- i) Tender [**Cover-I** (Technical Bid) and **Cover-II** (Price Bid)] will be decrypted and opened online on the prescheduled date and after the prescheduled time of tender opening. After opening of bid the system will show the lowest rate quoted by bidder (L1).
- ii) The e-Procurement System will evaluate the Technical bids automatically on the basis of relevant data provided by bidder through a form in an objective and structured manner while submitting bid. If the parameter given by bidder in objective and structured manner does not confirm to required eligibility criteria as specified in the tender document then the bid will be automatically rejected by the system. The system will automatically upload the technical opening summary and technical evaluation summary.
- iii) Acceptance of Bidder in a general form of online declaration will be recognized and accepted as the certification regarding authenticity of all the information and documents furnished by them online and acceptance of all terms and conditions of the bid document, since such acceptance by Bidder with Digital Signature Certificate is legally tenable.
- iv) H1 bid will be eliminated during price bid opening, if more than three techno-commercially acceptable bids are available as per the evaluation done by the system and such bidder will not be allowed to participate in reverse auction. If two or three bidders have quoted same H1 land cost (i.e. Cost to Company), the bidder(s) who submitted/ frozen the bid later, shall be rejected and will not be allowed to participate in reverse auction.

v) **REVERSE AUCTION PROCESS:**

(Reverse Auction in Discount Bidding tender shall be applicable for the estimated cost of Rs. 1 crore and above.)

1. Reverse Auction will be initiated after opening of price bids.
2. There will be no participation fees for e-Reverse auction.
3. Upon opening of the price bids, a reverse auction platform will be created, displaying only the L1 price received. No indication will be available in the portal to anybody regarding number of bids and names of the bidders.
4. System displays L1 cost to company price automatically in auction creation form and allows TIA to edit the value as 'start bid' price. For the time being L1 Price or **[approved estimated/justified price excluding GST (only estimated price in case of mining tenders)+ applicable GST including GST Compensation Cess, if any, taking into consideration Input tax credit, if applicable] + 10%** whichever is lower will be the start bid price for tenders for works and services. The estimated price should be based on SOR (Schedule of Rates) and market analysed rates in case of items/services for which SOR is not available. Wherever SOR is not available, preparation of SOR should be made in a scientific manner based on proper justification on priority. **If the L-1 price is higher than the Start Bid Price (as above) and the RAP is not triggered within the scheduled time, the cases will be retendered.**
5. The L1 price / start bid price is cost to the company price on which the auction will be initiated. On completion of reverse auction, the L1 bidder has to submit break up of prices conforming to the lowest landed rate quoted by him in the reverse auction.
6. Once reverse auction gets over all the bidder(s) who have participated in the reverse auction have to upload the Breakup of cost to company Prices in the confirmatory documents. The detailed Break-up of offered cost to company price, uploaded by the bidder shall be considered and order, if placed, shall be with the same break-up of prices. The bidder(s) after reverse auction will be responsible to ensure that the cost to company rate as per the breakup of prices provided by him after the reverse auction and the cost to company rate offered by him in the reverse auction is exactly same. The bidder will not be allowed to

increase the rate of any item while submitting the break up. While giving the break up, the bidder will have to consider same rate of taxes and duties as quoted while submitting the e price bid. In case the bidder(s) fail(s) to submit the break-up of cost to company price within stipulated period or the break up given by bidder does not match with total offered price, the Company will be at liberty to place order by proportionately reducing item rates on basis of the breakup of the e-price bid submitted by the bidder along with the initial offer and the same will be binding on the bidder. The reverse auction will be conducted on the composite cost to company price.

7. The decrement value will be 0.5 % of the start bid price with minimum of Rs.1/-, as the system does not have a provision of taking amounts less than Rs.1/- as decrement value. The reduction shall have to be made as per decrement value or in multiple thereof. The maximum seal Percentage in one go will be fixed as 2% of Start bid price / last quoted price during reverse auction, whichever is lower.
In order to have ease of submission of reverse auction bid by the bidders, it is suggested that decrement value may be rounded off to nearest value as under:
For decrement values up to Rs.10/-, rounding off may be made to nearest rupee.
For decrement values from Rs.11/- to Rs.100/-, rounding off may be made to nearest 10.
For decrement value from Rs.101/- to Rs.1,000/-, rounding off may be made to nearest 100.
For decrement value from Rs.1,001/- to Rs.10,000/-, rounding off may be made to nearest 1000. and so on
8. Initial period of reverse auction will be two hours. There will be auto extensions of time every time by ten minutes in case of any reduction recorded in the last ten minutes. The reverse auction will come to a close only when there is no further reduction recorded in the last ten minutes slot.
9. System protects bid and bidder information till auction gets over and displays current L1 price to the bidder in auction hall.
10. System provides bidder details along with bid documents at the end of reverse auction process.
11. The log details of the entire reverse auction process will be generated by the system once the process of reverse auction is completed.
12. If a bidder does not submit his bid in the Reverse Auction, the price quoted by him in the price bid shall be considered as the valid price of that bidder. The status of the bidder (L1, L2 etc) shall be evaluated considering either the bid price submitted in Reverse auction or the Price quoted in the price bid, whichever is lower.
13. Deleted.
14. The bid history shall reflect only the landed price. The landed price shall also not be same for two bidders even if any bidder makes such an attempt.
15. Only the chronologically last bid submitted by the bidder till the end of the auction shall be considered as the valid price bid of that bidder. Any bid submitted earlier by the bidder prior to submission of his last bid will not be considered as the valid price bid.
16. Server time shall be the basis of Start time & Closing time for bidding and shall be binding for all. This would be visible to all concerned.
17. On expiry of the closing of the auction, the bid history showing all the last valid bids offered along with name of the bidders shall be published. All bidders shall have the facility to see and get a print of the same for their record.
18. All electronic bids submitted during the reverse auction process shall be legally binding on the bidder. The chronologically last bid submitted by the bidder till the end of the auction will be considered as the valid price bid offered by that bidder and acceptance of the same by BCCL will form a binding contract between BCCL and the bidder for entering into a contract.
19. Conditional discounts shall not be considered. If a bidder offers a discount unilaterally after submission of bid, the discount shall not be considered for evaluation of offers but shall be availed if order is placed on such tenderer.
20. If the lowest price received during reverse auction is unreasonable or it is unacceptable on ground of being too high or too low compared with estimated price, the management reserves right to seek justification of the price from lowest bidder. If the price is not considered reasonable, management may not accept such bid and go for another tender process.
21. In such a situation, the last recorded lowest price of prematurely ended RAP, will be the 'Start Bid' price for the restarted RAP. The prices quoted in the prematurely ended RAP will be binding on all the bidders for consideration, if the restarted RAP does not trigger within the stipulated time.
Disruption and restarting of RAP shall be intimated to all the bidders through system/SMS/e-mail through e procurement portal. All the time stipulations of normal RAP will be applicable to the restarted RAP.

10. Tender Status:

It will be the bidder's responsibility to check the status of their Bid online regularly, after the opening of bid till award of contract. Additionally, information shall also be sent by system generated e-mail and SMS at nodal points (Date of bid opening, Requisition for Clarification on Confirmatory document from L-1 bidder, award of work etc.). No separate communication will be required in this regard. Non-receipt of e-mail and SMS will not be accepted as a reason of non-submission of Confirmatory documents within prescribed time. The Tender Status will be in public domain and anyone visiting the site can view it by identifying the tender.

11. Bid Validity:

The validity of bids shall be not less than **120 (one hundred twenty)** days from the final end date of submission of bid considering all extensions, if there.

12. Modification and Withdrawal of Bid:

- 1 Modification of the submitted bid shall be allowed online only before the deadline of submission of tender and the bidder may modify and resubmit the bid online as much time as he/she may wish.
- 2 Bidders may withdraw their bid online within the end date of bid submission and their EMD will be refunded. However, if the bidder once withdraws his bid, he will not be able to resubmit the bid in that particular tender.
- 3 For withdrawal of bid after the end date of bid submission, the bidder will have to make a request in writing to the Tender Inviting Authority. Withdrawal of bid may be allowed till issue of work order/LOA with the following provisions of penal action:
 - (a) The EMD will be forfeited
And
 - (b) The bidder will be debarred for one (01) year from participating in tenders in BCCL.
The price bid of all eligible bidders including this bidder will be opened and action will follow as under:
 - (i) If the bidder withdrawing his bid is other than L1, the tender process shall go on.
 - (ii) If the bidder withdrawing his bid is L1, then re-tendering will be done

In case of above, a letter will be issued to the bidder stating that the EMD of bidder is forfeited, and this bidder is debarred for one (01) year from participating in tenders in BCCL. Penal action against clauses above will be enforced from the date of issue of such order.

- 4 The standard operating procedure to handle withdrawal of bid after end date of submission shall be as follows:

I. The Mode of Withdrawal:

A. Online Withdrawal of Bids:

- a. The system of online withdrawal is available on the portal up to end date of bid submission, where any bidder can withdraw his/her bid which will attract no penal action from department side.
- b. The system of online withdrawal beyond end date of bid submission and till award of contract is also available but not fully functional and under development stage. Once it is developed and implemented only online withdrawal shall be considered except for some exceptional cases as mentioned in clause below.

B. Offline Withdrawal of Bids:

- a. A partner of bidder (in case of JV/Consortium and partnership firms) whose DSC is registered on the e-Procurement portal can access the portal for online withdrawal but when there is a split in the business relationship, the partners whose DSC is not registered on the portal do not have the option of online withdrawal of bid. Hence such partners may opt to use offline method of withdrawal of his/her offer (or express his disassociation from the bidder organization).
- b. Till a fully functional system of online withdrawal of bid (beyond end date of bid submission and till award of contract) is not developed and implemented, offline withdrawal shall also be considered.

5. Acceptance of withdrawal: The Company will decide:

- a. Whether the request for withdrawal of offer has been received from right source and authentic. For this purpose, a letter is to be sent by registered post/speed post to the bidder on the address as given by him in the enrollment page of e-Procurement portal, allowing 10 days' time to confirm the withdrawal. If the bidder does not confirm the withdrawal within the stipulated period, then it should be construed that there is no withdrawal of bid. In case the withdrawal/disassociation from the firm (Joint Venture/Consortium or Partnership firm) has been submitted by any other partner then also the confirmation has to be sought from the bidder and if bidder wants to deny the withdrawal/disassociation from the JV/Consortium or the partnership firm then the bidder shall be required to furnish a legally acceptable document signed by all the partners of the firm to substantiate his claim.
- b. Whether the withdrawal is due to the reason other than to support any mala fide intention of any participating bidder such as participating or supporting a cartel formation etc.
- c. If the mala fide intentions in the withdrawal are apprehended then the tender should be cancelled apart from other penal action as specified in 3(a) & (b) above.
- d. If no mala fide intentions in the withdrawal are apprehended then the penal action as specified in 3(a) & (b) above shall be taken.

13. The Company reserves the right to postpone the date of receipt and opening of tenders or to cancel the tenders without assigning any reason whatsoever.

14. This Tender Notice shall be deemed to be part of the Contract Agreement.

15. The Company does not bind itself to accept the lowest bid and reserves the right to reject any or all the bid without assigning any reasons whatsoever and to split up the work between two or more tenderers or accept the tender in part and not in its entirety, at its sole discretion.

16. Any corrigendum/date extension etc. in respect of this tender shall be issued on our website <https://coalindiatenders.nic.in> only. No separate notification shall be issued in the press. Bidders are therefore requested to visit said portal regularly to keep them updated.

In exceptional situations in case of any disruption of service in e-Procurement portal infrastructure or EMD payment infrastructure, for a considerable period, an extension of end date of Bid submission for a period of 1-3 working days may be done after normal resumption of services. Bid opening date will correspondingly be extended. This extension shall be effected by Application Administrator or by the Portal Service Provider for all the tenders which are affected or likely to be affected due to such disruption of services/infrastructure.

Such corrigendum/date extension etc. in respect of this tender, if issued, will become the part of Tender Document.

17. Canvassing in connection with the tenders in any shape or form is strictly prohibited and tenders submitted by such Bidders who resort to canvassing shall be liable for rejection.

18. The tenderer shall have to ensure implementation of CMPF/EPF, as applicable, in respect of the workers deployed by him.

Where

D = Lead in Km

R = Variation in the price of Diesel from base price in Rs/litre

d = $-0.23D^2 + 0.429D + 0.3577$, for $D \leq 9\text{KM}$

and d = 2.535, for $D > 9\text{Km}$

C = Average tipper capacity (20 Te)

Formula for different combination of lead and average tipper capacity are as under:

VF=DR/7.64 (For a lead of 0-1 km)

VF= DR/11.24 (For a lead of 1-2 km)

VF= DR/14.38 (For a lead of 2-3 km)

VF= DR/17.06 (For a lead of 3-4 km)

Where, VF = Price Variation /Te due to variation in cost of diesel to be paid or recovered

C = Consumption in Litre/Te to be taken as 0.066 Litre/Te

FL = Revised price of diesel
