)
