

Minutes of Pre-bid meeting held on 23.06.2010 with respect to procurement of LED Cap Lamp Complete against Tender No. BCCL/PUR/5700001/Led Caplamp Complete/E&M/10-11/15 due on 12-07-2010 .

Request for clarification by the prospective bidders	NIT Specifications	Clarifications given by BCCL
1)Whether Ni –mh battery with weight less than 1 Kg is acceptable.	<u>Type & Weight of Battery.</u> LI-Ion Battery with Wt. not more than 700 gms.	Since change of type of Battery and Weight will amount to change of NIT so it cannot be accepted.
2)Provenness criteria say that only DGMS approved Firms will qualify, while technical specifications mentions that item should be BIS certified and DGMS approved type for use in U/G Mines. Please clarify above.	<u>Provenness Criteria</u> Manufactures having valid DGMS approval for tendered item on the date of tender opening.	Only those offers are acceptable which fulfill the provenness criteria of the NIT and also confirm BIS certification on the date of tender opening.
3)NIT is silent on length of “Connecting Cable”	NIT is Silent on “Connecting Cable”	Since LED Caplamp should be BIS certified, technical parameters for connecting cable also must confirm to BIS Specifications and DGMS approved type.
4)Is there any relaxation possible for Uniform Illumination as given in the NIT	Uniform Illumination of not less than 1500 Lux throughout the operation till 10 Hrs after switch on	No relaxation is to be given and it should be strictly as per NIT.
