5. Deviations/ variations in quantities:

Extent and pricing: The quantities given in the "Schedule of Quantities" are provisional and are meant to indicate the extent of the work and to provide a uniform basis for tendering and any variation either by addition or omission shall not vitiate the contract.

- 5.1 The company through its Engineer In charge or his representative shall, without radically changing the original scope and nature of the contracted work, have power to make any alterations in or additions to or substitution of the original and instructions that may appear to be necessary or advisable during the progress of the work. The contractor shall be bound to carry out the works in accordance with the instructions given to him in writing by the Engineer In charge or his representative on behalf of the company. Such altered or additional or substituted work, which shall form part of the original contract, shall be carried out by the contractor on the same conditions in all respects on which they agreed to do the main work and at the same rate/rates as are specified in the contract.
- 5.2. If the additional, altered work includes any class of work for which no rate/ rates is/are specified in the contract, rates for such items shall be determined by the Engineer-in-Charge as follows :
 - a) The rate shall be derived from the rate/rates for similar or near similar class of work as is / are specified in the contract /tender , failing which
 - b) The rate shall be derived from the company's prescribed schedule of rates based on which the estimate for tendering has been prepared plus or minus the percentage by which the tendered amount for the whole work quoted by the contractor is above or below the estimated amount as per the tender documents, failing which

- c) The rate shall be derived from contractor's rate claimed for such class of work supported by analysis of the rate /rates claimed by the contractor. The rate to be determined by the Engineer-In charge as may be considered reasonable taking in to account percentage of profit and overhead not exceeding ten percent or on the basis of market rates, if any, prevailing at the time when work was done.

In the case of composite tenders, where two or more schedule of quantities for similar item description may form part of the contract, the applicable rate shall be taken from the schedule of quantities of that particular part in which the deviation is involved, failing that at the lowest applicable rate for the similar item of work in the other schedule of quantities.

However, the Engineer-In charge shall be at liberty to cancel the instruction by notice in writing and to arrange to carry out the work in such a manner as he / she considers advisable under the circumstances. The contractor shall under no circumstances suspend the work on the plea of non-settlement of rates.

5.3 Alterations in the quantities shall not be considered as a change in the conditions of the contract nor invalidate any of the provisions thereof provided that a supplementary work order or agreement for the item/items involved will be necessary when the alterations involved one or more of the followings :

- (i) an increase of more than 10% of the total cost of work calculated from the original tendered quantities and the contract Price.
- (ii) More than 10% deviation from original awarded value should require approval of next higher authority, but total amount should be within the delegated power of next higher authority.

5.4 The time for completion of the originally contracted work shall be extended by the Company in the proportion that the additional work (in value) bears to the original contracted work (in value) as may be assessed and certified by the Engineer-in-charge.

5.5 The company through its Engineer-in-charge or his representative, on behalf of the company, shall have power to omit any part of the work for any reason and the contractor shall be bound to carry out the work in accordance with the instructions given by the E.I.C. No claim for extra charges / damages shall be made by the contractor on these grounds.

5.6 In the event of any deviation being ordered which in the opinion of the contractor changes radically the original scope, and nature of the contract, the contractor shall under no circumstances suspend the work, either original or altered or substituted, and the dispute / disagreement as to the nature of deviation or the rate/ rates to be paid thereof shall be resolved separately with the company.

5.7 The re-appropriation/ re-allocation of the quantities may be done with the approval of Engineer-in –charge within the stipulated contract period and contract value with the approval of the approving authority of the contract. In case the approving authority is Board, then with the approval of the CMD of the Subsidiary Company

6 Time for Completion of Contract, - Extension thereof, Defaults and compensation for delay :

Immediately after the contract is concluded the Engineer –in-charge and the contractor shall agree upon time and progress chart prepared on the basis of a transportation schedule to be submitted by the contractor showing the order in which the work is proposed to be carried out within the time specified in the contract documents. For the purpose of this time and progress chart, the work shall be deemed to have commenced on the expiry of 10 (ten) days from the issue of letter of acceptance/ work order or handing over the site of work **which ever is later**.

- 6.1 If the contractor, without reasonable cause of valid reasons, commits default in commencing the execution of the work within the aforesaid date, the company shall without prejudice to any other right or remedy, be at liberty, by giving 15 days notice in writing to the contractor to commence the work, failing which to forfeit the Earnest Money deposited by him.
- 6.2 In the event of the contractor's failure to comply with the required progress in terms of the agreed time and progress chart or to complete the work and clear the site on or before the contract or the extended date of completion, he shall without prejudice to any other right or remedy available under the law to the company on account of such breach, shall become liable to pay for penalty as under :
 - (a) If the average daily progress of work during the calendar months is less than the stipulated rate indicated in the tender document, penalty as detailed below will be levied.
 - (i) If the average daily progress of work executed during the calendar month is more than 80% and less than 100% of stipulated rate of progress, penalty equal to 10% of the contract value of the shortfall in work shall be levied.
 - (ii) If the average daily progress of work executed during the calendar month is less than 80% of stipulated rate, penalty equal to 20% of contract value of the shortfall in work shall be levied.
 - (iii) The aggregate of the penalties so levied shall not exceed 10% of the total contract value.
 - i),ii),iii), Penalties will be calculated every month and withheld. The contractor shall be allowed to make up the short fall in the succeeding three months within the stipulated time of completion. Once the shortfall is fully made up, the so withheld penalty will be released.
- 6.3 The Company may waive the payment of compensation, depending upon merit of the case, on request received from the contractor if the entire work is completed within the date as specified in the contract or as validly extended without stipulating any penalty.
- 6.4 Extension of date of completion - On happening of any events causing delay as stated here under, the contractor shall intimate immediately in writing the Engineer-in –charge :

- a) abnormally bad weather.
- b) Serious loss or damage by fire.
- c) civil commotion, strikes or lockouts affecting any of the trades employed on the work.
- d) delay on the part of contractors or tradesmen engaged by the company not forming part of the contract, holding up further progress of the work.
- e) any other causes which, at the sole discretion of the company is beyond the control of the contractor.

A 'Hindrance Register" shall be maintained by both the Company and the Contractor at site to record the various hindrances , as mentioned above, encountered during the course of execution.

The Contractor may request the company in writing for extension of time within 14 days of happening of such event causing delay stating also, if practicable , the period for which extension is desired . The company may, considering the eligibility of the request, give a fair and reasonable extension of time for completion of the work. Such extension shall be communicated to the contractor in writing by the company through the Engineer-in-charge within one month of the date of receipt of such request.

The contractor shall however use his best efforts to prevent or make good the delay by putting his endeavors constantly as may be reasonably required of him to the satisfaction of the Engineer-in-charge.

- 6.5 Provisional extension of time may also be granted by the Engineer-In-charge during the course of execution, on written request for extension of time within 15 (Fifteen) days of happening of such events as stated above, reserving the company's right to impose / waive penalty at the time of granting final extension of time as per contract agreement.
- 6.6 When the period fixed for the completion of the contract is about to expire , the question of extension of the contract may be considered at the instance of the contractor or the company or the both. The extension will have to be by the party's agreement , expressed or implied.

In case the contractor does not apply for grant of extension of time within 15

(Fifteen) days of hindrance occurring in execution of the work and the company wants to continue with the work beyond the stipulated date of completion for reason of the work having being hindered, the Engineer-in-Charge at his sole discretion can grant provisional extension of time even in the absence of application from the contractor. Such extension of time granted by the Engineer-in-charge is valid provided the contractor accepts the same either expressly or implied by his actions before and subsequent to the date of completion. Such extension of time shall be without prejudice to company's right to levy compensation under the relevant clause of contract.

- 6.7 The bidding documents will clearly state that :
 - a) The successful bidder will advise , in the event of his having resort to this clause by a registered letter duly certified by the local chamber of commerce or statutory authorities, the beginning and end of the cause of delay, within fifteen days of the occurrence and cessation of such Force Majeure condition. In the event of delay lasting over two months, if arising out of force majeure, the contract may be terminated at the discretion of the company.

- b) For delays arising out of force majeure, the bidder will not claim extension in completion date for a period exceeding the period of delay attributable to the causes of force majeure and neither company nor the bidder shall be liable to pay extra cost (like increase in rates , remobilisation advance , idle charges for labour and machinery etc.) provided it is mutually established that the force majeure conditions deed actually exist.
- c) If any of the force majeure conditions exist in the place of operation of the bidder event at the time of submission of bid he will categorically specify them in his bid and state whether they have being taken into consideration in their quotations.

7 Quality assurance

The contractor shall carry out and complete the work in every respect in accordance with the contract and shall ensure that the work conforms strictly to the instructions of the Engineer-in-charge. The Engineer-in-charge may issue from time to time further detailed instructions/ directions in writing to the contractor. All such instructions/ directions shall be consistent with the contract documents and should be reasonably inferable there from, along with clarifications / explanations thereof, if necessary.

8 Measurement and payments :

Except where any general or detailed descriptions of the work in quantities provides otherwise, measurements of work done shall be taken in accordance with the relevant standard method of measurement as applicable to schedule of quantities / schedule of work / specifications to the contract. D= One way distance from colliery to destination in Kilometers

d = Distance covered per litre of diesel by the Transport Equipment in KM.

C= Capacity of tippers (In Te or in cum)

R= Variation in the price of diesel from the base price(in Rs .per Ltr.)

(NOTE: In the above formula , the value of ‘d’ will have to be standardised on the basis of studies through CMPDIL Till standardization of ‘d’ the following two formula will be used for transportation of Coal & OB/sand)

For Coal : Diesel price variation rate in Rs per Te = $D \times R / 15$ For OB/Sand:

Diesel price variation rate in Rs per Cum

= $D \times R / 9$

Where D= One way distance from colliery to destination in Kilometers

R= variation in the price of diesel from the base price(in Rs .per Ltr.)

37.05.2 Diesel price variation rate (in Rs. per Te) for loading of coal by pay loader = $0.066 \times$ variation in the price of diesel per litre from base price.

Diesel price variation rate (in Rs. per Cum.) for loading of OB by excavator = $0.25 \times$ variation in the price of diesel per litre from base price.

ADDITIONAL TERMS & CONDITIONS

The following additional terms & conditions are only acceptable to the company . Tenderers are requested not to quote any additional conditions in their tender.

1. Scope of work: -

The work proposed is envisaged and measured against illegal mining on old OCP/ Fire or for any other reason/ purpose including de-coaling the area by deploying HEMM. As such, the work is to excavate earth and/ or rock from the Company's land and/ or from the land arranged by the management and to dump the same outside the excavated area/ use in simultaneous filling of subsided area/ adjoining area .

In the course of excavation of earth and/ or rock, it would also be required to extract & transport coal underneath up to the desired extent as per direction of management and the same should be delivered to departmental stock – yard/ siding including wagon loading if any

Contractor shall solely indemnify the company (BCCL) from any pilferage in handling of coal and also be liable to pay compensation for any mishandling of such materials at any stage of operation up to delivery at the destination.

2. The contractor should deploy their diesel operated HEMMs consisting of –

- a) Shovel / Scraper
- b) Dumpers / Tippers
- c) Dozers / Graders
- d) Wagon Drills / Blast Hole Drills and other Deep Hole Drilling equipments – the type & no. being to the satisfaction of BCCL.
- e) J.H Drills
- f) Compressor
- g) Water Sprinklers

3. HEMMs, as detailed in clause no. 2 above and others as required shall have to be engaged by the Tenderer hereinafter called the contractor for the works as detailed below subject to stipulation in BOQ :

- i) Excavation of soil and / or rock from company's land and / or from the land (arranged by the management) including drilling .
- ii) Loading the same into dumper / tipping trucks.

iii) Unloading & dumping on the land arranged by the management or simultaneous spreading in layers for filling decoaled Area.

iv) Drilling in coal including dozing, making & maintenance of access trench/haul road.

v) Loading of coal into tipper/dumper, its transportation and unloading at siding including wagon loading , if any.

4. Operation of HEMM shall be carried out between the hours as may be fixed by the Project Officer/Agent/manager of the colliery in writing.

5. The Area required to be excavated shall be shown in the drawing given by the Engineer In charge and/or his authorised representatives.

6. The Area thus set out shall be cleared from all obstruction such as rubbish of all kinds of vegetation, bush. No payment shall be made for this to the Contractor.

7. After clearance of site, a central line of excavation will be given by the Engineer In charge or his representative and it will be responsibility of the contractor to go ahead with further detailed layout, bench marks, etc. (the permanent bench marking by constructing pillars, centers shall be permanently laid by the contractor at his own cost and shall remain at places till handing over the work).

8. Excavation shall include the removal of materials of whatever mentioned and whether wet or dry exactly in accordance with the all levels and contours shown on the plan or as directed by the Engineer In charge. No extra payment will be allowed for removal of semi liquid mud/sludge during the entire excavation of soil/or rock including loading of coal and the rate quoted for the respective item of work shall be deemed to have been covered the same. It shall be taken to the exact level and gradient of the lowest floor and the sides shall be cut by maintaining the statutory benches as required for the purpose.

9. Explosives – Supply of explosives , detonators and related materials will be made by BCCL and the services of Statutory supervisory personnel as required for the work will be provided as and when considered necessary by the management free of cost. Blasting shall be done by department free of cost.

10. Electrical power, required by the tenderer for the purpose of Site office and any workshop set up during execution of the work shall be provided by Area in form of a suitable electrical point as near to these premises as practically possible. Tenderer will have to draw his own distribution lines and install metering devices for recording of energy consumption. Tariff will be deducted as per Company rules. **Pumping and quarry lighting shall be done by the contractor at his own cost during the progress of work with all statutory provisions as the case may be.**

11. Necessary access/ roads, required for this job for movement of vehicle/ HEMM to the place of work and for transportation of excavated materials/ coal to disposal point and to the depots are to be made/ arranged by the contractor for which no extra payment will be made. The contractor's quoted rates shall be deemed to have covered the same.

12. Measurement of O.B. and Coal:-

The measurement of O.B. and Coal shall be done by the surveyor along with the agency in accordance with survey measurement as prescribed in the code for uniform system of maintenance, control and verification of coal stock in all mines of CIL, as described below :

Initial surveying and leveling: -

a) Before an area is taken up for opencast mining, masonry pillars are constructed at 30 Meter intervals. The pillars are so constructed that when they are joined in one direction, a series of parallel lines is formed in the general direction of the proposed face/ faces. The lines formed by pillars joined in another direction will be at right angle to the first set of lines. The ground levels at the pillars and at 15 meter intervals will be taken. In case of a working quarry, pillars will be constructed on the solid ground in the virgin area of the quarry. The levels will however, be taken in the working area as well as in the virgin area. Each pillar will be numbered and the number engraved in it.

b) In case of working opencast mines where masonry pillars as indicated in (a) above were not constructed, a base line should be laid with masonry pillars constructed at 30 Meter intervals . Another line should be laid at right angle to this base line on which also masonry pillars should be constructed at 10 Meter intervals. These two lines should become the reference lines which should be utilized for making quarry sections at 15 Meter intervals parallel to both the reference lines. The first set of section should be made based upon surveying and leveling conducted by the Area surveyors which would give initial profile of the opencast. Thereafter, every month surveying should be carried out for making the new profiles of the opencast in order to arrive at the quantity or correct excavation of coal and overburden.

- c) In case of opencast mine being worked on developed workings either in single section or multisections, offset survey should be carried out to assess the quantity of coal locked in pillars/ stooks and partings. This will form the basis of calculation of extracted quantity of coal when the pillars/ stooks and partings are mined out by opencast method.
The running on account bill will be raised every month or stipulated in the workorder/ contract agreement and payment will be made within 30 (thirty) days from the date of passing of the bill by the executing authority.

13.1. If the surface is too much undulated, the intervals of measurement may be suitably reduced from 15 Meter.

13.2 Maintenance of records:-

The plan of the quarry will be drawn on cartridge paper on 1:500 scale and the ground level will be recorded at 15 Meter intervals. The intervals may be further reduced , if found necessary. The number of each pillar will be recorded on the plan.

13.3 Subsequent Surveying and Leveling :-

The levels of the overburden at 15 Meter intervals at the exact spots, where initial levels were taken, will be taken in the working area at the end of each month. The dates of all such measurements and also the date of initial measurement will be recorder on the plan along with the reduced level of each point. If the entries are too numerous and difficult to accommodate on the plan, a register may be maintained for recording the levels with dates.

13.4 When coal seam is exposed, the levels of top of the seam will be taken before the coal is extracted. Similarly, the levels of floor will be taken before the area is back filled or allowed to get drowned.

13.5 In the excavated portion also, the levels of the points along the grid where there are abrupt changes in the levels should also be taken.

13.6 A Bench Mark and a base line will be maintained at suitable places away from the quarry on firm undisturbed ground. The levels and positions of the pillars should be rechecked in reference to the bench mark and base line every six months.

13.7 Measurement of Overburden Removal:-

Any standard method for measurement of quantity of overburden removed can be adopted. But, once a method is adopted it will not be changed. Either of the two methods as described at sl. No. 14 & 15 at page- 3 of 'Code for uniform system of maintenance, control and verification of Coal Stock in all mines of CIL shall be adopted.

13.8 Measurement of Coal Removal:-

Volumetric measurement of coal production can be found out in the same manner as in the case of OBR. In this case the levels from top of the seam up to the floor of the seam will be considered.

14. Regulations in payment for coal

The volumetric quantities of coal shall be calculated in accordance with prescribed guidelines in above para No. 15. The same shall be converted in tonne and shall be reconciled with the quantity dispatched as per weighment of Railway/ Truck receipts.

Payment will be made on the lesser of the quantities as determined by the above modes.

15. A). Payment will be released on quantity of coal despatched outside the leasehold limits of the quarry and quantity of overburden removed for the above purpose as calculated on the basis of stripping ratio mentioned in the bill of quantities in tender documents. Payment of coal and OB shall be regulated in the following manner :-

- a) On account payment for removal of OB (as per average monthly quantity in work schedule) will be admissible to the extent of 50% (fifty percent) of the quantity of OB disposed off by the contractor till the time coal is exposed for extraction subject to fulfillment of OB removal schedule.
- b) Full value of payment due for coal produced/ dispatched within contract quantity shall be paid in on account bills.
- c) Full value of payment for OB actually removed or OB commensurate to coal produced, whichever is less shall be paid in on account bills.
- d) 50% (fifty percent) of payment for OB removal in excess of commensurate quantity within contract quantity will be paid in on account bills.

Above stipulation for progressive payment is to ensure compliance of targets as per work schedule. However, actual quantity executed as certified in the joint measurement shall be paid in the final bill after reconciliation.

B) Release of payment after extraction/ production of coal and transportation to surface dump by the contractor **in those cases where the contractor is not responsible for nondispatch of coal from surface dump** the following system(as has been approved in piecemeal cases)

- i) 80% payment for the coal produced and transported up to Dump to be considered for payment.
- ii) Balance 20% payment from the above coal produced and transported will be released only after despatch of the total coal considered at Sl .No. (i)
- iii) The volumetric quantity of coal produced/transported and dumped at Surface Dump as per BOQ shall be calculated in accordance with the prescribed guidelines of the yellow book and same shall be converted into tonne for considering the above payment.
- iv) Final payment for coal will be regulated in accordance with clause of work order issued to the Agency for the work.
- v) Release of payment for the quantities of OB commensurate with 80% quantity of coal produced and transported to dump.

For releasing such payments as at 'B' the approval of CMD BCCL will be required with information to Board. Area will only process such proposals where the contractor is not responsible for non-despatch of coal.

16. Earth as available in the excavation may be kept revived for use/used as far as possible in the top layer or reclamation/covering the back filling or as directed.

17. The custodial responsibility in respect of the property of the management or of the contractor will rest on the contractor fully from the date of the issue of Letter of Acceptance/ Work Order till the completion/ termination of the work and handing over the property back to the management.

18. The company (BCCL) shall provide the required land for execution entirely/ in a phased manner and/or restrict the magnitude of the work depending upon the availability of land for the purpose for which the contractor will have no claim on BCCL and no compensation on this ground will be paid to the contractor.
19. The cost of manpower & materials required for making pillars etc. for survey measurement shall be on the account of contractor/contractors and rates quoted by the tenderer deemed to have included the cost.
20. Notwithstanding the provision at clause 9.4 of “condition of Contract” the contractor may please note that this contract may be fore-closed in May 2010 without giving any Notice.
21. **The bidders are required to sign the Integrity Pact as per format given in Tender Document Part-I**

INTEGRITY PACT

Between

BHARAT COKING COAL LIMITED (BCCL) hereinafter referred to as “The Principal”

And

.....hereinafter referred to as “The Bidder/Contract”

Preamble

The Principal intends to award, under laid down organizational procedures, contract/s for -----, The Principal values full compliance with all relevant laws and regulations, and the principles of economic use of resources, and of fairness and transparency in its relations with its Bidder/s and Contractor/s.

In order to achieve these goals, the Principal cooperates with the renowned international Non-Governmental Organisation “Transparency International” (TI). Following TI’s national and international experience, the Principal will appoint an external independent Monitor who will monitor the tender process and the execution of the contract for compliance with the principles mentioned above.

Section 1 – Commitments of the Principal

- (1) The Principal commits itself to take all measures necessary to prevent corruption and to observe the following principles:-
 1. No employee of the Principal, personally or through family members, will in connection with the tender for, or the execution of a contract, demand, take a promise for or accept, for him/herself or third person, any material or immaterial benefit which he/she is not legally entitled to.
 2. The Principal will, during the tender process treat all Bidders with equity and reason. The Principal will in particular, before and during the tender process, provide to all Bidders the same information and will not provide to any Bidder confidential/additional information through which the Bidder could obtain an advantage in relation to the tender process or the contract execution.
 3. The Principal will exclude from the process all known prejudiced persons.
- (2) If the Principal obtains information on the conduct of any of its employees which is a criminal offence under the relevant Anti-Corruption Laws of India, or if there be a substantive suspicion in this regard, the Principal will inform its Vigilance Office and in addition can initiate disciplinary actions.

Section 2 – Commitments of the Bidder/Contractor

- (1) The Bidder/Contractor commits itself to take all measures necessary to prevent corruption. He commits himself to observe the following principles during his participation in the tender process and during the contract execution.
 1. The Bidder/Contractor will not, directly or through any other person or firm, offer, promise or give to any of the Principal's employees involved in the tender process or the execution of the contract or to any third person any material or immaterial benefit which he/she is not legally entitled to, in order to obtain in exchange any advantage of any kind whatsoever during the tender process or during the execution of the contract.
 2. The Bidder/Contractor will not enter with other Bidders into any undisclosed agreement or understanding, whether formal or informal. This applies in particular to prices, specifications, certifications, subsidiary contracts, submission or non-submission of bids or any other actions to restrict competitiveness or to introduce cartelisation in the bidding process.
 3. The Bidder/Contractor will not commit any offence under the relevant Anti-corruption Laws of India; further the Bidder/Contractor will not use improperly, for purposes of competition or personal gain, or pass on to others, any information or document provided by the Principal as part of the business relationship, regarding plans, technical proposals and business details, including information contained or transmitted electronically.
 4. The Bidder/Contractor will, when presenting his bid, disclose any and all payments he has made, is committed to or intends to make to agents, brokers or any other intermediaries in connection with the award of the contract.
- (2) The Bidder/Contractor will not instigate third persons to commit offences outlined above or be an accessory to such offences.

Section 3 – Disqualification from tender process and exclusion from future contracts

If the Bidder, before contract award has committed a transgression through a violation of Section 2 or in any other form such as to put his reliability or credibility as Bidder into question, the Principal is entitled to disqualify the Bidder from the tender process or to terminate the contract, if already signed, for such reason.

1. If the Bidder/Contractor has committed a transgression through a violation of Section 2 such as to put his reliability or credibility into question, the Principal is entitled also to exclude the Bidder/Contractor from future contract award processes. The imposition and duration of the exclusion will be determined by the severity of the transgression. The severity will be determined by the circumstances of the case, in particular the number of transgressions, the position of the transgressions within the company hierarchy of the Bidder and the amount of the damage. The exclusion will be imposed for a minimum of 6 months and maximum of 3 years.

2. The Bidder accepts and undertakes to respect and uphold the Principal's absolute right to resort to and impose such exclusion and further accepts and undertakes not to challenge or question such exclusion on any ground, including the lack of any hearing before the decision to resort to such exclusion is taken. This undertaking is given freely and after obtaining independent legal advice.
3. If the Bidder/Contractor can prove that he has restored/recouped the damage caused by him and has installed a suitable corruption prevention system, the Principal may revoke the exclusion prematurely.
4. A transgression is considered to have occurred if in light of available evidence no reasonable doubt is possible.

Section 4 – Compensation for Damages

1. If the Principal has disqualified the Bidder from the tender process prior to the award according to Section 3, the Principal is entitled to demand and recover from the Bidder liquidated damages equivalent to 3 % of the value of the offer or the amount equivalent to Earnest Money Deposit/Bid Security, whichever is higher.
2. If the Principal has terminated the contract according to Section 3, or if the Principal is entitled to terminate the contract according to section 3, the Principal shall be entitled to demand and recover from the Contractor liquidated damages equivalent to 5% of the contract value or the amount equivalent to Security Deposit/Performance Bank Guarantee, whichever is higher.
3. The bidder agrees and undertakes to pay the said amounts without protest or demur subject only to condition that if the Bidder/Contractor can prove and establish that the exclusion of the Bidder from the tender process or the termination of the contract after the contract award has caused no damage or less damage than the amount or the liquidated damages, the Bidder/Contractor shall compensate the Principal only to the extent of the damage in the amount proved.

Section 5 – Previous transgression

1. The Bidder declares that no previous transgression occurred in the last 3 years with any other Company in any country conforming to the TI approach or with any other Public Sector Enterprise in India that could justify his exclusion from the tender process.
2. If the Bidder makes incorrect statement on this subject, he can be disqualified from the tender process or the contract, if already awarded, can be terminated for such reason.

Section 6 – Equal treatment of all Bidders/Contractor/Subcontractors

1. The Bidder/Contractor undertakes to demand from all subcontractors a commitment in conformity with this Integrity Pact, and to submit it to the Principal before contract signing.

2. The Principal will enter into agreements with identical conditions as this one with all Bidders, Contractors and Subcontractors.
3. The Principal will disqualify from the tender process all bidders who do not sign this Pact or violate its provisions.

Section 7 – Criminal charges against violating Bidders/Contractors/Subcontractors

If the Principal obtains knowledge of conduct of a Bidder, Contractor or Subcontractor, or of an employee or a representative or an associate of a Bidder, Contractor or Subcontractor, which constitutes corruption, or if the Principal has substantive suspicion in this regard, the Principal will inform the Vigilance Office.

Section 8 – External Independent Monitor/Monitors (three in number depending on the size of the contract) (to be decided by the Chairperson of the Principal)

1. The Principal appoints competent and credible external independent Monitor for this Pact. The task of the Monitor is to review independently and objectively, whether and to what extent the parties comply with the obligations under this agreement.
2. The Monitor is not subject to instructions by the representatives of the parties and performs his functions neutrally and independently. He reports to the Chairperson of the Board of the Principal.
3. The Contractor accepts that the Monitor has the right to access without restriction to all Project documentation of the Principal including that provided by the Contractor. The Contractor will also grant the Monitor, upon his request and demonstration of a valid interest, unrestricted and unconditional access to his project documentation. The same is applicable to Subcontractors. The Monitor is under contractual obligation to treat the information and documents of the Bidder/Contractor/Subcontractor with confidentiality.
4. The Principal will provide to the Monitor sufficient information about all meetings among the parties related to the Project provided such meetings could have an impact on the contractual relations between the Principal and the Contractor. The parties offer to the Monitor the option to participate in such meetings.
5. As soon as the Monitor notices, or believes to notice, a violation of this agreement, he will so inform the Management of the Principal and request the Management to discontinue or heal the violation, or to take other relevant action. The monitor can in this regard submit non-binding recommendations. Beyond this, the Monitor has no right to demand from the parties that they act in a specific manner, refrain from action or tolerate action.
6. The Monitor will submit a written report to the Chairperson of the Board of the Principal within 8 to 10 weeks from the date of reference or intimation to him by the 'Principal' and, should the occasion arise, submit proposals for correcting problematic situations.
7. Monitor shall be entitled to compensation on the same terms as being extended to/provided to Outside Expert Committee members/Chairman as prevailing with Principal.

8. If the Monitor has reported to the Chairperson of the Board a substantiated suspicion of an offence under relevant Anti-Corruption Laws of India, and the Chairperson has not, within reasonable time, taken visible action to proceed against such offence or reported it to the Vigilance Office, the Monitor may also transmit this information directly to the Central Vigilance Commissioner, Government of India.
9. The word 'Monitor' would include both singular and plural.

Section 9 – Pact Duration

This Pact begins when both parties have legally signed it. It expires for the Contractor 12 months after the last payment under the respective contract, and for all other Bidders 6 months after the contract has been awarded.

If any claim is made/ lodged during this time, the same shall be binding and continue to be valid despite the lapse of this pact as specified above, unless it is discharged/determined by Chairperson of the Principal.

Section 10 – Other provisions

- 1.This agreement is subject to Indian Law. Place of performance and jurisdiction is the Registered Office of the Principal, i.e. New Delhi.
- 2.Changes and supplements as well as termination notices need to be made in writing. Side agreements have not been made.
- 3.If the Contractor is a partnership or a consortium, this agreement must be, signed by all partners or consortium members.
- 4.Should one or several provisions of this agreement turn out to be invalid, the remainder of this agreement remains valid. In this case, the parties will strive to come to an agreement to their original intentions.

The Guarantee shall remain in force until the dues of the company in respect of the said sum of Rs----- and interest are fully satisfied and the company certifies that the contract has been fully carried out by the contractor and discharged the guarantee.

The Bank further agrees with the company that the company shall have the fullest liberty without consent of the Bank and without affecting in any way the obligations hereunder to vary any of the terms and conditions of the said contract or to extend time for performance of the said contract from time to time or to postpone for any time or from time to time any of the powers exercisable by the company against the contractor and to forbear to enforce any of the terms and conditions relating to the said contract and the Bank shall not be relieved from its liability by reason of such failure or extension

being granted to the contractor or to any forbearance, act or omissions on the part of the company or any indulgence by the company to the contractor or any other matter or thing whatsoever which under the law relating to sureties would but for this provision have the effect of relieving or discharging the Guarantor.

The Bank further agrees that in case this guarantee is required for a longer period and it is not extended by the Bank beyond the period specified above, the Bank shall pay to the company the said sum of Rs ----- or such

lesser sum as may then be due to the company and as the company may require..
Notwithstanding anything contained herein the liability of the Bank under this
Guarantee is restricted to Rs----- the guarantee shall remain in force till the
day ----- of ----- and unless the Guarantee is renewed or claim is
preferred against the Bank within six months from the said date all rights of the
company under this Guarantee shall cease and the Bank shall be relieved and
discharged from all liabilities hereunder except as provided in the preceding
clause.

The Guarantee will not be discharged due to the change in the constitution of the
Bank or the contractor.

The Bank has under its constitution power to give this Guarantee and Shri-----
