CHAIRMAN'S STATEMENT

Dear Shareholders,

With immense pleasure, on behalf of the Board of Directors of Bharat Coking Coal Limited (BCCL), I take the privilege to present to you the Annual Report for Financial Year 2022-23 and share the highlights for the year .

In FY 2023, despite many odds and challenges, your company made substantial progress in the physical front. The company produced 36.18 Million Tonne of Raw Coal as against a target of 32.00 Million Tonne. The Net sales of the company touched a record high of ₹12333.54 crore against ₹9445.58 crore during the previous financial year. This significant rise in sales has offset to a large extent the impact of wage revision, enabling the company to continue to earn profits. The profits (PAT) earned during FY 2022-23 was ₹645.01 crore against ₹111.62 crore during 2021-22. The net-worth of the Company stood at ₹3771.24 crore as on 31st March, 2023. During the year, the company also produced 1.43 Million Tonne of Washed Coking coal for supplies to various Steel Plants which helped reducing imports and thereby saving foreign exchange.

Several milestones achieved during the year, worth mentioning are as below:

- Highest growth (19%) and achievement (113%) in coal production among all subsidiaries of CIL
- Highest growth (10%) and achievement (111%) in off-take among all subsidiaries of CIL.
- Target achieved consecutively for two years and last year also highest in growth %age among all subsidiaries of CIL.
- Highest coal production and off-take in last 6 years.
- Highest ever off-take by Road (9.86 MT)
- Produced 1.43 Mill Te of Washed Coking Coal, which is the highest in last 12 years.
- Raw Coal Feed to Washery has increased to 4.42 Mill Te, which is the highest in last 17 years.
- BCCL has earned profits from the last seven consecutive quarters and two financial years despite impact of wage revision.
- The company had secured various awards on its performance viz. Coal Minister's Award, Corporate Award for Quality Awareness and Highest percentage increase in Net Sales from Coal India Ltd.

The above performance of the company is poised to improve further in the coming years with focus of management being in identification of new patches for production through contractual means, establishing new washeries under BOM (Build-Operate-Maintain) model, and renovation of existing washeries under ROM (Renovate-Operate-Maintain) model. In this direction several steps taken by the company can be illustrated as below:

- i. 16 nos. Hired Patches with annual capacity of 10.767 Mill Te were identified during 2022-23. Letter of Agreement (LOA) issued against 7 Patches with annual capacity of 3.23 Mill Te, tendering completed for 3 patches and remaining 6 patches are under different stages of approval.
- ii. Revised Project Report (RPR) for Amalgamated NTST Kujama OCP of 8.5 MTY capacity has been approved by BCCL Board for implementation of the project in MDO mode of operation.
- iii. 1st higwall Project in MDO Mode at Block II OCP across CIL.
- iv. LOA issued for 4 abandoned mines under Revenue Sharing Mode (Salanpur-AGKC, PB Project Colliery and Loyabad Mine on 21.03.2023 and Kharkharee Mine on 25.04.2023).
- v. Construction of four new washeries namely, 5.0 MTPA Madhuban washery (nearing completion), 2.5 MTPA Patherdih washery (under construction), 2.0 MTPA Bhojudih washery (under construction) and 2.5 MTPA Moonidih washery (tender finalised).
- vi. Monetization of 04 nos. of old existing Washerries i.e Dugda, Mahuda, Sudamdih and Madhuban washeries are under process.

1. PROJECT PROFILE

Your company has been making continuous effort to use modern technology in operation of mine and in this regard company is in the process of introducing Highwall Mining Technology for the first time in BCCL and also Continuous Miner technology in its mines.

In a significant development for restoration of workings in the discontinued underground mines, it has been decided to reopen, develop and operate some of the discontinued mines through MDO mode on revenue sharing basis. Bids have been received and LOA issued for four such mines viz., PB Project, Salanpur-AGKC, Kharkharee and Loyabad. With the encouraging participation by the MDO operators for restoration of operation of the discontinued mines, a paradigm shift in searching for a new source of earning revenue is envisaged.

With a view to generating revenue from idle assets, steps for monetization of old washeries have been undertaken and in this direction, Board of Directors of BCCL has given in principle approval for monetization of four nos. of old existing washeries.

In a bid to reduce dependency on conventional source of energy, your company has been quite successful in installing Roof Top Solar Projects as well as Ground Mounted Solar Projects in different locations of BCCL command area and during 2022-23. 7.25 KWH of solar power could be generated from two of its Roof Top Solar Projects. 25 MW Ground Mounted Solar Power at Bhojudih Washery is under construction and LOA has been issued for 20 MW Ground Mounted Solar Power at Dugdha Washery.

The company has also taken steps to replace its old equipment's with new ones and there has been substantial investment in acquiring lands which will help bolster its future production. During the year, the Capex was ₹986.50 crore as against targeted ₹900.00 crore.

2. ACHIEVEMENTS IN ECOLOGY AND ENVIRONMENTAL AREA

Sustainable growth of business depends upon the key concept of Environmental Social and Governance (ESG) Management and BCCL has always endeavored to do business with sustainable measures with concerted efforts

of employees of BCCL and all other stakeholders. BCCL has made and continues to make sustained and large-scale efforts for better environment as a responsible corporate citizen of the country.

Your company along with establishment of the natural forests over the degraded mined out areas and OB dumps has also been developing eco-parks over some degraded mined out areas and OB dump sites and BCCL has been the pioneer in the mining industry in establishment of Eco-Parks.

Your company, along with development of the natural forests, has also been developing eco-parks over the degraded mined out areas and OB dumps and BCCL has emerged as the pioneer in the mining industry in establishing Eco-Parks. During the period, the company has developed 2 nos. of eco-parks at Bera and Kuya, achieved Biological reclamation on 84.49 Ha degraded land and Plantation of more than 1.26 lakh plants. We also installed 39 nos. of Online PM10 Analysers to continually monitor the air quality of surrounding areas and purchased 2 nos. of Mist sprinklers and 22 nos. of Fog Cannons (T ruck and Trolley mounted) for dust suppression in the peripheral area of the mines.

BCCL has taken various measures to sensitize all stakeholders for developing a better environment which includes arrangement of Environmental Workshops, conducting Eco-Mining Tourism etc. In order to curb pollution various preventive measures such as deployment of sprinklers for dust suppression, wheel washing arrangement, CHPs, Bio medical waste management etc. have been undertaken in a dedicated manner.

3. SAFETY MEASURES

Safety of Mine and miners remains top priority in the agenda of BCCL. BCCL lays as much importance on Safety aspects as it does on its performance parameters. The primary concern of BCCL is to safeguard its prime assets - Men, Mines and Machines. In BCCL, safety norms are viewed holistically to make all mining operations safe and hazard free. For achieving the target of 'Zero Accident', your company prepares, plans and equips itself on regular basis.

For ensuring the safety of Men, Mines and Machines, various preventive measures have been undertaken such as:

- i. Deployment of statutory persons for supervision, management, direction and control of mining activities as per provision of statute and as per the requirements of permission granted by DGMS,
- ii. Inspections of mines by Safety committee and workmen's inspectors
- iii. Backshift inspections of mines by ISO officials,
- iv. Surprise inspection of mines by ISO officials,
- v. Compliance of violations pointed out by DGMS, ISO and other agencies etc.
- vi. BCCL is in the process of up-gradation of its two nos. of VTCs namely Barora GVTC and Moonidih VTC as 'Centre of Excellence'.
- vii. Phase I,II and III of Safety Audit- 2022-23 of all the working mines of BCCL has been completed
- viii. Mines Rescue Station Dhansar has been accorded permission by DGMS to impart training in First Aid.
- ix. 10 Fiery Mines has been audited by CIMFR.
- x. Annual Mines Safety Week 2022 has been organized and celebrated in all mines of BCCL in February, 2023.

The safety performance of the company is also being appraised to Board of Directors regularly.

4. PRODUCT AND SERVICE QUALITY

BCCL is always concerned with the increased consciousness and aspiration of the customers for getting coal conforming to the declared grade. In its endeavor to meet this ever increasing justified demand of the consumers, third Party sampling at all loading points has been successfully implemented for all the consumers of BCCL in respect of all modes of coal dispatch. A Standard Operating Procedure (SOP) has also been implemented for maintenance of grade of coal and supply of crushed coal to the consumers, maintaining separate stock pile for fiery and non-fiery coal; and this measures have started bearing fruit as is envisaged from the market improvement in quality of coal and grade confirmation results. During 2022-23 grade confirmation percentage after Referee results has gone up to 83.9% from 81.7% achieved previous year. In recognition of its achievement in quality parameter, BCCL secured 2nd Prize in Quality parameter in Coal Minister's Award during 2021-22.

5. CORPORATE GOVERNANCE

With a view to maintain high standards of Corporate Governance, BCCL has complied with the conditions of Corporate Governance as stipulated in the guidelines for Corporate Governance for Central Public Sector Enterprise (CPSEs) issued by Department of Public Enterprise (DPE), Government of India, and requirement of the corporate laws time to time. Continuous effort is made to adhere to the guidelines and Board is also apprised about the compliance of the various guidelines applicable to the company on a regular basis. All the sub committees of the Board assigned with specific roles have been regularly holding meetings and providing their feedback to Board and providing necessary support to the Board. The practicing Company Secretary has also issued a Certificate regarding compliance of conditions of Corporate Governance during the year 2022-23. Further, since the implementation of the Companies Act, 2013, Secretarial Audit is being conducted every year to bring more transparency and to ensure compliance of the various laws applicable to the company

6. JHARIA MASTER PLAN

BCCL has been implementing the Jharia Master Plan for dealing with fire, subsidence and rehabilitation in the lease hold of Bharat Coking Coal Limited (BCCL) since 2009. The coal mine fire survey was instituted by BCCL through National Remote Sensing Center (NRSC), Hyderabad for delineation of surface coal fires in Jharia Coal Field. As per latest survey of 2021-22, 27 locations are to be dealt for the above-mentioned purpose. As per latest report of NRSC, fire has substantially reduced to 1.8 sq km at 10 locations.

7. CORPORATE SOCIAL RESPONSIBILITY

Your company, while carrying on its Coal mining activities, is also focusing on improving the quality of the life of the people residing in around its Coal mining areas through its Corporate Social Responsibility (CSR) activities in the areas of social significance, educational importance, healthcare, nutritional arrangements and disaster management in the operational areas. Being a responsible corporate entity, BCCL, through its CSR activities, has continued to demonstrate its unwavering commitment towards contributing to socio-economic development of the nation. CSR activities of BCCL are governed by the Rules framed in this regard under Companies Act, 2013, DPE guidelines on CSR and CSR policy of CIL.

During 2022-23, BCCL spent a record sum of ₹11.42 crore under the head CSR in different activities taken up during the year to support the marginalized and Project Affected Persons. Some of the major activities were financial assistance to State Administration for transforming 500 nos. of Model Aanganwadi Centers, Training of youths in CIPET, Skill development of Mahila Sahayata Group, etc.

8. VISION

BCCL is constantly working on imbuing agility in workforce, improving the capability of its employees and building a strong leadership pipeline. Various initiatives have been taken in Human Resource front, Excavation and mining related work, Marketing, R &D, Quality control area, etc. to make the organization's future bright. The Company is focusing on delivering high performance levels in all facets of its business. We are constantly working on improving its competitiveness. Efforts are underway for improving the profitability and thereby increasing the wealth of the stakeholders. Additionally, with strong focus on efficiency improvements, adoption of best business practices and optimum utilization of available resources, the Company plans to scale new heights and contribute to the goal of self-reliance and Import substitution of the nation.

9. ACKNOWLEDGMENT

We do place on record the help, cooperation and guidance extended to the company by various stakeholders such as Ministry of Coal and other Ministries/ Departments of Government of India, Coal India Limited, various Central and State Government Authorities, People's Representatives, Local Bodies, unions, our valued consumers, suppliers and other stakeholders.

I extend my sincere gratitude and appreciation to the entire BCCL fraternity including the Contractors, HEMM operators and their employees for working round the clock to keep the nation moving forward and I do sincerely hope that with your dedication and devotion for work, the company would do much better in the years to come and would continue to be the responsible corporate citizen in fulfilling the expectation of all the stakeholders. It would not be an exaggeration to say that my fellow Board members have always given their valuable suggestion and guidance within the sphere of their duties and responsibilities to make the company a valuable and responsible corporate citizen, for which I extend my heartiest thanks and gratitude to all of them.

Total		5805	19.17	2470.50	12.84

6.3 FURTHER STEPS TO SUPPLEMENT POWER AVAILABILITY

(a) CPP Moonidih(2×10MW):

CPP Moonidih was installed for utilization of washery rejects, meeting the emergent need of power in Moonidih (a three degree mine) & providing uninterrupted supply. The project was approved by Govt. of India in October, 1986. The plant was finally commissioned in 1995 & put in commercial operation with the help of departmental manpower in Nov, 1996 & was operated till 2003.

Thereafter the plant was leased out to M/S OSD Coke (Consortium) Private Limited on 18.03.2010 and started generation of power from April'2011. However due to some dispute in pricing related to fuel supply & power tariff, the lessee stopped generation of power from 15.04.2014.

Currently BCCL is evaluating the same for considering under monetization plan.

8. TELE COMMUNICATION & IT (Initiative)

1. IT Initiative

- i. MPLS-VPN links for data connectivity & ERP implementation have been provided at different locations of BCCL like road weighbridges, Biometric Attendance points, project offices etc.
- ii. First phase deployment of Biometric attendance system has been done at Barora, Bloc-II, Kusunda, PB, Bastacola & HQ. The said attendance system is also integrated with SAP for eliminating manual intervention in salary preparation.
- iii. Key-Telephone exchange have been installed & working for the use of Functional Directors along with all HoDs of Koyla Bhawan.
- iv. LAN Network has been built at Central hospital Dhanbad and at Baghmara Hospital, Barora Area for Hospital Management System.
- v. Procurement of 400 nos. of GPS devices for deployment at different areas for vehicle tracking system have been completed.
- vi. Internet Connectivity has been provided at all required locations like new road weighbridges, project offices, workshop etc. for carrying out internet related activities.

9. RISK MANAGEMENT:

The Risk Management Policy is in voke in the company. The Risk Management Committee is re-constituted with the induction of new members from time to time and the current composition of the committee is as under:

1. Shri Satyabrata Panda, Independent Director, BCCL, Chairman
2. Shri Sanjay Kumar Singh, Director (Tech.) OP , Member
3. Shri Uday A Kaole, Director (Tech.) P&P, Member
4. Shri Murlikrishna Ramaiah, Director (Personnel), Member

Various Risks That Matters (RTM) has been identified. A Risk Management team headed by Chief Risk Officer (CRO) in consultation with HoDs and under the guidance of the Risk Management Committee has implemented the governance process envisaged in the Risk Management Fraemwork along with regular & continuous monitoring of Risks That Matters (RTMs) BCCL.

10. COMPUTER & SYSTEM

INTRODUCTION OF SAP (SYSTEM ANALYSIS PROGRAMME)

- Coal India has implemented SAP based ERP solution across all the subsidiaries. Systems department in co-ordination with M/s Accenture, the System Integrator for SAP implementation in BCCL, has successfully implemented all the seven modules namely FICO,MM, PM, SD, PP, Project System and Human Capital Management.

- Some other measures to increase transparency have been introduced such as internal dispatch is being done on real time basis.
- The Diesel Dispensing Units of IOCL in BCCL have also been connected to SAP, recording real-time diesel consumption.
- Bank interface has been implemented.
- Hospital Management System has been implemented in BCCL automating the entire process starting from registration of patients, diagnosis and issue of medicines

11. GEOLOGICAL EXPLORATION AND DRILLING

11.1 Drilling and Installation of 23 nos. of Piezometric wells in BCCL command area:

BCCL has obtained environmental clearance of 16 clusters from MoEFCC and it is a statutory requirement to comply the specific conditions mentioned in the EC order. One such condition states: “Regular monitoring of ground water level and quality shall be carried out by establishing a network of existing wells and construction of new Piezometers.....”

On the basis of Report prepared by CMPDI on the said matter, Geology Department has taken up the work and successfully installed 23 Piezometric wells in BCCL command area within the stipulated time as per NIT. Details of established Piezometric wells are as below:

11.2 Coal quantity vetting for outsourced hired HEMM Patches :

Timely Vetting of coal quantity for 19 no. of proposals of outsourced hired HEMM Patches (for reserves below 3.00 MT) was done during FY 2022-23.

12. RESEARCH AND DEVELOPMENT

R&D Committee of BCCL consists of the following members:

SI. No.	Particulars	Designation
1.	Chairman	CMD
2.	Member	Director (Tech.), P&P
3.	Member	Director (Finance)
4.	Member Secretary	GM (R&D)
5.	Member	GM (Washeries Division)
6.	Member	HOD (P&P)
7.	Member	Concerned Department (depending on the projects)

Chairman of the R&D Committee of BCCL is empowered to co-opt two experts from Industry/ Educational Institution of repute/ Government Agencies on need basis to act as member of the Committee for tenure of three year.

12.1 MODERNISATION

In UG Mines, the Company is making effort to shift its operation from medium-level technology like SDL to Mass Production Technology e.g., Longwall & Continuous Miner Technology. The Company is going to implement Highwall Mining Technology, first time in BCCL. BCCL has also taken up initiatives to re-start production from some of its discontinued UG mines through MDO mode on Revenue Sharing Basis.

12.2 LONGWALL TECHNOLOGY:

At present, Production from the Longwall face of the XVI (T) seam along with coal from the drivages of the XV seam is going on at Moonidih mine. Production of 0.552695 Mte has been achieved in 2022-23.

Longwall Technology is under implementation at Muraidih UG mines. Sinking of air shaft and drivages of two nos. of Inclines are completed. Bolter Miner along with Feeder Breaker and Shuttle Cars transported to UG. Once Forest Clearance is obtained, coal production would commence from this mine by in-seam drivage of galleries.

12.3 CONTINUOUS MINER TECHNOLOGY:

A Project Report is under preparation at CMPDI considering property of Pure Benedih Incline Mine of Phularitand UG Section and Amalgamated Block-II OC Mine for introduction of Continuous Miner. Draft Project Report of Pure Benedih - Block-II UG Mine (1.83 MTY Capacity) was submitted by CMPDI on 06.03.2023. Suggestions of BCCL are being incorporated at CMPDI.

12.4 HIGHWALL MINING TECHNOLOGY:

Presently, two nos. of Highwall mining projects have been taken up in BCCL – one at Amalgamated Block-II OCP (ABOCP) and another at Rajapur OCP. LoA has been issued on 26.10.2022 for introduction of Highwall Mining technology at ABOCP of Block-II Area and contract agreement has been signed on 23.01.23 in this regard. NIT has been floated for another Highwall Mining project at Rajapur on 17.02.2023 and schedule date of opening of Part-I bid is 19.05.2023. Three more sites have been identified for implementation of Highwall mining and study is going on at these sites.

12.5. MDO ENGAGEMENT IN DISCONTINUED UG MINES:

Some discontinued mines have been identified by BCCL for reopening, development and operation through MDO mode on Revenue Sharing Basis. Tenders were floated for 08 discontinued mines.

Out of these 08 mines, bids were received for four mines namely PB Project, Salanpur-AGKC, Loyabad & Kharkharee mines. After evaluation of bids, LOAs have been issued to the successful bidders in respect of PB Project, Salanpur-AGKC, Loyabad and Kharkharee mines.

Tenders of balance 04 (four) mines, viz., Amlabad, Lohapatti, Madhuband and Begunia have been cancelled due to non-receipt of any bid. Re-tendering has been done for these four mines.

Tendering for two more discontinued mines i.e. Amalgamated East Bhagatdih Simlabahal and Dharmabandh Re-organised Project will be taken up in next tranche.

12.6. ONGOING MINING PROJECTS:

MINOP – Maheshwari Mining–BHEC(China) Consortium. The Project was approved on 14.02.2011 by the Board and the agreement was signed on 22.06.2012. • Work of shaft sinking & incline drivage was suspended from 20.11.2015 due to restrictions imposed by DGMS. At the time of suspension of work, shaft sinking was done up to 13 M while the inclines were driven up to 52 M & 48.5 M respectively and had touched the coal seam (III). • In the meantime, all works were suspended by the contractor, M/s MINOP, since 01.06.2016 seeking modification in some of the terms of payment in the agreement. • The matter was pursued with M/s. MINOP to commence the work. Work at the site commenced on 01.01.2020 after approval from DGMS. • Drivage of two nos. of Inclines and sinking of an air shaft completed. • Once forest clearance is obtained, coal production would commence from this mine by in-seam drivage of galleries.

12.10. CMM/CBM PROJECT

PRE-DRAINAGE OF METHANE FROM XVI SEAM MOONIDIH COLLIERY

- Pre-drainage of Methane from XVI T Seam of Moonidih Colliery was taken up as a demonstration project.
- After approval of the Pre-feasibility report (PFR) tender was floated twice, first on 07.09.2018 and then again on 09.07.2019 but the tender had to be cancelled on both the occasions as no bid was received despite two extensions.
- A fresh tender was floated on 31.03.2020 after the approval of the Modified Global Bid Document for floating of NIT. Tender was opened on 28.09.2020, and one bidder M/s Deep CH₄ Ltd participated in the tender but techno- commercially disqualified, hence Bid was rejected and cancelled.
- Work Order has been issued to CMPDI on 09.10.2020 for providing services as Project Management Consultant for pre-drainage of Methane from XVI top seam.
- At Moonidih XVIT seam panel development and extraction is being carried out concurrently and no advance panel development is being done at present. Further a delineated CBM Block-I for CBM development has been awarded to M/s. PEPL on revenue sharing basis and the proposed MM pre-drainage project is within the awarded Jharia CBM Block-I which is under exploration phase.

- In view of the above, CMPDI vide mail dated 20.01.2023 informed that advance panel development is required in order to degasify the coal seam and so it is difficult to plan for pre-drainage of CMM from Moonidih UG Mine without advance panel development. CMPDI further informed that as the proposed area of pre-drainage of CMM is within the Jharia CBM Block-I awarded to M/s. PEPL, it may have legal imperative if tender is floated for selection of technology provider for CMM drainage from XVIT seam of Moonidih UG Mine.

EXPLOITATION OF METHANE FROM JHARIA CBM/CMM BLOCK

- An area under mining leasehold of Kapuria, Moonidih, Jarma, and Singer blocks in BCCL, measuring around 26.55 Sq. Km has been delineated for commercial development.
- The Gas-In –Place over the delineated area of 26.55 Sq. Km has been assessed as 25 Billion Cubic meters (BCM). A comprehensive 30-year production profile for the full field has been developed.
- Project Feasibility Report was prepared by CMPDI and approved “in principle” by BCCL Board in its 345th meeting held on 03.08.2018.
- Tender was floated on 30.10.2020 and M/s. PEPL was emerged as qualified bidder. Subsequently, LoA was issued by BCCL on 8th June 2021.
- The revenue Sharing Contract was signed on 20th September 2021 and Bank Guarantee has been submitted on 30th October 2021.
- EMP was prepared by CMPDIL and the application for obtaining EC was submitted to State Environment Impact Assessment Authority on 31st March 2022.
- Pre-feasibility report (PFR) and Environmental Management Plan (EMP) of Jharia CBM Block-I (for exploration phase) was approved by BCCL Board in its 389th meeting held on 06.05.2022.
- Revised Pre-Feasibility Report (PFR) and Environment Management Plan (EMP) has been submitted to BCCL for amendment in EC application. Process of obtaining EC for exploration phase is underway.

12.11. COAL BLOCKS IN BCCL

The status of the EAST OF DAMAGORIA (KALYANESHWARI) Coal Block, allocated to BCCL under the CMSP Act, is described hereunder:

EAST OF DAMAGORIA (KALYANESHWARI) COAL BLOCK:

- MOC has allocated East of Damagoria (Kalyaneshwari) Coal Block to BCCL under CMSP Act 2015 vide letter no. CBA2-13011/1/2017-CBA2 dated 03.10.2018. An agreement was signed on 26.09.2019 between the Nominated Authority of MoC and the Authorized Signatory of BCCL.
- Payment of ₹62.5 Cr against 50% upfront payment and ₹17.341688 Cr against the Fixed amount has been made to MoC on 25.10.19. Further, a Bank Guarantee of ₹124.3328 Cr has been furnished to MOC as Performance Security.
- Allotment Order was issued by MoC, vide Order No.: F. No. 103/2/2015-NA-Part (1) dated 21.11.2019.
- A Mining Plan comprising partial land under East of Damagoria (Kalyaneshwari) Block has been prepared by CMPDI and approved by BCCL Board on 06.05.2020.

- There is a boundary overlap issue of Kalyaneshwari Block with adjoining Sitarampur Block and remaining leasehold areas of SAIL & ECL falling within this Kalyaneshwari Coal Block.
- MoC has been requested for early resolution of issues concerning the Block boundary of Kalyaneshwari and for allocation of Sitarampur Block to BCCL.
- Project Report of East of Damagoria (Kalyaneshwari) OCP under preparation at CMPDI. PR will be finalized after getting a decision from MoC in respect of issues concerning the Block boundary of Kalyaneshwari and for allocation of the Sitarampur Block.
- Effort is being made for jointly working with Ramnagar Block of SAIL. A Committee has been constituted vide dated 21.02.2023 for resolution of outstanding issues for joint exploitation of Kalyaneshwari Block of BCCL and Ramnagar Block of SAIL.

12.12. PRODUCTION ROAD MAP:

BCCL has made **Production Plan** to produce Coal with the following programme for the next three years:

Year	2022-23	2023-24	2024-25	2025-26
Production (MTe)	36.18	41	45	50
Growth (%)	****	13.33	9.75	11.11

12.13. Railway Siding Infrastructure

1. Construction of Maheshpur Siding with RLS at Govindpur Area	In spite of several hindrances at site the achievement of physical progress of Civil work is 45%. Job is continued and anticipated to be completed by December 2023.
2. Extension of Burragrah Siding to make full rake length at Bastacolla Area.	Extension work has been completed.
3. Dismantling of CK West Siding for future opencast at Lodna Area	CK West Siding has been Dismantled.

12.14. UNDERGROND PRODUCTION

UNDERGROND PRODUCTION DURING 2022-23 IN COMPARISON TO 2021-22:

Particulars	(2022-23)	(2021-22)	Growth over Last year (%)
SDL Production (in tonne)	133109	211920	(-) 37.19
Production(Mt.) XVI Seam Longwall Moonidih	441200	439890	10.02
Production(Mt.) XV Seam Moonidih (Development)	111495	153751	(-)7.25
Total Moonidih	552695	593641	(-) 6.90
Total BCCL	685804	805561	(-) 14.86

REASONS FOR LOW PRODUCTION:

Reasons for low production are as under:

1. SDL production suspended in Tetulmari Colliery of Sijua Area, Salanpur colliery and Keshalpur/AKWMC of Katras Area due to sudden inrush of water in Oct' 2021.
2. SDL production of Bastacolla Colliery suspended from October 2021 due to safety issues and mine was converted to Open Cast.
3. Production of XVI seam decreased in Moonidih due to shifting of Long wall panel.
4. Development work in XV seam is continued and production through Long wall method likely to be commence from April 2025.

17. QUALITY CONTROL

17.1 SAMPLING (THIRD PARTY SAMPLING STATUS)

- a) Third Party sampling has been successfully implemented at all loading points for all the consumers of BCCL for all modes of coal dispatch. As per FSA & MoU, all enabling conditions have been fulfilled by BCCL for Third Party Sampling. If for any unavoidable circumstance(s) third party sampling agencies are not able to undertake the sampling work, Joint Sampling is conducted at the loading end (clause no. 4.7.6(a) of the FSA executed with various Power Utilities; clause no. 5.7.6(a) for private consumers & relevant clause(s) for other consumers).
- b) Grade Confirmation percentage, on account of Third Party sampling, for FY 2020-21, FY 2021-22 & FY 2022-23 are as under:

*NOTE: Referee results for FY 2022-23 received for 3 months only (i.e., for April'22, May'22 & August'22). Referee results for the remaining period are yet to be received. BAR in the chart for FY 2022-23 depicting Grade Confirmation % After Referee Results shows the Grade Confirmation % for the said period only.

For 2022-23, analysis results of challenged referee samples on account of Third Party Sampling for the months April'22, May'22 and August'22 have been received while rest are yet to be received. After receipt of referee samples analysis results for the months April'22, May'22 and August'22, grade confirmation percentage, on account of Third Party Sampling for the aforesaid period has improved from 81.3% to 87.0%. Thus there has been consistent improvement in grade realization over the preceding two years.

17.2 ACHIEVEMENTS DURING 2022-23

- a) For 2021-22, grade confirmation on account of Third Party sampling after receipt of referee results has improved from 81.7% to 88.3%.
- b) The grade confirmation on account of Third Party sampling (without referee results) for the year 2022-23 is 83.90% as compared to 81.70% (without referee results) for 2021-22.
- c) During 2022-23, new grade of ROM fraction of 7 (seven) seams of various collieries have been notified. Further, during 2022-23 grade of 1 (one) seam was reclassified from non-coking to coking.
- d) BCCL received 2nd Prize in Quality parameter in Coal Minister's Award 2021-22.

e) BCCL received the 1st prize in Corporate Award for Quality Awareness in 48th CIL Foundation Day.

17.3 ACTION TAKEN FOR IMPROVEMENT IN QUALITY & CONSUMERS SATISFACTION

- a) SOP for maintenance of grade & supply of crushed coal to the consumers has been distributed to areas of BCCL. The SOP specifies roles & responsibilities of officials in every stage of coal production & dispatch, supplying crushed coal, free from boulders & extraneous materials, to the consumers.
- b) Officials of QC Department make regular inspection of sidings to monitor grade of dispatched coal and thereafter detailed discussion are held with area authorities regarding improvement in quality of coal dispatched.
- c) Grade slippage report of every area is compiled on monthly basis and is circulated to concerned areas every week for taking corrective measures.
- d) Quality Awareness Drives conducted by Quality Control Department in areas of BCCL.
- e) Quality Coordination meetings with all Area Sales Managers/ Area Quality Managers are held every month to discuss the issues related to quality, size dispatches, third party sampling etc.
- f) A dedicated team, comprising officers, supervisors & workers, has been deployed in each shift at every loading point for supervision of third party sampling work. The team(s) is instructed to ensure that the sample is collected & prepared in proper manner by the third party sampling agency(s).
- g) Sensitization of concerned officials for their duty to ensure quality coal supply to consumers.

- h) All Supervisory and managerial personnel, who are directly involved in production & dispatch have been advised to produce only quality coal by:
1. Adapting Selective Mining
 2. Evolve suitable drilling/ blasting pattern
 3. Segregation of stones & shale at source itself
 4. Careful loading into truck at the faces and stock yard.
 5. Selective handling of contaminated coal occurred due to fire in seams & other mining problems.
- I) Proper lighting arrangement at working places/coal dump/railway sidings.
- j) Maintaining separate stock piles **for fiery & non-fiery coal**.
- k) In case of fiery seams, separate grades have been declared by CCO for fire & non-fire zones of the particular coal seam.
- l) Brainstorming in all levels of management for remedial measures to produce & dispatch good quality coal as per the declared grade and thereby to mitigate grade slippage
- m) For promoting consumers' satisfaction, Meeting(s), telephonic/ text message conversations with consumers of BCCL to discuss the issues regarding quality & sized coal dispatches and grievance redressal.
- n) Complaint regarding alleged receipt of poor quality coal and/or oversized coal mixed with large sized extraneous material received from power house(s)/ consumers is immediately communicated to concerned authority within same day. Concerned Authority are asked to take suitable remedial steps. Further, officials of QC Dept. visit the concerned area to assess siding(s), dumps & the coal being dispatched to the consumers and discussions are held with the area authorities regarding dispatch of good quality & crushed coal to consumers, to eliminate the complaint(s) for future.
- o) At the end of every month, stone assessment is conducted at various power houses jointly by BCCL & concerned power house officials (as per FSA).

17.4 QUALITY AWARENESS DRIVES

Quality Awareness Drives were conducted by Quality Control Department in areas of BCCL. **Inter Area level inspection** of Mines, Sidings, Crushing Arrangements, Enabling Condition, Coal Analytical Laboratory etc. were conducted.

18. CONSERVATION OF ENERGY

18.1. SPECIFIC ENERGY CONSUMPTION OF BCCL FOR THE FINANCIAL YEAR 2021-22 AND 2022-23:

Particulars	2022-23	2021-22
Sp. Energy consumption(KWH/Te) (For Coal)	22.20	26.37
Sp. Energy consumption(KWH/CuM) (For Coal+OB)	5.86	6.37

18.2 ENERGY CONSUMPTION:

Description	2022-23	2021-22
Purchased Unit(MKWH)	803.09	804.50
Total billed amount (in ₹ Crore)	448.78	434.50

*Increase in billed amount is due to inclusion of FPPPA (Fuel Price and Power Purchase Adjustment) charge by DVC.

18.3 ENERGY CONSERVATION:

A. Measures taken for energy conservation

Sl. No	Description	Remarks
1.	LED Lights	BCCL has stopped procurement of GLS Lamps, Tube fittings, Tube Lights. GLS Lamps and other conventional light fittings are being replaced by LED Light fittings in all official/industrial premises. 17196 Nos. of LED lights have been procured in FY 22-23.
2.	Energy Efficient AC	117 Nos. of Energy Efficient ACs have been procured in FY 22-23.
3.	E-Vehicle	PO for hiring of 15 Nos. of E-Vehicle has been placed in the FY 22-23.
4.	Energy Efficient Motors	PO for 21 Nos. of Energy Efficient Motors have been placed in the FY 22-23.

Sl. No	Description	Remarks
5.	High Mast Lighting Tower	Tender floated for procurement of 100 Nos. of 16M High Mast Lighting Tower with 8X400W LED Light Fitting.

19.2 MECHANISM FOR MONITORING OF SAFETY STATUS IN MINES AS PER LAW:

For ensuring safety of men, machines & mines, the following provisions in mines of BCCL have been made:

- (i) Deployment of statutory persons for supervision, management, direction and control of mining activities as per provision of statute and as per requirement of permission granted by DGMS.
- (ii) Working of mines as per conditions imposed by DGMS.
- (iii) Inspections of mines by Safety committee & workmen’s inspectors.
- (iv) Inspection of mines by ISO as per schedule.
- (v) Backshift inspections of mines by ISO officials.

26. OFFICIAL LANGUAGE (OL)

IMPLEMENTATION OF OFFICIAL LANGUAGE POLICY IN BCCL

During the period under review, our company made significant progress regarding the implementation of the Official Language Policy of the Government of India. Apart from compliance with various statutory requirements of the Official Language Act and Rules, our company has also taken the initiative to promote and use the Hindi language as an instrument to establish a better connection with all stakeholders and ensure the best possible services. Our company prepared a well-planned annual action plan for achieving various goals set by the Government of India under its annual implementation program 2022-23. Through continuous monitoring and regular efforts at various levels, the company succeeded in achieving all the major goals of its annual program.

Quarterly Review Meetings:

The quarterly meetings of the Corporate level Official Language Implementation Committee were held at the scheduled time. All the four quarterly review meetings were held on 03 June 2022, 21 July 2022, 27 December 2022 and 20 March 2023 during the year. Under the guidance and suggestions received from the Official Language Implementation Committee, several new initiatives were taken during the review period. As one of the main initiatives, it was decided to conduct Rajbhasha Competitions apart from Rajbhasha Pakhwada. During the year total 6 competitions for promotion to Hindi were conducted. Regular meetings of the Official Language Implementation Committee at the area levels were also held in every quarter as per the scheduled annual Rajbhasha-Calendar.

Workshops:

workshops and training programs are being conducted regularly to educate the officers and staff members so that they can easily perform their routine work in Hindi. Intensive training for the technical & IT facilities available in Hindi like Kanthasth Translation memory tool, Unicode supported Hindi typing, voice typing, Hindi OCR, font converter, machine translation, e-dictionary etc. was also given through these workshops. Total 55 workshops were organized in BCCL HQ, HRD and area offices during the year.

Seminars, Conferences and Other Events:

This year on the occasion of International Hindi Day, a national level Rajbhasha Conference was organized in collaboration with the Town Official Language Implementation Committee, Dhanbad on 13th January 2023. Around 400 participants participated in this seminar. It was conducted in five sessions in which renowned Hindi scholars and academics delivered lectures. The seminar was inaugurated by FDs, BCCL. A Hindi book fair and a Rajbhasha exhibition were also organized on this occasion.

Another event was the Departmental 'Kavi Sammelan' which was organized on 21st February, 2023 to celebrate International Mother Language Day. In this program, 7 talented poets from various departments and areas of BCCL presented poetic text. Around 300 audience were also present on the event.

**Hindi Publications:**

Our company regularly publishes one of its half-yearly Hindi magazines called '**Koyla Bharati**'. It is a popular Hindi magazine among corporate magazines. The 37th and 38th issues of this magazine were published during the year 2022-23. These issues of the magazine were released on 14th September 2022 and 21st February 2023 respectively. Two Issues of '**Rajbhasha Sandesh**', the half-yearly magazine of the Town Official Implementation Committee, Dhanbad was also published during the year. A pocket size booklet named '**Karyalay Sahayika**' was also published for officials of BCCL During the year.

Apart from these publications, two other Hindi magazines i.e. 'Lodna Darpan' and 'Coal Rashmi' were also published by Lodna and Bastacolla area respectively.

Official Language Fortnight:

Various Hindi competitions like Hindi translation and terminology competition, self composed hindi poem competition, knowledge of Hindi competition for students, hindi essay competition for housewives etc. were conducted during the fortnight celebrations to promote Rajbhasha Hindi. A large number of employees participated in these competitions. The best three winners from each competition were awarded cash prizes and other participants were also awarded consolation prizes and participation certificates. Total 62 officer/staff members were awarded in BCCL HQ.

Four area offices and the six departments (technical and non-technical category) of the company headquarter were awarded the "Svargiya Shankar Dayal Singh Smriti Rajbhasha Samman" for their performance in the implementation of the official language in their offices during the year. These offices were selected as per the recommendation of the Corporate Level Official Language Inspection Committee. The prizes and shields were distributed on 28th September, 2022 on the prize distribution ceremony of Rajbhasha Pakhwara. In the program, Mr. Balendu Sharma Dadhichi, Director (Localization and Indian Languages), Microsoft was invited as chief guest and he was honoured with prestigious BCCL Koyla Bharti Rajbhasha Award on this occasion.

Central Hindi Library and IT infrastructure:

Our company has a well-established Central Hindi Library. At present a total of 4623 standard Hindi books of literature, science and technology, sales and marketing, computer, life management, and other subjects are available. Hundreds of important and famous Hindi books are being purchased every year. Daily newspapers, magazines etc. are also provided in the library.

All the computer systems available in the company are supported by the Unicode standard and bilingual typing feature. In the changing scenario, Rajbhasha Department has imparted training to officers and staff members 'Kanthasth Translation memory tool'. All the offices of BCCL HQ are equipped with voice typing facility in Hindi and English.

Town Official Language Implementation Committee (TOLIC):

Our Company has been a pioneer in spreading and promoting the Hindi language through the forum of 'Town official language implementation committee - TOLIC'. The efforts towards the implementation of Rajbhasha through Nagar Rajbhasha Karyanvayan Samiti Dhanbad under the convenorship of our company were well recognized by the Department of the official language Government of India. The first meeting of TOLIC for the year 2022-23 was held on 05th July, 2022 and the second meeting was held on 28th November 2022.

26.VIGILANCE

Brief note on actions taken by Vigilance Department of BCCL on Preventive Vigilance, Punitive Action, Surveillance detection and other important achievements

Preface

Vigilance Department in any Organization is integral part of Management and helps the Organization in achieving its objective in a value-based manner by promoting ethics, probity and transparency which plays an important part in creating fair public image of the Organization in the society. With the current emphasis of Central Vigilance Commission on “Transparency Index”, it is necessary for any Organization to be in a state where it is rated very high in transparency which in turn is an indicator of fairness in dealings of the Organization. In order to achieve the Mission & Vision of the Company, Vigilance Department/BCCL under the guidance and Superintendence of Central Vigilance Commission & Ministry of Coal has adopted a three-pronged strategy to combat/prevent corruption/irregularities and promote equity, probity and transparency as described hereunder.

1. Preventive:-

As the name indicates, this approach hinges upon undertaking of various steps which has the potential of obviating any future occurrence having a “Vigilance Angle”. This methodology includes sensitization and other practical measures like plugging loopholes by issuing appropriate guidelines for system improvement in consultation with Management whenever required, educating and counselling the officials of the organization at various forums.

2. Punitive: -

This approach dominantly comprises of taking punitive action against anyone found guilty of any act of omission or commission having a “Vigilance Angle”. Punitive action is usually initiation of appropriate disciplinary action.

3.Surveillance:-

This approach is based on undertaking surprise inspection based on information from complaint, credible sources, newspapers etc. Such inspections have a great multiplier effect and it deters the fence sitters.

Brief description of activities undertaken by the Vigilance Department of BCCL within the scope of above areas during the financial year 2022-23 is elaborated below:

A. Preventive Vigilance:

a) Surprise Check / Test Check:

During the year 2022-23 (from 01.04.2022 to 31.03.2023), Vigilance Department conducted 26 Surprise / Test Checks. Main thrust areas of surprise check were as under:

29. CONSTRUCTION OF NEW WASHERIES IN BCCL.
Achievements in 2022-23

- Tender for Setting up of 2.5 Mtpa Moonidih Coal Washery has been finalized.

- Successful dispatch of 0.85 million te quality washed coking coal to steel plants of SAIL through BCCL-TSL Washing Venture, designed for washing surplus coking coal of BCCL utilizing the unused washing capacity of TSL.
- In principal approval for monetization of old existing washeries of BCCL

Construction of New Washeries in BCCL

• Introduction

- BCCL is committed to supply improved quality and sized coal to the consumers (Steel Plants & Power Plants.)
- BCCL is committed to reduce the import of Coking Coal for Steel Sector by enhancing the supply of indigenous washed coking coal.
- BCCL had planned to enhance its washing capacity to the tune of 16.1 Mtpa in 2023-24 through commissioning of new Washeries.
- 1.6 Mtpa Dahibari Washery and 5.0 Mtpa Patherdih Washery had already been put to commercial operation.
- 04 Washeries are different stages of implementation under BOM concept.

• Present Status of New Washeries Under Implementation in BOM basis

At present, BCCL is involved in setting up of 04 Washeries to enhance the washing capacity to the tune of 12.0 Mtpa. The Brief Status of the 04 Washeries are as under:

Sl. No.	Washery	Capacity (Mtpa)	BOM Operator	Expected date/ date of Commissioning	Status
1	Madhuband	5.0	HEC Limited	April-23	Trial run has been completed..Two nos. of mixed rake has been dispatched to SAIL on 19.08.2022 & 08.11.2022 respectively. Performance Guarantee will be started shortly
2	Patherdih-II	2.5	ACB (India) Limited	Jan-24	40% construction work completed. Design & Engineering, Civil & Structural Works, Procurement of equipment, erection, etc. are in progress.
3	Bhjudih	2.0	ACB (India) Limited	June-23	75% construction completed. Design & Engineering, Civil & Structural Works, Procurement of equipment, erection, etc. are in progress.
4	Moonidih	2.5	ACB (India) Limited	June-26	Tender has been Finalized and LOI has been issued to M/s ACB (India) Limited on 17.08.2022 Public Hearing was conducted on 04.03.2023 to obtain EC from MOEF&CC.
	Total	12.0			

IMPORTANT MILESTONES ACHIEVED IN 2022-23

A.Setting up of New Washeries under BOM (Build-Operate-Maintain) concept

1. 5.0 Mtpa MADHUBAND WASHERY

- Trial run of the washery has been completed.
- Two mixed rake has been dispatched from the washery to SAIL on 19.08.2022 & 08.11.2022 respectively.
- Performance Guarantee Test will start shortly

2. 2.5 Mtpa PATHERDIH WASHERY

- Encroachers have been shifted from proposed land.

3. 5.0 Mtpa PATHERDIH WASHERY

- Construction of BOBR Track Hopper -

Tender was finalized and work order was issued to the L-1 Bidder, M/s. ACBIL – SIPS (JV) on 28.02.2022 and site was handed over on 09.03.2022. Excavation at site is completed. PCC/RCC is started.

- Construction of Rapid Loading System-

Survey, Soil Testing and Design & Engg. Completed. About 70 % of Civil Work completed. Supply of Plant & Machinery also started.

4. 2.5 Mtpa MOONIDIH WASHERY

- Tender has been finalized and LOI has been issued to the L-1 Bidder, M/s ACBIL on 17.08.2022.

- For getting Environmental Clearance, Public Hearing was conducted on 04.03.2023. Final EIA/EMP Report is under preparation at CMPDI HQ, Ranchi.

B. DEVELOPMENT OF RAILWAY SIDING FOR NEW WASHERIES
1. 2.0 Mtpa BHOJUDIH WASHERY

- Civil work completed – 95 %.
- OHE Work completed – 40 %.
- S&T Work completed – 80 %.

2. 5.0 Mtpa PATHERDIH WASHERY

- Civil work completed – 70 %.
- OHE Work completed – 50 %.

3. 2.5 Mtpa PATHERDIH WASHERY

- Civil work is in progress (50 %.)

4. 2.5 Mtpa MOONIDIH WASHERY

Final FSR was submitted by M/s RITES on 02.03.2023 and after its acceptance by BCCL it was submitted to SE Railway for approval on 17.03.2023.

Capital Expenditure in Construction of New Washeries in 2022-23

Name of the Washery	Approved Budget (₹ in Crore)	Actual Expenditure (₹ in Crore)	% Utilization
5.0 Mtpa Madhuban Washery	5	3.3	66.00 %
2.5 Mtpa Patherdih Washery	60	31	51.67 %
5.0 Mtpa Patherdih Washery	50	20	40.00%
2.0 Mtpa Bhojudih Washery	100	89	89.00%
TOTAL	215	143.3	66.65%

New Initiative
1. Monetization of old existing washeries of BCCL.

- i. BCCL Board has in principle approved for the Monetization of 4 (four) nos. of old existing Washeries of BCCL vide Circular Resolution No.3/2022.
- ii. Work has been awarded to M/s SBI Cap as transaction advisor for preparation of transaction plan of monetization of these 04 existing washeries.
- iii. M/s SBICAP has submitted the Transactional Plan for Monetisation of 2.0 Mtpa Dugda Washery in Feb'2023.
- iv. BCCL Board has approved the Transaction Plan for Dugda Coal Washery with some modifications in its meeting held on 08.02.2023.
- v. This approval has been sent to CIL & MoC for final approval.

2. PERFORMANCE OF BCCL-TSL WASHING VENTURE IN 2022-23

- i. Raw coking Coal supplied to TSL Washeries- 1.59 million Tonne.
- ii. Despatch of Washed Products:

Product(s)	Washed Coal to Steel Plants (MT.)
2020-21	0.37
2021-22	0.63
2022-23	0.85
Growth in 2022-23 wrt 2021-22	34.01 %

iii. Import Substitution

0.85 Million Tonne Washed Coking Coal for Steel Plants/Country in 2022-23.

- iv. Increase in Consumption of Indigenous Washed Coking Coal in Steel Plants of SAIL from 3600 tpd to 5700 tpd due to supplied Washed Coking Coal through this Washing Venture.
- v. SAIL has appreciated the consistent quality of Washed Coking Coal [@ 18.5% ash level] supplied through this Washing Venture.

30. STATUS OF EXECUTION OF JHARIA MASTER PLAN

Master Plan for Dealing with Fire, Subsidence and Rehabilitation

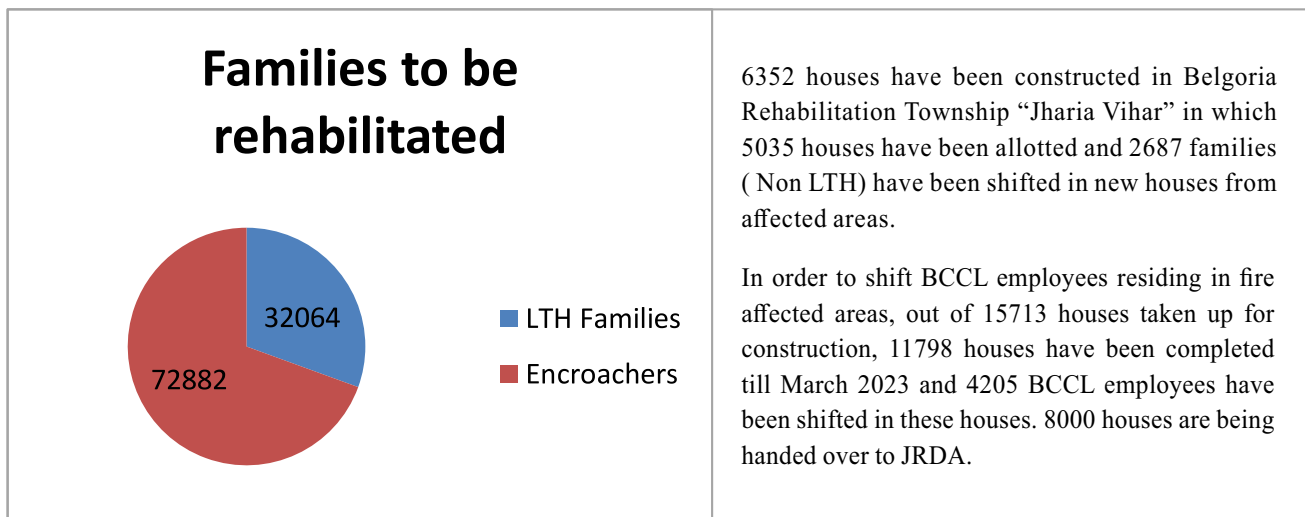

The Master Plan for dealing with fire, subsidence and rehabilitation in the lease hold of Bharat Coking Coal Limited (BCCL) and Eastern Coalfields Limited (ECL) was approved on 12th August 2009 by Govt. of India with an estimated investment of ₹7,112.11Cr. for Jharia Coalfields and ₹2661.73Cr. for Raniganj Coalfields. Implementation period has been delineated as 10+2 years. The tenure of the same has been ended on 11th August 2021.

As per the directive of Cabinet Secretary, a Committee to review Jharia Master Plan under the Chairmanship of Secretary (Coal) was constituted on 25th August 2021. The committee has submitted its report which is under approval.

Summarized Status of Implementations of Jharia Master Plan (in the lease hold of BCCL)

Fire dealing: The coal mine fire survey/study was instituted by BCCL through National Remote Sensing Center (NRSC), Hyderabad for delineation of surface coal fires in Jharia Coal Field. As per latest survey of 2021-22, 27 locations are to be dealt for the above mentioned purpose. Out of them, 16 location were found to be economically viable and henceforth are in operation. From the balance 11 locations, as per latest report of NRSC, at 10 locations fire has shown decreasing trend or marginal fire and overall surface fire area has substantially reduced to 1.8 sq km. Hence these locations are being dealt by surface blanketing. The process of digging out the fire at remaining 1 location is found to be economically unviable for which proposal has been sent to CIL for Viability Gap Funding (VGF).

Rehabilitation - As per the Master Plan, total 54,159 families in 595 nos. sites were to be surveyed. CIMFR, ISM, Whiz Mantra and JRDA has completed the survey of 595 sites in 2020 as follows:

31. ENVIRONMENT & ECOLOGY

- Corporate Environmental Policy of BCCL aims Environment Management on concept of sustainable development which is achieved by concerted efforts of employees of BCCL and dedicated environment management system. Since changes in working environment are dynamic, the Environmental policy is revised periodically to suit current requirements and initiatives are being taken accordingly. To ensure environmental compliances, Environmental engineers are placed at all Areas supported by a dedicated environment Department at HQ.

BCCL has made sustained and large scale efforts for better environment. A summary of environmental activities /status is as under:

(A) ENVIRONMENTAL CLEARANCES FOR BCCL MINES & WASHERIES

BCCL has formulated a Cluster Concept grouping all its operative/inoperative/proposed mines (including Pit head washeries) into 17 Clusters for obtaining environmental clearances and management thereof. BCCL is the pioneer company in the coal industry to formulate the cluster concept for EIA-EMP preparation and grant of Environmental clearances. MoEF&CC has approved this Cluster Concept in Dec., 2009 and advised to go ahead with preparation of EIA-EMPs for all its clusters for grant of Environmental clearances.

STATUS OF EC

MINES:

- EC of all 17 clusters is available covering all operative, closed and proposed mines.
- Amendment is obtained as per individual mine requirement keeping cluster capacity same. As per production requirement, Amendment of EC of Cluster VIII obtained on 28.03.2023 to facilitate Kuya Colliery and Bastacolla colliery.
- Total peak Capacity for 17 clusters is 93.04 MTPA.

WASHERIES:

- Environmental Clearance of Moonidih Washery, Sudamdih Washery, & Dahibari Washery for normative capacity of 1.6 MTPA each available under cluster XI, X and XVI respectively.
- Environmental Clearance for Patherdih coal Washery 5.0 MTPA Madhuban Coal Washeries 5.0 MTPA, proposed Patherdih coal Washery 2.5 MTPA, Dugda Washery 2.5 MTPA, Bhojudih washery 2 MTPA are available.
- For expansion of Cluster XI for inclusion of New Moonidih Washery 2.5 MTPA, Public hearing conducted on 04.03.2023. RO, MoEFCC has carried out inspection on 03.04.2023-04.04.2023. Final EMP is under preparation.

ENVIRONMENTAL COMPLIANCES:

BCCL has taken actions for compliance of all conditions of Environmental Clearances and submitting the compliance to regulatory authorities regularly which along with Clearance letters are uploaded on BCCL official website.

- As per conditions of EC, Monitoring locations are fixed on cluster basis in consultation with JSPCB, Ranchi. CMPDI, RI-II has been entrusted with the work of environmental monitoring of mines /washeries.
- Studies required under EC are being conducted. Ground water monitoring, satellite based land use, vegetation cover mapping, reduction in pollution by reducing road transport etc are entrusted to CMPDI.
- Report of Source Apportionment Study undertaken through NEERI, Nagpur has been shared with Jharkhand Pollution control Board (JSPCB) including replies to comments of JSPCB for coordinated approach by all stakeholders.
- In addition to existing fleet of conventional mobile water sprinklers,
 - 18 nos of water sprinklers with Mist system procured and commissioned by excavation department in last 03 years out of which 02 procured in 2022-23.
 - 08 mobile fog cannon and 07 trolley mounted fog cannon are operational. 16 Trolley Mounted Fog Canon have been procured in 2022-23 and under commissioning.
- To cover mines, sidings and washeries, 40 nos of online PM10Analyzers procured out of which 39 are connected with State Pollution control Board Portal and balance 01 is in process of connectivity.
- Tender for 12 COAAQMS has been done in 2022-23. Purchase order placed for supply of COAAQMS by July 23.
- Purchase order for procurement of 01 Mechanical Sweeper has been placed and will be supplied by June 2023. Tender for procurement of 02 Mechanical Sweeper has been floated.
- Establishment of 23 nos Piezometer wells for cluster of mines of BCCL command area for Ground water monitoring has been completed. DWLR have also been installed in 5 Piezometers and is under process in other piezometers.
- NRSC is carrying out periodic Time series coal mine Fire Mapping (Thermal Infra-red), submitted report in 2014, 2018 and 2021.
- Green belt is continuously being developed to work as barrier to air pollution.

(B) FORESTRY CLEARANCE:

BCCL is identifying forest land as per record of State Forest Department, State Land & revenue department and obtaining forestry clearances wherever applicable.

- Stage-I proposal for diversion of 16.49 Ha of forest land in Kuya colliery, Bastacolla Area forwarded to Regional office MoEFCC by State Govt .
- FRA Certificate and NoC of GM JJ land awaited for processing of Stage IFC proposal of Muraidih Colliery .Necessary follow up being made with District authorities

(C) Ground Water No Objection Certificate: BCCL has obtained NOC for Ground water abstraction for all Clusters of mines under CGWA.

(D) CONSENT FROM PCB: The CTO of all clusters of mines have been renewed.

(E) PHYSICAL RECLAMATION & BIOLOGICAL RECLAMATION

BIOLOGICAL RECLAMATION

- 1) Till 2022-23, BCCL has done biological reclamation over 1596.03 Ha consisting of 34,28,799 no. of plants including 35,544 gabion plantation.
- 2) In FY 2022-23, 84.49 Ha of greening activities have been done as follows:
 - i. Biological reclamation/Afforestation over 61.3 Ha of degraded land / OB dumps/ deep seated coal Areas of BCL has been done.
 - ii. Grassing over 20 Ha of temporary OB dumps have also been done.
 - iii. 3508 of avenue Plantation has been done at Block-II, Govindpur, Sijua and Kusunda Area. (equivalent to 3.19 Ha)

Ecological restoration site, Murulidih, Western Jharia Area

Afforestation site, ABGC, Govindpur Area

ECO-PARKS

Along with establishment of the natural forests over the degraded mined out areas and OB dumps, BCCL has also been developing eco-parks over some degraded mined out areas and OB dumps sites, with an aim to connect with the local communities residing nearby the mining areas of BCCL. BCCL has developed 07 Eco Parks namely Gokul Eco-cultural Park, Lodna Area, Vrindavan Eco Park, Kusunda, Parasnath Udyaan, Katras Area, Tetulmari Bio-diversity Park, Sijua Area, Netaji Subhash Chandra Bose Eco-Park and Govardhan Eco-park, Bastcolla Area, Panchvati Eco-park Koyla Nagar.

Govardhan Eco-park, Bera, Bastacolla Area

(F) MINE CLOSURE PLAN IMPLEMENTATION

Mines of BCCL are under progressive closure phase for which 56 Mine Closure Plans for mines/group of mines are prepared. out of 56 mine, 14 mines are presently inoperative. Annual closure cost are regularly being deposited into ESCROW A/c opened for the purpose and BCCL has deposited ₹577.30 crores in ESCROW A/cs till 31.03.2023 as a security for Closure activity implementation and showing commitment of BCCL in this regard. - In OA No. 01/2018 in the matter of Palwal Jithender Reddy vs Union of India, MoEFCC being a respondent through its Integrated Regional Office (IRO), Ranchi submitted another Monitoring report dated 18.04.2022 wherein it has reported 1 General condition as Not-complied, 12 specific conditions as partially complied, 18 specific condition as complied/being complied but further action needed, 2 general conditions as partially complied and 7 general conditions as complied/being complied but further action needed. MoEFCC issued letter for attending personal hearing on 03.06.2022, wherein officials of BCCL appeared and submitted the compliance status and fire dealing measures earlier taken in Amalgamated Joyrampur Colliery. JS directed to submit a detailed reply and GM Lodna vide e-mail dated 29.06.2022 to MoEF&CC submitted the detailed reply in this regard.

On alleged opencast mining by BCCL before grant of EC in the Original application filed in EC, MoEF&CC concluded that there is no apparent violation of EIA notification, 2006 on part of BCCL. However, it also noted that no serious efforts were undertaken beyond this one year of contractual assignment on fire management. Considering this as non-compliance along with transport related, OB dump and plantation related alleged non compliances, it recommended SPCB for environmental damage cost imposition and compliances within six months. The case at NGT disposed off with recommendation as of MoEF&CC. JSPCB has issued show-cause with environmental compensation of ₹6,03,98,438/- for discontinuing fire dealing operation at Amal Joyrampur Colliery. Reply submitted to JSPCB on 07.03.2023, final order awaited.

- JSPCB vide Order Ref no. B-180 dated 21/01/2022 issued notice to Chief Medical Officer, Central Hospital Dhanbad for non-compliance of Bio Medical Waste Rules, 2016 (stayed by appellate authority) and thereafter a closure order was received by CMS, CHD on 31.03.2022 vide Memo no. JSPCB/B-548 dated 11.03.2022 issued by Member Secretary, JSPCB. The closure order was later cancelled and withdrawn by MS, JSPCB. CMS, CHD ensured all compliances of Bio Medical Waste Rules, 2016 and an ETP of 5KLD capacity has also been installed along with an additional ETP of 30 KLD procured for treatment of liquid effluent.

JSPCB vide Order Ref no. B-180 dated 21/01/2022 issued notice to Chief Medical Officer, Central Hospital Dhanbad imposing Environmental Compensation of ₹1,37,46,250.00 (Rupees One Crore Thirty Seven lakhs Forty Six Thousand Two hundred and Fifty only) for non-compliance of Bio Medical Waste Rules, 2016 owing to non-installation of Effluent Treatment Plant (ETP) and non-segregation of liquid effluent. CHD ensured compliance and installed and commissioned an ETP of 5 KLD on 29.03.2022. A Work order for additional ETP of 30 KLD has also been placed on 31.03.2022 through Bid done on GeM portal. However, a closure order was received by CMS, CHD on 31.03.2022 vide Memo no. JSPCB/B-548 dated 11.03.2022 issued by Member Secretary, JSPCB. Appeal no. 7 of 2022 has been filed through panel advocate Shri Anoop Mehta in Appellate authority wherein stay order has been issued by Revenue Board, Ranchi, GoJ. JSPCB has filed its counter affidavit and the same has been communicated by advocate on 15.07.2022, accordingly supplementary affidavit has been prepared and filed by BCCL Panel Advocate Shri Anoop Mehta. Meeting for hearing in Board of Revenue, Ranchi GOJ, was scheduled on 21.09.2022 was deferred, next date not yet scheduled.

- JSPCB vide Order Ref no. B-1948 dated 19/09/2022 issued notice to Project Officer, ABOCP BCCL imposing Environmental Compensation of ₹75,93,750.00 regarding non-compliance imposed on the basis of the inspection made on 02.08.2022 by R.O., JSPCB in reference to recommendation made by NGT for the Original Application No. 269/2021 in the matter of Vijay Sharma versus State of Jharkhand. In this regard, ABOCP mine has requested The Chairman, JSPCB vide letter no. BCCL/Project Officer/22/3906 Dated 1.10.2022 to waive off the Environmental Compensation levied considering various facts and plea as NGT committee recommendation is already been implemented as per directions issued by JSPCB. Furthermore, an Interim Application (IA) was also filed in Hon'ble NGT to set aside the order of JSPCB and the Project Officer, ABOCP also directed M/s AMPL (contractor engaged) to submit a surety/Guarantee of amount equivalent to ₹75,93,750.00. Hon'ble NGT in its hearing dated 22.11.2022 has rejected IA application of BCCL and directed BCCL to pay the assessed amount of compensation and take remedial action as per the recommendation of the order. Further appeal in Hon'ble Supreme Court has been done. The hearing date is awaited.

(J) Miscellaneous: A Sustainable development Cell is also being working under the aegis of SDC, Ministry of Coal for environment, social and sustainable activities in BCCL to ensure benefit to all stakeholders.

ANNEXURE - I

1. Brief outline on CSR Policy of BCCL

In the world's current business scenario, an organization's well-being is also dependent on the well-being of the society in which it conducts its business. As a result, businesses today use a variety of profit-making avenues as part of their strategies for enhancing their image as socially responsible businesses. BCCL, while carrying out its coal mining activities likewise focusses on CSR activities which can address the needs of the marginalised section of the Society primarily residing in & around its areas of operation.

CIL has modified its CSR Policy with effect from 08/04/2021. BCCL Board deliberated upon and adopted the CSR Policy of CIL in its 379th meeting held on 17/06/2021. The policy broadly covers the following areas while executing its CSR activities, which is framed after incorporating the features of the Company Act, 2013, as per different notifications issued by CIL, Ministry of Corporate Affairs, GoI as well as DPE's guidelines issued from time to time and CIL's CSR Policy:

- i) Eradicating hunger, poverty and malnutrition; promoting health care including preventive health care and sanitation including contribution to the Swachh Bharat Kosh set-up by the Central Government for the promotion of sanitation and making available safe drinking water.
- ii) Promoting education, including special education and employment enhancing vocation skills especially among children, women, elderly and the differently abled and livelihood enhancement projects.
- iii) Promoting gender equality, empowering women, setting up homes and hostels for women and orphans; setting up old age homes, day care centres and such other facilities for senior citizens and measures for reducing inequalities faced by socially and economically backward groups.
- iv) Ensuring environmental sustainability, ecological balance, protection of flora and fauna, animal welfare, agroforestry, conservation of natural resources and maintaining quality of soil, air and water including contribution to the 'Clean Ganga Fund' set up by the Central Government for rejuvenation of river Ganga.
- v) Protection of national heritage, art and culture including restoration of buildings and sites of historical importance and works of art; setting up public libraries, promotion and development of traditional arts and handicrafts.
- vi) Measures for the benefit of armed forces veterans, war widows and their dependents.
- vii) Training to promote rural sports, nationally recognized sports, Paralympic sports and Olympic sports.
- viii) Contribution to the Prime Minister's National Relief Fund or Prime Minister's Citizen Assistance and Relief in Emergency Situations Fund (PM CARES Fund) or any other fund set up by the Central Government for socio economic development and relief and welfare of the Scheduled Castes, the Scheduled Tribes, Other Backward Classes, minorities and women.
- ix)
 - (a) Contribution to incubators or research and development projects in the field of science, technology, engineering and medicine, funded by the Central Government or State Government or Public Sector Undertaking or any agency of the Central Government or State Government; and
 - (b) Contributions to public funded Universities; Indian Institute of Technology (IITs); National Laboratories and autonomous bodies established under Department of Atomic Energy (DAE); Department of Biotechnology (DBT); Department of Science and Technology (DST); Department of Pharmaceuticals; Ministry of Ayurveda, Yoga and Naturopathy, Unani, Siddha and Homoeopathy (AYUSH); Ministry of Electronics and Information Technology and other bodies, namely Defense Research and Development Organisation (DRDO); Indian Council of Agricultural Research (ICAR); Indian Council of Medical Research (ICMR) and Council of Scientific and Industrial Research (CSIR), engaged in conducting research in science, technology, engineering and medicine aimed at promoting Sustainable Development Goals (SDGs).

- x) Rural development projects.
- xi) Slum area development.
- xii) Disaster Management, including relief, rehabilitation and reconstruction activities.

BCCL has been a responsible corporate striving to benefit the society through its various CSR activities. Since the past years, BCCL has made efforts to benefit the society through its CSR activities related to health, education, rural development, skill development etc.

BCCL has been the major social development driver in its area of operations i.e. Dhanbad district in particular as well as Jharkhand State as a whole. The following graph indicates the CSR budget (as per CSR Policy) versus expenditure of BCCL from 2021-22 to 2022-23:

Research & Development (R&D) During 2022-23

STATUS OF S&T/R&D PROJECTS UNDER BCCL COMMAND AREA FUNDED BY MoC/CIL

SL No	Project Title	Date of Start of Project	Schedule date of completion	Approved cost (Rs. Lakh)	Objective & Status
A	CIL R&D Project				
1	Up-gradation of Low-grade Indian Coals through Dry and Chemical Beneficiation. Project Code: CIL/R&D/02/09/2021 Imple. Agency : IIT Kharagpur & CMPDIL	1 st October 2021	30 th September 2024	₹144.30 IIT Kgp- ₹ 121.89 CMPDIL- ₹ 22.41	Objective of the R&D Project is to develop a dry beneficiation technology (Air Dense Medium Fluidized Bed separator) for coarser size fraction of coal, fines will be treated with froth flotation and chemical leaching for maximizing yield of clean coal and minimizing reject. BCCL Endorsed: 30.10.2020 CIL Approved on 24.09.2021 -Literature review was conducted at Institute. -Design & Fabrication of reactor Set-up is done. -Samples collected from BCCL.
2	Effective utilization of Middlings and fines of coking coal Washery for recovery of carbon values Project code: CIL/R&D/02/11/2021 Imple. Agency : NML, Jamshedpur & CMPDIL	1 st October 2021	30 th September 2023	₹144.02 NML Jamshedpur- ₹126.52 CMPDIL – ₹14.50	Objective of the R&D Project is to: (i) Explore the possibility of recovering the washed coal at about 18% ash from middlings of coking coal washeries. (ii) To develop process flowsheet for producing a product with 18% ash for enhancing the carbon recovery. (iii) Reduce surface moisture of washed product. BCCL Endorsed: 18.02.2021 CIL Approved on 24.09.2021 -1 tonne each of middling and fines samples were collected each from Patherdih Washery, and Dahibari Washery, BCCL. -Further, PI for 2 tonne of WCP was issued for collection of samples from Dahibari Washery.
3	Study on performance improvement of coking coal washery under CIL through modeling and simulation analysis.	1 st October 2021	30 th September 2023	₹264.04 NML, Jamshedpur- ₹169.54 CMPDIL- ₹94.50	Objective of the project is to develop steady state plant scale model for unit operations (crushing, classification, gravity separation, flotation) in coal washing, conduct simulation analysis

	Project code: CIL/R&D/10/2021 Imple. Agency :NML, Jamshedpur & CMPDIL				and predict the optimum parameters for improving the performance of coal washing plant. BCCL Endorsed: 18.02.2021 CIL Approved on 06.09.2021 -Moonidih Washery is Selected for the Project. -Lab-scale study is being conducted
4	Separation and recovery of Fine particles from coal washery effluents using bio-coagulant Project code: CIL/R&D/02/13/2022 Imple. Agency : IIT ISM, Dhanbad	15 th March 2022	14 th March 2024	₹ 54.87 IIT ISM- ₹ 54.87 BCCL- Nil	The aim of this project: Indian coal containing high ash impurities (35-40%), upon beneficiation/washing, generate washery effluent which has high concentration of coal fines along with other impurities. After sedimentation, the effluent along with fresh water is recirculated for coal washing. If the coal fines are recovered, it will not only be economically beneficial but cleaning efficiency will also improve and addition of fresh water will be minimized. BCCL Endorsed: 25.06.2021 CIL Approved on 06.09.2021 -Moonidih and Dahibari coal washeries is selected for the project. -Samples were collected from BCCL.

1.	Study of hazards due to mining induced sub-surface cavities and waterlogged areas in inaccessible old workings in underground coal mines using geophysical technique Project code: MT-173 Imple. Agency :IIT ISM, Dhanbad	15 th March 2021	14 th March 2023	₹199.96 IIT ISM- ₹ 199.96 ECL- Nil	Objectives is to study hazards due to mining induced sub-surface cavities and waterlogged areas in inaccessible old workings in underground coal mines using geophysical technique such as seismic tomography, Ground Penetrating Radar (GPR) and Crosshole tomography. MoC Approved on 10.03.2021 . BCCL Endorsed: 17.02.2022 . -The work was conducted at ECL for a depth of about 25 M.

					-Work was conducted at BCCL for a depth of about 50 m. -Final project report is being prepared.
2.	Electrostatic deposition and functionalization of multiwalled carbon nanotubes (MWCNTs) for sensitive & selective detection of Coal Mine Methane (CMM). Project code: MT-177 Imple. Agency : Amity University.	15 th October 2022	14 th October 2024	₹41.39 Amity- ₹41.39 BCCL- Nil	Objectives of the project is to develop a multiwalled carbon nanotubes (MWCNTs) for sensitive & selective detection of Coal Mine Methane (CMM). BCCL Endorsed: 10.02.2022 . MoC Approved on 12.10.2022 -Synthesis and Characterization of MWCNTs based nanocomposites is being done at the institute.
3.	Utilization of Coal Gangue to Develop porous Absorbent for CO2 Capture. Imple. Agency : IIT, Kanpur.	23 rd December 2022	22 nd December 2024	₹84.73 IIT Kanpur- ₹ 84.73 BCCL- Nil	Objectives of the project is development of low-cost porous solid absorbent utilizing Coal Gangue and suitable chemical modifier for Carbon capture. BCCL Endorsed: 26.07.2022. MoC Approved on 23.12.2022. -PI for collection of samples is issued.

STATUS OF INSTALLATION OF OB TO SAND EXTRACTION PLANT:

Ministry of Coal, Govt. of India, has instructed coal companies for gainful utilization of overburden. In this context, Coal India Limited has decided to set-up OB to Sand Extraction plant in all its subsidiaries.

At BCCL, Damoda OCP, Barora Area, is selected as the site, for installation of OB to Sand plant. Present status is summarized below: -

- ✓ A model NIT on Build Operate (BO) basis was prepared by CMPDIL, approved by CIL and was communicated to BCCL on dated 01.02.2022. The model document was customized and dully approved for BCCL purpose.
- ✓ NIT for the same was floated and LoA was issued to the successful bidder, but, the party failed to deposit the performance security, thus, the bid was canceled and necessary actions were taken on the perpetrator.
- ✓ NIT was once again floated on 12.12.2022 titled **“Setting up of Sand/aggregate Segregation Plant (OB to sand/ aggregate) of OB throughput capacity 1.10 Mtpa at Damoda OCP, Barora Area, BCCL on Build-Operate (BO) concept.”**
- ✓ Bid was opened on 28.01.2023.
- ✓ One party participated i.e. End2End Urja Solution Pvt. Ltd.
- ✓ The Tender Committee has recommended for FDs approval and issue of LoA.

Director (Finance), Head of Internal Audit and the Statutory Auditors are invited to the Audit Committee Meeting for interacting with members of the Committee. Director (Finance), is the permanent invitee to the Committee. Director (Personnel) also attended as invitee on any item concerned with his Directorate. Senior Executives are also invited as and when required to provide necessary information to the Committee.

b) Scope of Audit Committee:

- i) The recommendation for appointment, remuneration and terms of appointment of auditors of the company;
- ii) Review and monitor the auditor's independence and performance, and effectiveness of audit process;
- iii) Examination of the financial statement and the auditor's report thereon;
- iv) Approval or any subsequent modification of transactions of the company with related parties;
- v) Scrutiny of inter-corporate loans and investments;

- vi) Valuation of undertakings or assets of the company, wherever it is necessary;
- vii) Evaluation of internal financial controls and risk management systems;
- viii) Monitoring the end use of funds raised through public offers and related matters;

c) Meeting and Attendance of the Audit Committee:

Nine meetings of the Audit Committee were held during the financial year 2022-23 on as under:

SI No.	No. of Audit Committee Meeting	Date of Meeting
01	129 th meeting	18.04.2022
02	130 th meeting	06.05.2022
03	131 st meeting	18.06.2022

NB: Shri PVKR Malliakarjuna Rao , D(P), attended 03 no. of Audit Committee meeting as invitee. Shri Shri Murlikrishna Ramaiah, D(P) & Rakesh Kumar Sahay, D(F) attended 01 no. of Audit Committee meeting each as invitee & permanent invitee respectively.

6. Meeting of Independent Directors

One meeting of Independent Directors held on 17.03.2023 (Friday) during 2022-23.

7. Whistle Blower Policy

The Whistle Blower Policy of BCCL which was approved by Board of Directors in 307th Board Meeting held on 24.05.2014 was enforced but the same has been revised and approved in 390th Board Meeting of BCCL held on 18.06.2022 in line with modified Whistle Blower Policy of CIL. The new Policy has now been displayed in the website of BCCL.

8. Risk Management Committee:

Meetings and Attendance of the Risk Management Committee Meeting:

Two meetings of the Risk Management Committee (RMC) Meeting was held during the financial year 2022-23 as under:

SI No.	No. of RMC Meeting	Date of Meeting

11. General Body Meeting:

Date, time and venue of the last 3 Annual General Meetings are as under:

Financial Year	Date	Time	Location
2021-22	26.07.2022	10.30 AM	Koyla Bhawan, Koyla Nagar, Dhanbad
2020-21	04.08.2021	10.00 AM	Koyla Bhawan, Koyla Nagar, Dhanbad
2019-20	07.08.2020	10.00 AM	Koyla Bhawan, Koyla Nagar, Dhanbad

12. Share holding pattern of BCCL:

100% shares of BCCL are held by Coal India Limited and its nominee.

13. Statement regarding Independent Director as per the provisions of Rule (8)(5)(iia) under Companies (Accounts) Rules, 2014:

Following Independent Directors were appointed during the year 2021-22:

- 1.Smt. Shashi Singh, Independent Director;
- 2.Shri Alok Kumar Agrawal, Independent Director;
- 3.Shri Satyabrata Panda, Independent Director; and
- 4.Shri Ram Kumar Roy, Independent Director

In terms of sub rule 5 (iia) under Rule 8 of the Companies (Accounts) Rules, 2014 as amended on 01.12.2019, the Board is of the opinion that the above mentioned Independent Directors of the Board have the integrity, expertise and experience (including the proficiency) in discharging the function as Independent Director of the Company.

The above appointed Independent Directors got themselves registered with IICA in terms of sub rule 1(b) under Rule 6 of the Companies (Appointment and Qualification of Directors) Rules, 2014.

In terms of sub rule 4 read with Rule 6 of the Companies (Appointment and Qualification of Directors) Rules, 2014 as amended upto 18.12.2020, Smt. Shashi Singh Independent Director & Shri Satyabrata Panda, Independent Director respectively passed online proficiency self-assessment test conducted by IICA of the said Rules during 2022-23.

Shri Alok Kumar Agrawal, Independent Directors, is exempted from passing online proficiency test since he is a practicing Chartered Accountant having practice of more than 10 years is exempted from online proficiency test as per second proviso to Rule 6(4) of Companies (Appointment and Qualification of Directors) Rules issued by Ministry of Corporate Affairs vide notification no. G.S.R 579(E) dated 19.08.2021.

ANNEXURE-IV

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

I. Industry Structure and Development

BCCL, one of the subsidiaries of CIL, is engaged in the process of mining of coal and allied activities. Bharat Coking Coal Limited (A subsidiary of Coal India Limited and a Miniratna Company) major producer of Coking Coal engaged in mining of coal and allied activities is one of the oldest coalfields in India. Mines are spread over Jharia Coalfield located in Jharkhand -273 KM² and Raniganj Coalfield located in Jharkhand (19 KM²) and West Bengal (13 km²) – 32KM². The major products are Run of Mine (ROM) coal, Washed coal and Washed power coal (WPC). The company inherited small unorganized underground mines at the time of nationalization of coking coal and non-coking coalmines being operated by private owners in unscientific manner. The workings were limited to upper coal horizons. This lead to fire subsidence and water filled in the underground old workings. The Coalfield is considered to be one of the populous where township, important rail network, road networks including National Highways and State Highways occupy in the mining area making the coalfields one of the most problematic and challenging for mining engineers for exploitation. It occupies an important place in as much as it produces bulk of the coking coal mined in the country. In BCCL, coking coal forms almost 85% of the total coal production. Coking Coal in BCCL is mainly of two types- Prime Coking Coal (PCC) and Medium Coking Coal (MCC) having low volatile matter. PCC forms approximately 10% of the total coking coal production and the rest 90% is MCC.

II. STRENGTH AND WEAKNESS

STRENGTHS(S)	WEAKNESS (W)
<ul style="list-style-type: none"> • Ability to provide coal at less than import parity price. • Only source of prime coking coal having secured market • Concentration of coal resources within a radius of 40 km. • Existence of best quality coal in upper stratum and inferior quality coal in the bottom stratum. • Proved category of reserves in abundance hence proper planning can be made. • Ongoing action for diverting structures over the coal bearing area through Master plan. • Upper section developed. Once land available, superior grade coal can be mined out easily • Favorable geographical location with good Road/ Rail connectivity. • Increasing consciousness among the employees and trade unions about the financial health of the Company leading to positive mindset. • Potential field/reserves for CMM and CBM production. 	<ul style="list-style-type: none"> • Unscientific mining in the past. • Coal Bearing areas densely populated, mostly by unauthorized habitans causing hindrance in smooth progress of mining activity. • A large number of inherited small UG mines not readily amenable to mechanization. • Presence of multi-seam workings affected by fire and water logging. • Constraints posed by trade unions in achieving rational redeployment of manpower. • Non availability of land for external OB dumps. • Partly exhausted, partly standing on pillars below important surface features. • Different entries in CS and RS Khatiyen leading to unnecessary legal hassles and delay in acquisition of land. • Operational safety risk arising out of mining.

III. OPPORTUNITIES AND THREATS

OPPORTUNITIES	THREATS
<ul style="list-style-type: none"> • Readily available un-exhaustive market compared to the international market for a long period. • Prime coking coal released on implementation of master plan will have the potentiality of saving foreign exchange. • Market condition of coking coal in steel sector is favorable as the price in international market is going up and the country cannot afford the hard earned foreign exchange. • Asset monetization of discounted mines. • Land Bank Monetization. • Installation of Solar Power Plant. • Opportunity to generate revenue through Mine Tourism. • Identification of Coal Based Methane Blocks. 	<ul style="list-style-type: none"> • Inability to establish physical possession of land acquired under LA Act for mining purpose. • Delay in execution of Master Plan leading to endangering the lives and properties as well as operation of the company for a long period. • Spontaneous heating of coal seam. • Delay in project start-up due to displacement of public infrastructure and natural resources.

IV. SEGMENTWISE AND PRODUCT-WISE PERFORMANCE

V. OUTLOOK

a. PRODUCTION OUTLOOK

- BCCL was showing a downward trend in coal production every year since 2016-17 but the same downward trend has been arrested in 2021-22 and then there has been substantial progressive growth each year.
- Coal production declined from 37.04 MT in the year 2016-17 to 24.66 MT during 2020-21 but in 2021-22 it has achieved a production of 30.51 MT which has increased to 36.18 MT in 2022-23.

b. MARKETING OUTLOOK

- With increased requirement of consumers under “Atmanirbhar Bharat” amid global supply constraint, there is need for more domestic Washed Coal for the steel consumers.
 - With setting up of new washeries, stacking of rejects is a huge problem and this space constraint can be mitigated to a large extent if such rejects can be sold to the power houses or other consumers at a mutually agreed price or notified price.
 - Long-term agreement with distantly located consumers of Rejects with rationalized price if required.
 - Mine production enhancement in line with the projected off-take commitment from customers.
- **e-AUCTION PLAN**
- A monthly e-auction calendar is being followed..
 - Action has been taken to ensure 100% lifting of total bid quantity in e-auctions and areas are being sensitized accordingly.

- Standard Operating Procedure (SOP) has been prepared for timely issuance of Sale Order and hassle-free lifting of coal by consumers to increase dispatches.
- With enhanced demand in the market, premium over notified price has been consistently increasing over the years in Spot e-auction.
- Conducting consumer meet in regular manner to address issues raised by the consumers.
- Meeting with Area General Managers and Area Sales Managers are being sensitized to improved supply of quality coal to FSA consumers and ensuring 100 % lifting by Road mode.
- After a long gap, MoU price for supply of Washed Coal supply to SAIL has been raised to a reasonable level while other interested consumers such RINL came forward to take washed coal at the higher bid price.
- Dispatch of washed power coal to various coal consumers such as SAIL need to be augmented as it will help liquidate the present high stock in different Washeries and this will also create more space for day to day operations.

c. Outlook for sustainable growth

Corporate Environmental Policy of BCCL aims environment management concept of sustainable development which is achieved by concerted efforts of employees of BCCL and dedicated environment management system. With a view to achieving growth with sustainability, emphasis is being given for installation of solar power energy in the premises of the company and in that direction a number of initiatives have been taken as can be seen elsewhere in the report. Similarly, the company has been establishing state of the art 6 new washeries which are either commissioned or in different stages of completion which will go in long way in producing clean coal thereby reducing the carbon footprint.

VI. RISKS AND CONCERNS

1. Challenges faced due to Land Acquisition,
2. Implementation of Jharia Action Plan,
3. Loss making Legacy Mines,
4. Technology Up-gradation and equipment utilization,
5. Compliance to Environment and Forest Law,
6. Inconsistent realization from coal leading to fall in revenue,
7. Delay in project start-up due to displacement of public infrastructure and natural resources
8. Operational Safety risks arising out of Mining
9. Risk due to redemption of 5% Cumulative, Non-Convertible & Redeemable Preference Shares due on 31.03.2020 and related Dividend thereof

VII. DIVERSIFICATION AND VALUE ADDITION

➤ CBM

- ❖ CBM is basically composed of ~95% Methane and remaining amounts of slightly higher hydrocarbons, nitrogen, and carbon dioxide. Commonly referred to as Marsh Gas in mining industry, it is an inherent part of coal seams, absorbed into it, formed during the process of coalification of vegetation.
- ❖ The CBM extraction provides major benefits as:
 - Additional revenue generation opportunity from sales of Natural gas.
 - It is in line with the domestic governments' and international community's objective to increase share of clean fuel in the power mix and also reducing methane (a greenhouse gas) exposure to atmosphere.
 - Extraction of in-situ methane does not affect mine-ability of the coal deposit.
 - Due to degasification of methane in the coal deposit, additional benefits emerge for coal extraction process. It reduced the chances of fire and explosion hazard as methane has already been extracted, improving mine ventilation.

➤ MONETIZATION OF DISCONTINUE COAL MINES

Monetisation of discontinued coal mines through prospective bidders may open up the opportunity for realisation of good amount of revenue which will contribute to the sustainability of the Company in long run. In this direction, four (4) discontinued mines, viz., PB Project, Salanpur –AKGC, Loyabad Coal mines, Kharkharee have already been awarded in favour of the highest bidder. If the venture is successful, this will create opportunities not only for the company but also for the local population.

LAND ACQUISITION – A MAJOR ISSUE

- Production of some patches suffered due to non-availability of land in time.
- Different entries in CS and RS Khatiyan leading to unnecessary legal hassles and delay in acquisition of land.
- Land acquired under LA Act and vested Land are not being honoured by locals. Such cases are taken to judiciary leading to quite a long time for physical possession.
- DC lines shifting to unlock coal reserves is one of the priorities but to public pressure, the same could not be materialised.

CAPACITY BUILT-UP

CAPACITY (As on 1st April) (as assessed by CMPDI)VIS-À-VIS PRODUCTION OF BCCL				
	2020-21	2021-22	2022-23	2023-24
CAPACITY (MT)	40.406	39.586	36.696	44.53
PRODUCTION (MT)	24.66	30.511	36.179	NA
% Cap Utilization	71.77	83.265	98.59	NA

TWO PRONGED APPROACH ADOPTED FOR INCREASE IN CAPACITY OF BCCL

1. Short term capacity augmentation plan: enhance production in short term through small H-HEMM patches

	ANNUAL CAPACITY (MTY) 2023-24	PRO-RATA CAPACITY FOR 2024-25 (MT)
HIRED HEMM (As per CMPDI)	30.37	33.33
DEPARTMENTAL OC (As per CMPDI)	12.76	14.01
Total OC	43.13	47.34
TOTAL UG	1.40	1.54
TOTAL CAPACITY	44.53	48.88

VIII. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

To ensure regulatory and statutory compliance as well as to provide highest level of corporate governance, our company has a well-established and robust internal control system and processes. A comprehensive delegation of power exists for smooth decision making. The supervision of operational efficiency is done by internal audit. The Audit committee keeps a watch on the working of the internal control system. The accounts of the company are subject to audit by Comptroller and Auditor General of India. In line with the directives of Department of Public Enterprises (DPE), training is imparted to the newly appointed Directors of the company.

IX. DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

In FY 2022-23, the profit before tax for the company was ₹502.88 Crore and the net profit was ₹645.01 Crore reflecting a growth in profitability by 162.86% and 477.86% over previous year profit before tax of ₹191.31 Crore and net profit of ₹111.62 Crore respectively.

The principal reason for such growth in profitability during the year can be attributed to the following factors:-

- Enhancement in sales volume by 9.06% over the previous year mainly due to boost in operational efficiency and favorable business environment.

A detailed discussion on financial performance and analysis is furnished below.

A. Total Income:

Total Income of the Company comprises of Revenue from Operations and other Income. Major revenue of the company under above two heads of total income includes income from sale of coal, other operating revenue such as Surface Transportation Charges (STC) recovered from customers, evacuation facility charges, interest earned on term deposits with banks etc. The total income for financial year 2022-23 is ₹13698.25 Crore as against ₹10579.83 Crore in the previous year registering a huge growth of 29.48%, principally due to increased off-take volume by 3.25 million tonne from the previous year (35.53 million tonne in FY 2022-23 against 32.28 million tonne in FY 2021-22). The analysis of major elements of incomes is detailed below:

1. Revenue from Operations:

a. Sale of Coal

The company has attained huge growth in the sales revenue over previous year on back of upsurge in sales volume and favorable price variance. Our raw coal sales volume enhanced by 2.42 million tonne as compared to last year mainly due to boost in requirement of coal and higher average realization rate. Company supplied 29.54 million tonne under FSA coal and 1.57 million tonne under E-auction route and earned revenue of ₹8447.24 crore from FSA sale and ₹1129.55 crore from those who bought coal under E-auction. There is also rise in sale of Washed Coal and other By-products during the current year. The total revenue from sale of Washed Coal and other By-products of ₹2756.55 crore was earned mainly due to increase in volume and enhanced average sales realization in comparison to the last year.

b. Other Operating Revenue:

Loading and additional transportation charges

Major element of other operating revenue is on account of Surface Transportation Charges (STC) collected from customers. The company has a policy to levy and collect Surface Transportation costs for transportation of coal to dispatch points under various slabs of distance and corresponding rates. The loading and transportation charges recovered (net of all levies) during the year was ₹733.19 crore against ₹496.78 crore in the previous year and due to increase in volume of dispatch and higher lead of dispatch.

Evacuation Facility Charges

Evacuation Facility Charges are levied at ₹60 per tonne on all dispatches except dispatch through rapid loading arrangement. During the year, total revenue on account of evacuation facility charges (net of all levies) was ₹214.40 crore against ₹185.50 crore in the previous year. The increase was due to increase in volume of dispatch.

2. Other Income

During the year, other income changed from ₹451.97 crore in FY 2021-22 to ₹417.32 crore in FY 2022-23. The amount includes interest earned on surplus fund, penalty recovered from contractors/customers and write back of provisions / liabilities which are no longer required.

B. Expenses

The major elements of expenses are discussed below:

a. Employee Benefits Expense

Employee benefit expenses constitute the largest component in the total cost, and are about 55.76% of the total cost. The employee benefit cost during the year was ₹7358.12 crore as against ₹5788.32 crore in previous year.

This increase was due to provisioning for pending NCWA-XI for non-executive wage revision, annual increments and increase in DA etc. Further, there is a net reduction of 1878 nos. of employees during the year on account of superannuation, resignation, death, transfer, etc.

b. Contractual Expenses

Contractual expenses primarily consist of transportation charges for coal, sand and other materials, wagon loading operations, hiring charges for Heavy Earth Moving Machinery engaged for coal extraction and overburden removal activities and other miscellaneous works such as for haul road maintenance at mines and temporary lighting etc.

Contractual expenses increased by ₹429.24 crore, from ₹1962.11 crore in FY 2021-22 to ₹2391.35 crore in FY 2022-23, i.e. 21.88%. The spike in contractual expenses was largely due to factors such as Diesel escalation, Wage escalation, and enhancement in Washing Charges at Washeries as compared to the previous year.

c. Finance Costs

Borrowings

(₹'Crores)

	31.03.2023	31.03.2022
Interest Expenses		
Unwinding of discount	55.69	48.60
Fund parked within Group	-	-
Fair Value Change (Net)	-	-
Other Borrowings	-	29.15
Total	55.69	77.75

d. Stripping Activity Adjustment

As per Significant Account Policies (Refer 2.19) on Stripping Activity Expense/Adjustment is to be calculated for mines with rated capacity of one million tonnes and above per annum. Cost of Stripping is charged on technically evaluated average stripping ratio (OB: COAL) at each mine with due adjustment for stripping activity asset and ratio-variance account after the mines are brought to revenue. Presently, such adjustment is being done in five mines as under:

			31.03.2023		31.03.2022	
	Standard Stripping Ratio	Current Stripping Ratio	Coal (LT)	OBR (LCum)	Coal (LT)	OBR (LCum)
AMPC, Barora Area	1.87	1.43	19.03	27.16	14.36	18.07
AKWMC, Katras Area	2.60	2.18	38.28	83.35	41.95	87.12

INDEPENDENT AUDITOR'S REPORT	MANAGEMENT'S COMMENT
<p>TO THE MEMBERS OF BHARAT COKING COAL LIMITED</p> <p>Report On The Standalone Financial Statements</p> <p>Opinion</p> <p>We have audited the accompanying Standalone financial statements of BHARAT COKING COAL LIMITED (“the Company”) (hereinafter BCCL), which comprise the Balance Sheet as at 31st March, 2023, the Statement of Profit and Loss (Including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as “Standalone financial statements”), in which are included the returns for the year ended on that date audited by the area / units auditors of the Company’s 17 (seventeen) area / units comprising (1) Barora Area; (2) Block-II Area; (3) Govindpur Area; (4) Katras Area; (5) Sijua Area; (6) Kusunda Area; (7) P B Area; (8) Bastacolla Area; (9) Lodna Area (incl. Lodna Washery); (10) Eastern Jharia Area; (11) C V Area; (12) Dahibari Washery; (13) Western Jharia Area; (14) Washery Division; (15) Madhuban Coal Washery; (16) Mines Rescue Station and (17) Bhuli Township Area.</p> <p>In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2023, the Profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.</p> <p>Basis for Opinion</p> <p>We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.</p>	

INDEPENDENT AUDITOR'S REPORT		MANAGEMENT'S COMMENT
<p>Emphasis of Matters We draw attention to the following: -</p> <p>a) Pending confirmation/ reconciliation of certain balances under Trade Receivables, the consequential impact thereof, if any on the financial statements are not ascertainable.</p> <p>Our opinion is not modified in respect of the above matters.</p>		<p>Reconciliation of Trade Receivables takes place continuously. Efforts have been taken to expedite the pending reconciliation.</p>
<p>Key Audit Matters</p> <p>Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.</p>		
Srl No.	Key Audit Matter	Auditor's Response
1.	<p><u>Stripping Activity Expense/ Adjustment</u></p> <p>In case of opencast mining, the mine waste materials (“overburden”) which consists of soil and rock on the top of coal seam is required to be removed to get access to the coal and its extraction. This waste removal activity is known as ‘Stripping’. In opencast mines, the company has to incur such expenses over the life of the mine (as technically estimated).</p> <p>Therefore, as a policy, in the mines with rated capacity of one million tonnes per annum and above, cost of Stripping is charged on technically evaluated average stripping ratio (OB: COAL) at each mine with due adjustment for stripping activity asset and ratio variance account after the mines are brought to revenue.</p> <p>Net of balances of stripping activity asset and ratio variance at the Balance Sheet date is shown as Stripping Activity Adjustment under the head Non - Current Provisions / Other Non-Current Assets as the case may be.</p>	<p><u>Principal Audit Procedures:</u></p> <p>We performed the following substantive procedures:</p> <ul style="list-style-type: none"> • Obtained working data of Stripping Adjustment and checked that the total expense incurred during the year is allocated between Coal production and Overburden. Ensured about accuracy and completeness of expenses considered in calculation of ratio. • Checked that the ratio variance is calculated on the basis of amount allocated to overburden and OB quantity extracted during the year correctly. • Performed analytical procedures and test of details for reasonableness of expenses considered stripping activity adjustment calculation. • Checked that the accounting policy applied and management’s judgments used for Stripping Activity Adjustment are appropriate. <p>Based on the procedures performed, we have satisfied ourselves regarding stripping activity expenses/ adjustments.</p>

INDEPENDENT AUDITOR'S REPORT		MANAGEMENT'S COMMENT
Srl No.	Key Audit Matter	Auditor's Response
	<p>The reported quantity of overburden as per record is considered in calculating the ratio for OBR accounting where the variance between reported quantity and measured quantity is within the permissible limits. However, where the variance is beyond the permissible limits as above, the measured quantity is considered.</p> <p>(Refer Statement of Profit & Loss and Note 21 to the Standalone Financial Statements.)</p>	
2.	<p><u>Revenue from Contracts with Customers</u></p> <p>The application of the Revenue accounting standard involves certain key judgements relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognised during the year.</p> <p>(Refer Note 38.15.(i) to the Standalone Financial Statements.)</p>	<p><u>Principal Audit Procedures:</u></p> <p>Our audit procedures include:</p> <ul style="list-style-type: none"> • Evaluated the design, the processes and internal controls relating to revenue accounting standard; • Evaluated the detailed analysis performed by management on revenue streams by selecting samples for the existing contracts with customers and considered revenue recognition policy in the current period in respect of those revenue streams <p>Evaluated the appropriateness of the disclosures provided under the revenue standard and assessed the completeness and mathematical accuracy of the relevant disclosures.</p> <p>We found that the management's estimations and judgments in the recognition of income is reasonable based on the available evidences.</p>
3.	<p><u>Evaluation of uncertain tax positions</u></p> <p>The Company has material uncertain tax positions including matters under dispute which involves significant judgment to determine the possible outcome of these disputes.</p> <p>(Refer Notes 38.4.(a) to the Standalone Financial Statements.)</p>	<p><u>Principal Audit Procedures:</u></p> <p>Our audit procedures include:</p> <ul style="list-style-type: none"> • Evaluated the design and implementation of controls in respect of provision for current tax and the recognition and recoverability of deferred tax assets.

INDEPENDENT AUDITOR'S REPORT			MANAGEMENT'S COMMENT
Srl No.	Key Audit Matter	Auditor's Response	
		<ul style="list-style-type: none"> • Considered management's assessment of the validity and adequacy of provisions for uncertain tax positions, evaluating the basis of assessments and reviewing relevant correspondence and legal advice where available including any information regarding similar cases with the relevant tax authority. • Assessed the appropriateness of management's assumptions and estimates including the likelihood of generating sufficient future taxable income to support deferred tax assets. • Based on the procedure performed above, we obtained sufficient audit evidence to corroborate management's estimates regarding current and deferred tax balances and provision for uncertain tax positions. 	
4.	<p><u>Valuation of defined benefits obligation for employees</u></p> <p>Accounting for defined benefit plans is based on actuarial assumptions which require measuring the obligation, evaluating the planed assets and calculating the corresponding actuarial gain or loss. All future cash flows discounted to present value for arriving at the obligation.</p> <p>Significant estimates including the discount rates, the inflation rates, escalation of salary and the mortality rate are made in valuing the company's defined benefits obligations. The company engages external actuarial specialist to assist them in selecting appropriate assumptions and calculate the obligations.</p>	<p><u>Principal Audit Procedures:</u></p> <p>Our audit procedures include:</p> <ul style="list-style-type: none"> • Evaluated the key assumptions applied (discount rates, inflation rate, mortality rate) as per the Guidance Note applicable. • Assessed the competence, independence, and integrity of the company's actuarial expert. • The controls over the review and approval of actuarial assumptions, the completeness and accuracy of data provided to external actuary, and the reconciliation to data used in expert's calculation were tested. • Discussed with the Management about the liability accrued due to defined benefit plan and to understand the business and assessed if there was any inconsistency in the assumptions. 	

INDEPENDENT AUDITOR'S REPORT		MANAGEMENT'S COMMENT
Srl No.	Key Audit Matter	Auditor's Response
	<p>The effect of these matters is a part of the risk assessment and valuation of the defined benefit obligations has a high degree of estimation as it is based on assumptions.</p> <p>(Refer Notes 38.3 to the Standalone Financial Statements.)</p>	<ul style="list-style-type: none"> • Adequacy of the company disclosure as per Ind AS 19 in the notes is verified. Based on the audit procedures involved, we observed that the assumptions made by the management in relation to the valuation were supported by available evidence
<p>Information Other than the Financial Statements and Auditor's Report Thereon</p> <p>The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Director's Report including Annexures to Director's Report, CSR Report, R&D and Report on Corporate Governance and Management Discussion and Analysis Report, but does not include the financial statements and our auditor's report thereon. The Director's Report including Annexures to Director's Report, CSR Report, R&D and Report on Corporate Governance and Management Discussion and Analysis Report, is not made available to us till the date of this report and is expected to be made available to us after the date of this Audit Report.</p> <p>Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.</p> <p>In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.</p> <p>When we are provided and we read the Director's Report including Annexures to Director's Report, CSR Report, R&D and Report on Corporate Governance and Management Discussion and Analysis Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and describe actions applicable in the applicable laws and regulations.</p>		
<p>Management's Responsibility for the Financial Statements</p> <p>The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting</p>

<p>records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.</p> <p>In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.</p> <p>The Board of Directors are also responsible for overseeing the company's financial reporting process.</p>	
<p>Auditor's Responsibility for the Audit of the Financial Statements</p> <p>Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.</p> <p>As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.</p> <p>We also:</p> <ul style="list-style-type: none"> • Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. • Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls. • Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management. • Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern. 	

INDEPENDENT AUDITOR'S REPORT	MANAGEMENT'S COMMENT
<ul style="list-style-type: none"> Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. <p>Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.</p> <p>We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.</p> <p>We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.</p> <p>From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.</p>	
<p>Other Matters</p> <p>We did not audit the Standalone financial statements/information of 17 area/ units included in the financial statements of the Company whose financial statements / financial information reflect total assets of ₹ 5,763.86 crores as at 31st March, 2023 and total income of ₹ 13,576.17 crores for the year ended on that date, as considered in the financial statements. The financial statements/information of these area / unit have been audited by the area / unit auditors whose reports have been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in respect of these area / units, is based solely on the report of such area / unit auditors.</p> <p>Our opinion is not modified in respect of this matter</p>	
<p>Report on Other Legal and Regulatory Requirements</p> <p>1. As required under section 143(5) of the Companies Act, 2013, we give in the Annexure - I, a statement on the Directions and the Additional directions issued by the Comptroller and Auditor General of India after complying with the Suggested methodology of Audit, the action taken thereon and its impact on the accounts and Standalone financial statements of the Company.</p>	

INDEPENDENT AUDITOR'S REPORT	MANAGEMENT'S COMMENT

Particulars	Auditor's Observation	Action taken and Impact on Financial Statements
1) Whether coal stock measurement was done based on Yellow Book? Whether physical stock measurement reports are accompanied by contour map in all cases? Whether approval of the competent authority was obtained for new heap, if any, created during the year.	<p>As per explanation and information given to us, the coal stock measurements of the heaps are being done as per the Yellow Book. Coal Stock dumps are being created by the collieries at prefix locations for which contour plans are prepared and approved by competent authority in advance, i.e. prior to starting dumping of coal. However, in some of the cases, small stocks whose geometrical shape are cumbersome and not fit for measurement using contour plan / level section, are being measured by conventional method, even if such stocks are having contour plans. The stock measurement reports are accompanied by contour plans.</p> <p>For the washeries the stocks of slurry, rejects and middling were building up since inception of the washery, i.e. prior to take over by BCCL. The heaps, particularly of reject, slurry, middling etc. are huge in shape and size. All these heaps are not having contour plans, as such being measured by conventional method.</p> <p>As per explanation and information given to us, new heaps created during the year are having approval of competent authority.</p>	There is no impact on the Financial Statements.
2) Whether the company conducted physical verification exercise of assets and properties at the time of merger/ split/restructure of an area. If so, whether the concerned subsidiary followed the requisite procedure.	As per explanation and information given to us, there are no cases of merger / split / restructure of any Area of BCCL during the Financial Year 2022-23	There is no impact on the Financial Statements.
3) Whether separate Escrow Accounts for each mine has been maintained in CIL and its subsidiary companies. Also examine the utilization of the fund of the account.	Yes, separate Mine-wise Escrow account against each Mine Closure Plan is maintained with Bank of Baroda and Union Bank of India according to guidelines issued by Ministry of Coal. No amount has been withdrawn from Escrow account during the financial year 2022-23.	There is no impact on the Financial Statements.
4) Whether the impact of penalty for illegal mining as imposed by the Hon'ble Supreme Court/ National Green Tribunal/ State Pollution Control Board has been duly considered and accounted for?	<p>There is no demand on account of illegal mining as imposed by the Hon'ble Supreme Court/ National Green Tribunal/ State Pollution control Board as on 31.03.2023.</p> <p>However, demand notices amounting to ₹ 17,344.46 crore have been issued in respect of 47 Projects/Mines/ Collieries of the company by State Government (District Mining Officer) in pursuance of the judgement dated 02.08.2017 of Hon'ble Supreme Court of India vide W.P. (C) No. 114 of 2014 in Common Cause vs. Union of India & Others.</p> <p>Based on the judgment received from Revisional Authority, MoC and legal opinion, the above demand has been vacated.</p> <p>The same is suitably disclosed in the Additional Notes to Accounts vide no. 38.4.(a).(ii).</p>	There is no impact on the Financial Statements.
5) Whether any independent Assessment/ Certification in respect of migration process of data from Coalnet portal to SAP has been done.	Till date no independent assessment/certification in respect of migration process of data from Coal-Net portal to SAP has been done	There is no impact on the Financial Statements.

Annexure – III to the Independent Auditors’ Report to the members of the Bharat Coking Coal Limited, Dhanbad on the Standalone financial statements for the year ended 31st March, 2023

[Referred to in Paragraph 3(g) of “Report on Other Legal and Regulatory requirements” section of our Audit Report]
Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

Particulars	Management's Comment
<p>1. We have audited the internal financial controls over financial reporting of Bharat Coking Coal Limited (“the Company”) as of 31st March, 2023 in conjunction with our audit of the Standalone financial statements of the Company for the year ended on that date.</p> <p>Management’s Responsibility for Internal Financial Controls</p> <p>2. The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.</p>	
<p>Auditors’ Responsibility</p> <p>3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.</p> <p>4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting includes obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error .</p> <p>5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.</p>	

Particulars	Management's Comment
<p>Meaning of Internal Financial Controls over Financial Reporting</p> <p>6. A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements</p> <p>Inherent Limitations of Internal Financial Controls over Financial Reporting</p> <p>7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.</p> <p>Opinion</p> <p>1. In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India</p>

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6) (B) OF THE COMPANIES ACT, 2013 ON THE FINANCIAL STATEMENTS OF BHARAT COKING COAL LIMITED FOR THE YEAR ENDED 31 MARCH 2023.

The preparation of financial statements of Bharat Coking Coal Limited for the year ended 31 March 2023 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the company. The statutory auditor/auditors appointed by the Comptroller and Auditor General of India under section 139 (5) of the Act is responsible for expressing opinion on the financial statements under section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 24 April 2023

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the financial statements of Bharat Coking Coal Limited for the year ended 31 March 2023 under section 143(6)(a) of the Act. This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records.

Based on my supplementary audit, I would like to highlight the following significant matters under section 143(6)(b) of the Act which have come to my attention and which in my view are necessary for enabling a better understanding of the financial statements and the related audit report

**A. Comment on Profitability
Statement of Profit and Loss Account
Stripping activity adjustment ₹ 701.30 crore**

The above includes ₹73.44 crore towards Stripping Activity Adjustment of Bastacolla project of BCCL. While arriving at cost per cum of Over burden removal, for computing Stripping Activity Adjustment, BCCL has not considered cost of explosive and undercharged cost of overhead¹. Considering, correct cost per cum of Over burden removal based on cost of explosive and actual overheads, Stripping Activity Adjustment amounting to ₹93.47 crore should have been charged in the Statement of Profit & Loss.

This has resulted in Understatement of Stripping Activity Adjustment and overstatement of Profit to the tune of ₹20.03 crore.

¹ *Overhead cost taken incorrectly as ₹50.84 crore in place of ₹66.81 crore*

B. Comment on disclosure

B.1 Current Asset: Other current Assets (Note 11) Input Tax Credit Receivable: ₹ 1,323.29 crore

As per the Ind AS -01, an entity has to provide information that is not presented elsewhere in the financial statements but is relevant to an understanding of any of them. It further states that an entity has to disclose information about the assumptions which it makes about the future, and other major sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Ministry of Finance, Government of India, vide Notification No.5/2017-Central Tax (Rate) dated 28 June 2017, notified the description of goods, in respect of which no refund of unutilized input tax credit shall be allowed, where the credit has accumulated on account of rate of tax on inputs being higher than the rate of tax on the output supplies of such goods. 'Coal' was not figuring in the above list.

Unutilized input tax credit can be allowed as refund in accordance with the provisions of section 54(3) of the CGST Act 2017 where credit has accumulated on account of rate of tax on inputs being higher than the rate of taxes on output supplies except where goods or services has been notified by the Government on the recommendations of the Council. Further, for utilization of the Input Tax Credit, no timeline is prescribed.

Ministry of Finance, Government of India, vide Notification No.09/2017-Central Tax (Rate) dated 13 July 2022 made the amendments in the above notification No.5/2017-Central Tax (Rate) and inserted Coal, on which no refund of unutilized input tax credit was to be allowed.

BCCL has shown Recoverable for Input Tax Credit amounting to ₹1,323.29 crore of which ₹1,098.31 crore pertain to the period prior to the notification of July 2022 and the balance ₹224.98 crore pertains to the period after the notification of July 2022, on which BCCL is not eligible for claiming refund.

Rate of GST on output i.e. sale of coal is 5 *per cent* while inputs are taxed at 18 *per cent*, thereby resulting in accumulation of receivable for Input Tax Credit. BCCL has applied for the refund amounting to ₹133.93 crore for the year 2017-18. However, the same has been rejected by the Tax Authorities citing non availability of supporting invoices/ documents and it was also advised to submit fresh claim with proper documents. No further claim for refund was filed by BCCL. Though, no timeline has been prescribed under the GST Act for utilisation of Input Tax Credit, it is worth noting that due to significant difference in Rate of input and output tax, BCCL is unable to adjust the tax credit for previous years and tax credit is increasing with time. Further, matter of refund/ accumulation of Input Tax Credit has not been taken up by BCCL with Higher Authorities.

Neither BCCL nor Statutory Auditors in his Report, has disclosed the above-mentioned facts and their explanations to carry forward the Input Tax Credit and above stated facts in the Financial Statements/ Report of Auditors, which is in violation of Ind AS- 01. Non-disclosure of facts which are integral to the understanding of the users of financial Statements in taking informed decisions resulted in deficiency in disclosure requirements.

B. 2 Additional Notes to Accounts (Note 38)

Ref. to Note no. (4) (f) (i) & (ii)

As per the Ind AS -01, an entity had to provide information that is not presented elsewhere in the financial statements but is relevant to an understanding of any of them, it further stipulates that additional disclosure, when necessary, is presumed to result in financial statements that present a true and fair view.

The Contract for development and extraction of coal from Kapuria Block was cancelled by BCCL (January 2021) and the issue was placed before Hon'ble Delhi High Court. The Hon'ble high Court ordered (January 2021) for encashment of four bank guarantees (BG) amounting ₹53.98 crore and transfer the encashed amount in the account of the Registrar General of the Court. BCCL has made the following deficient disclosures in notes to Financial Statements:

- i) Though only two bank guarantees amounting to ₹34.79 crore have been encashed, BCCL wrongly disclosed that three bank guarantees amounting to ₹41.20 crore have been encashed.
- ii) Advance of ₹37.76 crore against the BGs is wrongly disclosed as ₹38.23 crore.
- iii) Though, the legal case is presently under trial at Hon'ble Delhi High Court, it was wrongly mentioned that the case is under trail at International Criminal Court.
- iv) It was disclosed that cost of Detailed Project Report ₹6.50 crore of the above contractual work would be adjusted with Performance BG after Court Decision. However, facts remain that, there is no Performance BG available with BCCL.

Apart from above, Securities received from suppliers/contractors/customers as Bank Guarantees amounting to ₹716.47 crore were wrongly disclosed as ₹489.90 crore under the Notes.

Thus, the above additional disclosures under Note 38 are deficient to the above extent.

For and on behalf of the
Comptroller and Auditor General of India

It occupies an important place in as much as it produces bulk of the coking coal mined in the country.

BHARAT COKING COAL LIMITED
(A Miniratna Company)
SIGNIFICANT ACCOUNTING POLICIES
FOR THE YEAR ENDED 31st MARCH, 2023
(NOTE 2)

1.1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended).

The financial statements have been prepared on historical cost basis of measurement, except for:

- Certain financial assets and liabilities measured at fair value (refer accounting policy on Financial Instruments);
- Defined benefit plans- plan assets measured at fair value (refer accounting policy on Defined benefit plans);
- Inventories at Cost or NRV whichever is lower (refer accounting policy on Inventories).

1.2 ROUNDING OF AMOUNTS

Amounts in these financial statements have, unless otherwise indicated, have been rounded off to 'rupees in crore' upto two decimal points.

2. CURRENT AND NON-CURRENT CLASSIFICATION

The Company presents assets and liabilities in the Balance Sheet based on current/ non current classification. An asset is treated as current by the Company when:

- a. it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- b. it holds the asset primarily for the purpose of trading;
- c. it expects to realise the asset within twelve months after the reporting period; or
- d. the asset is cash or a cash equivalent (as defined in Ind AS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current. All other liabilities are classified as non-current.

A liability is treated as current by the Company when:

- a. it expects to settle the liability in its normal operating cycle;
- b. it holds the liability primarily for the purpose of trading;
- c. the liability is due to be settled within twelve months after the reporting period; or
- d. it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

3. REVENUE RECOGNITION

Ind AS 115, Revenue from Contracts with Customers supersedes Ind AS 11 Construction Contracts and Ind AS 18 Revenue recognition, and it applies to all revenue arising from contracts with its customers. Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which a Company expects to be entitled in exchange for transferring goods or services to a customer. Bharat Coking Coal Limited ('BCCL' or 'the company') has adopted Ind AS 115 using the retrospective method of adoption.

Ind AS 115 requires entities to exercise judgment, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

REVENUE FROM CONTRACTS WITH CUSTOMERS

Bharat Coking Coal Limited is a Subsidiary of Coal India Limited, enterprise headquartered in Dhanbad, Jharkhand, India and the largest coking coal producing company in India. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

The principles in Ind AS 115 are applied using the following five steps:

STEP 1: IDENTIFYING THE CONTRACT:

The Company account for a contract with a customer only when all of the following criteria are met:

- a. the parties to the contract have approved the contract and are committed to perform their respective obligations;
- b. the Company can identify each party's rights regarding the goods or services to be transferred;
- c. the Company can identify the payment terms for the goods or services to be transferred;
- d. the contract has commercial substance (i.e. the risk, timing or amount of the Company's future cash flows is expected to change as a result of the contract); and
- e. it is probable that the Company will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. The amount of consideration to which the Company will be entitled may be less than the price stated in the contract if the consideration is variable because the Company may offer the customer a price concession, discount, rebates, refunds, credits or be entitled to incentives, performance bonuses, or similar items.

COMBINATION OF CONTRACTS

The Company combines two or more contracts entered into at or near the same time with the same customer (or related parties of the customer) and account for the contracts as a single contract if one or more of the following criteria are met:

- a. The contracts are negotiated as a package with a single commercial objective;
- b. the amount of consideration to be paid in one contract depends on the price or performance of the other contract; or
- c. the goods or services promised in the contracts (or some goods or services promised in each of the contracts) are a single performance obligation.

CONTRACT MODIFICATION

The Company account for a contract modification as a separate contract if both of the following conditions are present:

- a. The scope of the contract increases because of the addition of promised goods or services that are distinct and
- b. The price of the contract increases by an amount of consideration that reflects the company's stand-alone selling prices of the additional promised goods or services and any appropriate adjustments to that price to reflect the circumstances of the particular contract.

STEP 2: IDENTIFYING PERFORMANCE OBLIGATIONS:

At contract inception, the Company assesses the goods or services promised in a contract with a customer and identify as a performance obligation each promise to transfer to the customer either:

- a. a good or service (or a bundle of goods or services) that is distinct; or
- b. a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

STEP 3: DETERMINING THE TRANSACTION PRICE

The Company consider the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties. The consideration promised in a contract with a customer may include fixed amounts, variable amounts, or both.

When determining the transaction price, an Company consider the effects of all of the following:

- Variable consideration;
- Constraining estimates of variable consideration;
- The existence of significant financing component;
- Non – cash consideration;
- Consideration payable to a customer.

An amount of consideration can vary because of discounts, rebates, refunds, credits, price concessions, incentives, performance bonuses, or other similar items. The promised consideration can also vary if the company's entitlement to the consideration is contingent on the occurrence or non-occurrence of a future event.

In some contracts, penalties are specified. In such cases, penalties are accounted for as per the substance of the contract. Where the penalty is inherent in determination of transaction price, it forms part of variable consideration.

The Company includes in the transaction price some or all of an amount of estimated variable consideration only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

The Company does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between when it transfers a promised goods or service to a customer and when the customer pays for that good or service will be one year or less.

The Company recognizes a refund liability if the Company receives consideration from a customer and expects to refund some or all of that consideration to the customer. A refund liability is measured at the amount of consideration received (or receivable) for which the company does not expect to be entitled (i.e. amounts not included in the transaction price). The refund liability (and corresponding change in the transaction price and, therefore, the contract liability) is updated at the end of each reporting period for changes in circumstances.

After contract inception, the transaction price can change for various reasons, including the resolution of uncertain events or other changes in circumstances that change the amount of consideration to which the Company expects to be entitled in exchange for the promised goods or services.

STEP 4: ALLOCATING THE TRANSACTION PRICE:

The objective when allocating the transaction price is for the Company to allocate the transaction price to each performance obligation (or distinct good or service) in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for transferring the promised goods or services to the customer.

To allocate the transaction price to each performance obligation on a relative stand-alone selling price basis, the Company determines the stand-alone selling price at contract inception of the distinct good or service underlying each performance obligation in the contract and allocates the transaction price in proportion to those stand-alone selling prices.

STEP 5: RECOGNIZING REVENUE:

The Company recognizes revenue when (or as) the Company satisfies a performance obligation by transferring a promised good or service to a customer. A good or service is transferred when (or as) the customer obtains control of that good or service.

The Company transfers control of a good or service over time and, therefore, satisfies a performance obligation and recognizes revenue over time, if one of the following criteria is met:

- a. The customer simultaneously receives and consumes the benefits provided by the company's performance as the Company performs;
- b. The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced;
- c. The Company's performance does not create an asset with an alternative use to the Company and the Company has an enforceable right to payment for performance completed to date.

For each performance obligation satisfied over time, the Company recognizes revenue over time by measuring the progress towards complete satisfaction of that performance obligation.

The Company applies a single method of measuring progress for each performance obligation satisfied over time and the Company applies that method consistently to similar performance obligations and in similar circumstances. At the end of each reporting period, the Company re-measures its progress towards complete satisfaction of a performance obligation satisfied over time.

Company apply output methods to recognize revenue on the basis of direct measurements of the value to the customer of the goods or services transferred to date relative to the remaining goods or services promised under the contract. Output methods include methods such as surveys of performance completed to date, appraisals of results achieved, milestones reached, time elapsed and units produced or units delivered.

As circumstances change over time, the Company updates its measure of progress to reflect any changes in the outcome of the performance obligation. Such changes to the Company's measure of progress is accounted for as a change in accounting estimate in accordance with Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors.

The Company recognizes revenue for a performance obligation satisfied over time only if the Company can reasonably measure its progress towards complete satisfaction of the performance obligation. When (or as) a performance obligation is satisfied, the company recognize as revenue the amount of the transaction price (which excludes estimates of variable consideration that are constrained that is allocated to that performance obligation.

If a performance obligation is not satisfied over time, the Company satisfies the performance obligation at a point in time. To determine the point in time at which a customer obtains control of a promised good or service and the Company satisfies a performance obligation, the Company considers indicators of the transfer of control, which include, but are not limited to, the following:

- A. the company has a present right to payment for the good or service;
- B. the customer has legal title to the good or service;
- C. the company has transferred physical possession of the good or service;
- D. the customer has the significant risks and rewards of ownership of the good or service;
- E. the customer has accepted the good or service

When either party to a contract has performed, the Company presents the contract in the balance sheet as a contract asset or a contract liability, depending on the relationship between the company's performance and the customer's payment. The Company presents any unconditional rights to consideration separately as a receivable.

CONTRACT ASSETS:

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

TRADE RECEIVABLES:

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

CONTRACT LIABILITIES:

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment made or due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the acontract.

INTEREST:

Interest income is recognised using the Effective Interest Method.

DIVIDEND:

Dividend income from investments is recognised when the rights to receive payment is established.

OTHER CLAIMS:

Other claims (including interest on delayed realization from customers) are accounted for, when there is certainty of realisation and can be measured reliably.

4. GRANTS FROM GOVERNMENT

Government Grants are not recognised until there is reasonable assurance that the company will comply with the conditions attached to them and that there is reasonable certainty that grants will be received.

Government grants are recognised in Statement of Profit & Loss on a systematic basis over the periods in which the company recognises as expenses the related costs for which the grants are intended to compensate.

Government Grants/assistance related to assets are presented in the balance sheet by setting up the grant as deferred income and are recognised in Statement of Profit and Loss on systematic basis over the useful life of asset.

Grants related to income (i.e. grant related to other than assets) are presented as part of statement of profit and loss under the head 'Other Income'.

A government grant that becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs, is recognised in profit or loss of the period in which it becomes receivable.

The Government grants or in the nature of promoters contribution are recognised directly in “Capital Reserve” which forms part of the “Shareholders fund”.

5. LEASES (IND AS 116)

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

COMPANY AS A LESSEE

At the commencement date, a lessee shall recognise a right-of-use asset at cost and a lease liability at the present value of the lease payments that are not paid at that date.

Subsequently, right-of-use asset is measured using cost model whereas, the lease liability is measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and re-measuring the carrying amount to reflect any reassessment or lease modifications.

COMPANY AS A LESSOR

All leases as either an operating lease or a finance lease.

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset

OPERATING LEASES :

Lease payments from operating leases are recognised as income on either a straight-line basis unless another systematic basis is more representative of the pattern in which benefit from the use of the underlying asset is diminished.

FINANCE LEASES :

Assets held under a finance lease is initially recognised in its balance sheet and presents them as a receivable at an amount equal to the net investment in the lease using the interest rate implicit in the lease to measure the net investment in the lease.

Subsequently, finance income is recognised over the lease term, based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease.”

6. NON-CURRENT ASSETS HELD FOR SALE

The Company classifies non-current assets and (or disposal groups) as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification. For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets (or disposal groups), its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset or disposal group to be highly probable when:

- The appropriate level of management is committed to a plan to sell the asset (or disposal group),
- An active programme to locate a buyer and complete the plan has been initiated
- The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- Actions required to complete the plan indicate that it is unlikely those significant changes to the plan will be made or that the plan will be withdrawn.

7. Property, Plant And Equipment (PPE)

Land is carried at historical cost. Historical cost includes expenditure which are directly attributable to the acquisition of the land like, rehabilitation expenses, resettlement cost and compensation in lieu of employment incurred for concerned displaced persons etc.

After recognition, an item of all other Property, plant and equipment are carried at its cost less any accumulated depreciation and any accumulated impairment losses under Cost Model. The cost of an item of property, plant and equipment comprises:

- a. its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- b. any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.
- c. the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which the Company incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item depreciated separately. However, significant part(s) of an item of PPE having same useful life and depreciation method are grouped together in determining the depreciation charge.

Costs of the day-to-day servicing described as for the 'repairs and maintenance' are recognised in the statement of profit and loss in the period in which the same are incurred.

Subsequent cost of replacing parts significant in relation to the total cost of an item of property, plant and equipment are recognised in the carrying amount of the item, if it is probable that future economic benefits associated with the item will flow to the Company; and the cost of the item can be measured reliably. The carrying amount of those parts that are replaced is derecognised in accordance with the derecognition policy mentioned below.

When major inspection is performed, its cost is recognised in the carrying amount of the item of property, plant and equipment as a replacement if it is probable that future economic benefits associated with the item will flow to the Company; and the cost of the item can be measured reliably. Any remaining carrying amount of the cost of the previous inspection (as distinct from physical parts) is derecognised.

An item of Property, plant or equipment is derecognised upon disposal or when no future economic benefits are expected from the continued use of assets. Any gain or loss arising on such derecognition of an item of property plant and equipment is recognised in profit and Loss.

Depreciation on property, plant and equipment, except freehold land, is provided as per cost model on straight line basis over the estimated useful lives of the asset as follows:

Other Land (incl. Leasehold Land)	: Life of the project or lease term whichever is lower
Building	: 3-60 years
Roads	: 3-10 years
Telecommunication	: 3-9 years
Railway Sidings	: 15 years
Plant and Equipment	: 5-30 years
Computers and Laptops	: 3 Years
Office equipment	: 3-6 years
Furniture and Fixtures	: 10 years
Vehicles	: 8-10 years

Based on technical evaluation, the management believes that the useful lives given above best represents the period over which the management expects to use the asset. Hence the useful lives of the assets may be different from useful lives as prescribed under Part C of schedule II of companies act, 2013.

The estimated useful life of the assets is reviewed at the end of each financial year.

The residual value of Property, plant and equipment is considered as 5% of the original cost of the asset except some items of assets such as, Coal tub, winding ropes, haulage ropes, stowing pipes & safety lamps etc. for which the technically estimated useful life has been determined to be one year with nil residual value.

Depreciation on the assets added / disposed of during the year is provided on pro-rata basis with reference to the month of addition / disposal.

Value of “Other Land” includes land acquired under Coal Bearing Area (Acquisition & Development) (CBA) Act, 1957, Land Acquisition Act, 1894, Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (RFCTLAAR) Act, 2013, Long term transfer of government land etc., which is amortised on the basis of the balance life of the project; and in case of Leasehold lands such amortisation is based on lease period or balance life of the project whichever is lower.

Fully depreciated assets, retired from active use are disclosed separately as surveyed off assets at its residual value under Property, plant Equipment and are tested for impairment. Capital Expenses incurred by the company on construction/ development of certain assets which are essential for production, supply of goods or for the access to any existing Assets of the company are recognised as Enabling Assets under Property, Plant and Equipment.

TRANSITION TO IND AS

The company elected to continue with the carrying value as per cost model (for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind ASs, measured as per the previous GAAP.

8. MINE CLOSURE, SITE RESTORATION AND DECOMMISSIONING OBLIGATION

The company's obligation for land reclamation and decommissioning of structures consists of spending at both surface and underground mines in accordance with the guidelines from Ministry of Coal, Government of India. The company estimates its obligation for Mine Closure, Site Restoration and Decommissioning based upon detailed calculation and technical assessment of the amount and timing of the future cash spending to perform the required work. Mine Closure expenditure is provided as per approved Mine Closure Plan. The estimates of expenses are escalated for inflation, and then discounted at a discount rate that reflects current market assessment of the time value of money and the risks, such that the amount of provision reflects the present value of the expenditures expected to be required to settle the obligation. The company records a corresponding asset associated with the liability for final reclamation and mine closure. The obligation and corresponding assets are recognised in the period in which the liability is incurred. The asset representing the total site restoration cost (as estimated by Central Mine Planning and Design Institute Limited) as per mine closure plan is recognised as a separate item in PPE and amortised over the balance project/mine life.

The value of the provision is progressively increased over time as the effect of discounting unwinds; creating an expense recognised as financial expenses. Further, a specific escrow fund account is maintained for this purpose as per the approved mine closure plan.

The progressive mine closure expenses incurred on year to year basis forming part of the total mine closure obligation is initially recognised as receivable from escrow account and thereafter adjusted with the obligation in the year in which the amount is withdrawn after the concurrence of the certifying agency.

9. EXPLORATION AND EVALUATION ASSETS

Exploration and evaluation assets comprise capitalised costs which are attributable to the search for coal and related resources, pending the determination of technical feasibility and the assessment of commercial viability of an identified resource which comprises inter alia the following:

- acquisition of rights to explore;
- researching and analysing historical exploration data;

- gathering exploration data through topographical, geo chemical and geo physical studies;
- exploratory drilling, trenching and sampling;
- determining and examining the volume and grade of the resource;
- surveying transportation and infrastructure requirements;
- Conducting market and finance studies.

The above includes employee remuneration, cost of materials and fuel used, payments to contractors etc.

As the intangible component represents an insignificant/indistinguishable portion of the overall expected tangible costs to be incurred and recouped from future exploitation, these costs along with other capitalised exploration costs are recorded as exploration and evaluation asset.

Exploration and evaluation costs are capitalised on a project by project basis pending determination of technical feasibility and commercial viability of the project and disclosed as a separate line item under non-current assets. They are subsequently measured at cost less accumulated impairment/provision.

Once proved reserves are determined and development of mines/project is sanctioned, exploration and evaluation assets are transferred to “Development” under capital work in progress. However, if proved reserves are not determined, the exploration and evaluation asset is derecognised.

10. DEVELOPMENT EXPENDITURE

When proved reserves are determined and development of mines/project is sanctioned, capitalised exploration and evaluation cost is recognised as assets under construction and disclosed as a component of capital work in progress under the head “Development”. All subsequent development expenditure is also capitalised. The development expenditure capitalised is net of proceeds from the sale of coal extracted during the development phase.

COMMERCIAL OPERATION

The project/mines are brought to revenue; when commercial readiness of a project/mine to yield production on a sustainable basis is established either on the basis of conditions specifically stated in the project report or on the basis of the following criteria:

- a. From beginning of the financial year immediately after the year in which the project achieves physical output of 25% of rated capacity as per approved project report, or
- b. 2 years of touching of coal, or
- c. From the beginning of the financial year in which the value of production is more than total, expenses.

Whichever event occurs first;

On being brought to revenue, the assets under capital work in progress are reclassified as a component of property, plant and equipment under the nomenclature “Other Mining Infrastructure”. Other Mining Infrastructure are amortised from the year when the mine is brought under revenue in 20 years or working life of the project whichever is less.

11. INTANGIBLE ASSETS

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation (calculated on a straight-line basis over their useful lives) and accumulated impairment losses, if any.

Internally generated intangibles, excluding capitalised development costs, are not capitalised. Instead, the related expenditure is recognised in the statement of profit and loss and other comprehensive income in the period in which the expenditure is incurred. The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortised over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss.

An intangible asset with an indefinite useful life is not amortised but is tested for impairment at each reporting date. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss

Exploration and Evaluation assets attributable to blocks identified for sale or proposed to be sold to outside agencies (i.e. for blocks not earmarked for CIL) are however, classified as Intangible Assets and tested for impairment.

Research and Development is recognised as an expenditure as and when incurred.

12. IMPAIRMENT OF ASSETS (OTHER THAN FINANCIAL ASSETS)

The Company assesses at the end of each reporting period whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs. Company considers individual mines as separate cash generating units for the purpose of test of impairment.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognised in the Statement of Profit and Loss.

13. INVESTMENT PROPERTY

Property (land or a building or part of a building or both) held to earn rentals or for capital appreciation or both, rather than for, use in the production or supply of goods or services or for administrative purposes; or sale in the ordinary course of businesses are classified as investment property.

Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs.

Investment properties are depreciated using the straight-line method over their estimated useful lives.

14. FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

14.1. FINANCIAL ASSETS

14.1.1. INITIAL RECOGNITION AND MEASUREMENT

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at fair value through profit or loss, plus transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

14.1.2. SUBSEQUENT MEASUREMENT

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

14.1.2.1. DEBT INSTRUMENTS AT AMORTISED COST

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a. The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b. Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

14.1.2.2. DEBT INSTRUMENT AT FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a. The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b. The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

14.1.2.3. DEBT INSTRUMENT AT FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

14.1.2.4. DERECOGNITION

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

14.1.2.5. IMPAIRMENT OF FINANCIAL ASSETS(OTHER THAN FAIR VALUE)

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a. Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance;
- b. Financial assets that are debt instruments and are measured as at FVTOCI;
Lease receivables under Ind AS 17; and
- c. Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables or contract revenue receivables; and
- All lease receivables resulting from transactions within the scope of Ind AS 17

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

14.2. FINANCIAL LIABILITIES

14.2.1. INITIAL RECOGNITION AND MEASUREMENT

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

14.2.2. SUBSEQUENT MEASUREMENT

The measurement of financial liabilities depends on their classification, as described below:

14.2.2.1. FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit and loss.

14.2.2.2. FINANCIAL LIABILITIES AT AMORTISED COST

After initial recognition, these are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

14.2.2.3. DERECOGNITION

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, shall be recognised in profit or loss.

14.3. RECLASSIFICATION OF FINANCIAL ASSETS

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest. The following table shows various reclassifications and how they are accounted for

Original classification	Revised classification	Accounting treatment
Amortised cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognised in P&L.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to P&L at the reclassification date.

14.4. OFFSETTING OF FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

15. BORROWING COSTS

Borrowing costs are expensed as and when incurred except where they are directly attributable to the acquisition, construction or production of qualifying assets i.e. the assets that necessarily takes substantial period of time to get ready for its intended use, in which case they are capitalised as part of the cost of those asset up to the date when the qualifying asset is ready for its intended use.

16. TAXATION

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax is the amount of income taxes payable (recoverable) in respect of the taxable profit (tax loss) for a period. Taxable profit differs from "profit before income tax" as reported in the statement of profit and loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Unrecognised deferred tax assets are reassessed at the end of each reporting year and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

17. EMPLOYEE BENEFITS

17.1. SHORT-TERM BENEFITS

Short-term employee benefits are employee benefits (other than termination benefits) that are expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related service.

All short term employee benefits are recognized in the period in which the services are rendered by employees.

17.2. POST-EMPLOYMENT BENEFITS AND OTHER LONG TERM EMPLOYEE BENEFITS

17.2.1. DEFINED CONTRIBUTIONS PLANS

A defined contribution plan is a post-employment benefit plan for Provident fund and Pension under which the company pays fixed contribution into fund maintained by a separate statutory body (Coal Mines Provident Fund) constituted under an enactment of law and the company will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in the statement of profit and loss in the periods during which services are rendered by employees.

17.2.2. DEFINED BENEFITS PLANS

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in return of their service in the current and prior periods. The benefit is discounted to determine its present value and reduced by the fair value of plan assets, if any. The discount rate is based on the prevailing market yields of Indian Government securities as at the reporting date that have maturity dates approximating the terms of the company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The application of actuarial valuation involves making assumptions about discount rate, expected rates of return on assets, future salary increases, mortality rates etc. Due to the long term nature of these plans, such estimates are subject to uncertainties. The calculation is performed at each balance sheet by an actuary using the projected unit credit method. When the calculation results in to the benefit to the company, the recognised asset is limited to the present value of the economic benefits available in the form of any future refunds from the plan or reduction in future contributions to the plan. An economic benefit is available to the company if it is realisable during the life of the plan, or on settlement of plan liabilities.

Re-measurement of the net defined benefit liability, which comprise actuarial gain and losses considering the return on plan assets (excluding interest) and the effects of the assets ceiling (if any, excluding interest) are recognised immediately in the other comprehensive income. The company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit and loss.

When the benefits of the plan are improved, the portion of the increased benefit relating to past service by employees is recognised as expense immediately in the statement of profit and loss.

17.3. OTHER LONG-TERM EMPLOYEE BENEFITS

Other long-term employee benefits are all employee benefits other than short-term employee benefits, post-employment benefits and termination benefits. Other long-term employee benefits include items which are not expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related service.

For other long-term employee benefits, net total of the following amounts is recognized in the statement of profit or loss:

- (a) Service cost
- (b) Net interest on the net defined benefit liability (asset)
- (c) Re-measurements of the net defined benefit liability (asset)

18. FOREIGN CURRENCY

The company's reported currency and the functional currency for majority of its operations is in Indian Rupees (INR) being the principal currency of the economic environment in which it operates.

Transactions in foreign currencies are converted into the reported currency of the company using the exchange rate prevailing at the transaction date. Monetary assets and liabilities denominated in foreign currencies outstanding at the end of the reporting period are translated at the exchange rates prevailing as at the end of reporting period. Exchange differences arising on the settlement of monetary assets and liabilities or on translating monetary assets and liabilities at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognised in statement of profit and loss in the period in which they arise.

Non-monetary items denominated in foreign currency are valued at the exchange rates prevailing on the date of transactions.

19. STRIPPING ACTIVITY EXPENSE/ADJUSTMENT

In case of opencast mining, the mine waste materials (“overburden”) which consists of soil and rock on the top of coal seam is required to be removed to get access to the coal and its extraction. This waste removal activity is known as 'Stripping'. In opencast mines, the company has to incur such expenses over the life of the mine (as technically estimated).

Therefore, as a policy, in the mines with rated capacity of one million tonnes per annum and above, cost of Stripping is charged on technically evaluated average stripping ratio (OB: COAL) at each mine with due adjustment for stripping activity asset and ratio-variance account after the mines are brought to revenue.

Net of balances of stripping activity asset and ratio variance at the Balance Sheet date is shown as Stripping Activity Adjustment under the head Non - Current Provisions / Other Non-Current Assets as the case may be.

The reported quantity of overburden as per record is considered in calculating the ratio for OBR accounting where the variance between reported quantity and measured quantity is within the permissible limits, as detailed hereunder:-

Annual Quantum of OBR of the Mine	Permissible limits of variance (%)
Less than 1 Mill. CUM	+/- 5%
Between 1 and 5 Mill. CUM	+/- 3%
More than 5 Mill. CUM	+/- 2%

However, where the variance is beyond the permissible limits as above, the measured quantity is considered.

In case of mines with rated capacity of less than one million tonne, the above policy is not applied and actual cost of stripping activity incurred during the year is recognised in Statement of Profit and Loss.

20. INVENTORIES

20.1. STOCK OF COAL

Inventories of coal/coke are stated at lower of cost and net realisable value. Costs of inventories are calculated using the Weighted Average method. Net realisable value represents the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale.

Book stock of coal is considered in the financial statements where the variance between book stock and measured stock is upto +/- 5% and in cases where the variance is beyond +/- 5% the measured stock is considered. Such stock are valued at net realisable value or cost whichever is lower. Coke is considered as a part of stock of coal.

Coal & coke-fines are valued at lower of cost or net realisable value and considered as a part of stock of coal.

Slurry (coking/semi-coking), middling of washeries and by products are valued at net realisable value and considered as a part of stock of coal.

20.2. STORES& SPARES

The Stock of stores & spare parts (which also includes loose tools) at central & area stores are considered as per balances appearing in priced stores ledger and are valued at cost calculated on the basis of weighted average method. The inventory of stores & spare parts lying at collieries / sub-stores / drilling camps/ consuming centres are considered at the yearend only as per physically verified stores and are valued at cost.

Provisions are made at the rate of 100% for unserviceable, damaged and obsolete stores and spares and at the rate of 50% for stores & spares not moved for 5 years.

20.3. OTHER INVENTORIES

Workshop jobs including work-in-progress are valued at cost. Stock of press jobs (including work in progress) and stationary at printing press and medicines at central hospital are valued at cost.

However, Stock of stationery (other than lying at printing press), bricks, sand, medicine (except at Central Hospitals), aircraft spares and scraps are not considered in inventory considering their value not being significant.

21. CASH AND CASH EQUIVALENT

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

22. PROVISIONS, CONTINGENT LIABILITIES & CONTINGENT ASSETS

Provisions are recognized when the company has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

All provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future uncertain events not wholly within the control of the company, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

Contingent Assets are not recognised in the financial statements. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and its recognition is appropriate.

23. EARNINGS PER SHARE

Basic earnings per share are computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per shares is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per shares and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

24. JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of financial statements and the amount of revenue and expenses during the reported period. Application of accounting policies involving complex and subjective judgements and the use of assumptions in these financial statements has been disclosed. Accounting estimates could change from period to period. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimate are recognised in the period in which the estimates are revised and, if material, their effects are disclosed in the notes to the financial statements.

24.1. JUDGEMENTS

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

24.1.1. FORMULATION OF ACCOUNTING POLICIES

Accounting policies are formulated in a manner that result in financial statements containing relevant and reliable information about the transactions, other events and conditions to which they apply. Those policies need not be applied when the effect of applying them is immaterial.

In the absence of an Ind AS that specifically applies to a transaction, other event or condition, management has used its judgement in developing and applying an accounting policy that results in information that is:

- a. relevant to the economic decision-making needs of users and
- b. reliable in that financial statements:
 - (i) represent faithfully the financial position, financial performance and cash flows of the Company; (ii) reflect the economic substance of transactions, other events and conditions, and not merely the legal form; (iii) are neutral, i.e. free from bias; (iv) are prudent; and (v) are complete in all material respects on a consistent basis

In making the judgement management refers to, and considers the applicability of, the following sources in descending order:

- a. the requirements in Ind ASs dealing with similar and related issues; and
- b. the definitions, recognition criteria and measurement concepts for assets, liabilities, income and expenses in the Framework.

In making the judgement, management considers the most recent pronouncements of International Accounting Standards Board and in absence thereof those of the other standard-setting bodies that use a similar conceptual framework to develop accounting standards, other accounting literature and accepted industry practices, to the extent that these do not conflict with the sources in above paragraph.

The Company operates in the mining sector (a sector where the exploration, evaluation, development production phases are based on the varied topographical and geo-mining terrain spread over the lease period running over decades and prone to constant changes), the accounting policies whereof have evolved based on specific industry practices supported by research committees and approved by the various regulators owing to its consistent application over the last several decades. In the absence of specific accounting literature, guidance and standards in certain specific areas which are in the process of evolution. The Company continues to strive to develop accounting policies in line with the development of accounting literature and any development therein shall be accounted for prospectively as per the procedure laid down above more particularly in Ind AS 8. The financial statements are prepared on going concern basis using accrual basis of accounting.

24.1.2. MATERIALITY

Ind AS applies to items which are material. Management uses judgement in deciding whether individual items or groups of item are material in the financial statements. Materiality is judged by reference to the nature or magnitude or both of the item. The deciding factor is whether omitting or misstating or obscuring an information could individually or in combination with other information influence decisions that primary users make on the basis of the financial statements. Management also uses judgement of materiality for determining the compliance requirement of the Ind AS. Further the Company may also be required to present separately immaterial items when required by law.

W.e.f 01.04.2019, Errors/omissions discovered in the current year relating to prior periods are treated as immaterial and adjusted during the current year, if all such errors and omissions in aggregate does not exceed 1% of Total Revenue from Operations (net of statutory levies) as per last audited financial statement of the Company

24.1.3. OPERATING LEASE

Company has entered into lease agreements. The Company has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the fair value of the asset, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

24.2. ESTIMATES AND ASSUMPTIONS

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

24.2.1. IMPAIRMENT OF NON-FINANCIAL ASSETS

There is an indication of impairment if, the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. Company considers individual mines as separate cash generating units for the purpose of test of impairment. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to other mining infrastructures. The key assumptions used to determine the recoverable amount for the different CGUs, are disclosed and further explained in respective notes.

24.2.2. TAXES

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

24.2.3. DEFINED BENEFIT PLANS

The cost of the defined benefit gratuity plan and other post-employment medical benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates.

Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables of the country. Those mortality tables tend to change only at interval in response to demographic changes.

24.2.4. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using generally accepted valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk, volatility and other relevant input /considerations. Changes in assumptions and estimates about these factors could affect the reported fair value of financial instruments.

24.2.5. INTANGIBLE ASSET UNDER DEVELOPMENT

The Company capitalises intangible asset under development for a project in accordance with the accounting policy. Initial capitalisation of costs is based on management's judgement that technological and economic feasibility is confirmed, usually when a project report is formulated and approved.

24.2.6. PROVISION FOR MINE CLOSURE, SITE RESTORATION AND DECOMMISSIONING OBLIGATION

In determining the fair value of the provision for Mine Closure, Site Restoration and Decommissioning Obligation, assumptions and estimates are made in relation to discount rates, the expected cost of site restoration and dismantling and the expected timing of those costs. The Company estimates provision using the DCF method considering life of the project/mine based on

- Estimated cost per hectare as specified in guidelines issued by ministry of Coal, Government of India
- The discount rate (pre tax rate) that reflect current market assessments of the time value of money and the risks specific to the liability.

The company's obligation for land reclamation and decommissioning of structures consists of spending at both surface and underground mines in accordance with the guidelines from Ministry of Coal, Government of India. The estimate of obligation for Mine Closure, Site Restoration and Decommissioning based upon detailed calculation and technical assessment of the amount and timing of the future cash spending to perform the required work. Mine Closure expenditure is provided as per approved Mine Closure Plan. The estimates of expenses are escalated for inflation, and then discounted at a discount rate (@8%) that reflects current market assessment of the time value of money and the risks, such that the amount of provision reflects the present value of the expenditures expected to be required to settle the obligation. The value of the provision is progressively increased over time as the effect of discounting unwinds; creating an expense recognised as financial expenses. In reference to above guidelines for preparation of mine closure plan, an escrow account has been opened. (Refer Note - 9)"

b) FAIR VALUE HIERARCHY

Table below shows Judgments and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Security Deposit and Earnest money			485.91			492.93
Other Liabilities			1259.00			1297.79

A brief of each level is given below:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes mutual funds that have quoted price and are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, preference shares borrowings, security deposits and other liabilities taken included in level 3.

c) VALUATION TECHNIQUE USED IN DETERMINING FAIR VALUE

Valuation techniques used to value financial instruments include:

- The use of quoted market prices of instruments
- The fair value of the remaining financial instruments is determined using discounted cash flow analysis.

d) Fair value measurements using significant unobservable inputs. at present there are no fair value measurements using significant unobservable inputs.

e) FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES MEASURED AT AMORTISED COST

The carrying amounts of trade receivables, short term deposits, cash and cash equivalents, trade payables are considered to be the same as their fair values, due to their short-term nature.

The Company considers that the "Security Deposits" does not include a significant financing component. The milestone payments (security deposits) coincide with the company's performance and the contract requires amounts to be retained for reasons other than the provision of finance. The withholding of a specified percentage of each milestone payment is intended to protect the interest of the company, from the contractor failing to adequately complete its obligations under the contract'. Accordingly transaction cost of Security deposit is considered as fair value at initial recognition and subsequently measured at amortized cost.

Significant estimates: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgment to select a method and makes suitable assumptions at the end of each reporting period.

2. FINANCIAL RISK MANAGEMENT

a) Financial risk management objectives and policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that is derived directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by a risk committee that advises, inter alia, on financial risks and the appropriate financial risk governance framework for the Company. The risk committee provides assurance to the Board of Directors that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below.

The Company is exposed to market risk, credit risk and liquidity risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and Cash equivalents, trade receivables, financial asset measured at amortised cost .	Ageing analysis	Department of public enterprises (DPE) guidelines, diversification of bank deposits , credit limits and other securities.
Liquidity Risk	Borrowings and other liabilities.	Periodic cash flows	Availability of committed credit lines and borrowing facilities.
Market Risk - foreign exchange	Future commercial transactions, recognised financial assets and liabilities not denominated in INR.	Cash flow forecast sensitivity analysis	Regular watch and review by senior management and audit committee.
Market Risk - interest rate	Cash and Cash equivalents, Bank deposits and mutual funds	Cash flow forecast sensitivity analysis	Department of public enterprises (DPE) guidelines, Regular watch and review by senior management and audit committee.

b) The Company risk management is carried out by the board of directors as per DPE guidelines issued by Government of India. The board provides written principals for overall risk management as well as policies covering investment of excess liquidity.

c) Credit Risk:

Credit risk arises from cash and cash equivalents, investments carried at amortised cost and deposits with banks and financial institutions, as well as including outstanding receivables.

i. Credit risk management:

Macro – economic information (such as regulatory changes) is incorporated as part of the fuel supply agreements (FSAs) and e-auction terms.

ii. Fuel Supply Agreements

As contemplated in and in accordance with the terms of the NCDP, Company enters into legally enforceable FSAs with our customers or with State Nominated Agencies that in turn enters into appropriate distribution arrangements with end customers. Our FSAs can be broadly categorized into:

- FSAs with customers in the power utilities sector, including State power utilities, private power utilities (“PPUs”) and independent power producers (“IPPs”);
- FSAs with customers in non-power industries (including captive power plants (“CPPs”)); and
- FSAs with State Nominated Agencies.

iii. E-Auction Scheme

The E-Auction scheme of coal has been introduced to provide access to coal for customers who are not able to source their coal requirement through the available institutional mechanisms under the NCDP for various reasons, for example, due to a less than full allocation of their normative requirement under NCDP, seasonality of their coal requirement and limited requirement of coal that does not warrant a long-term linkage. The quantity of coal to be offered under E-Auction is reviewed from time to time by the MoC.

d) Provision for Expected credit loss

The Company provides for expected credit risk loss for doubtful/ credit impaired assets, by lifetime expected credit losses (Simplified approach). Refer Note-13, Trade Receivables.

SIGNIFICANT ESTIMATES AND JUDGMENT– IMPAIRMENT OF FINANCIAL ASSETS

The impairment provisions for financial assets disclosed above are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

e) Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at local level in the operating groups of the Company in accordance with practice and limits set by the Company. The bank borrowings of the Coal India Limited and its Subsidiary Companies has been secured by creating charge against stock of coal, stores and spare parts and book debts within consortium of banks. The total working capital credit limit available to CIL and its Subsidiary Companies is ₹335.00 crore, of which fund based limit is ₹140.00 crore and non-fund based limit is ₹195.00 crore. Further, ₹2500.00 crore was set up as fund-based limit and ₹5310.00 crore as non-fund based limit outside consortium in order to facilitate import of HEMM. Coal India Limited is contingently liable to the extent such facility is actually utilized by the Subsidiary Companies.

i. Financing arrangements

The Company has access to the following undrawn borrowing facilities at the end of the reporting period:

3. EMPLOYEE BENEFITS: RECOGNITION AND MEASUREMENT (IND AS-19) (NOTE 21 & 28)

a) Defined Benefit Plans:

i. Gratuity:

The Company provides for gratuity, a post-employment defined benefit plan ("the Gratuity Scheme") covering the eligible employees. The Gratuity Scheme is fully funded through trust maintained with Life Insurance Corporation of India, wherein employer contribution is 2.01% of basic salary and dearness allowances. Gratuity payment made as per policy of the Company subject to maximum of ₹0.20 Crores at the time of separation from the company considering the provisions of the Payment of Gratuity Act 1972 as amended. The liability or asset recognized in the balance sheet in respect of the Gratuity Scheme is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated at each reporting date by actuaries using the projected unit credit method. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the year in which they occur, directly in other comprehensive income (OCI).

ii. Post-Retirement Medical Benefit – Executive (CPRMSE)

Company has post-retirement medical benefit scheme known as Contributory Post Retirement Medicare Scheme for Executive of CIL and its Subsidiaries (CPRMSE), to provide Medicare to the executives and their spouses in Company hospital/empaneled hospitals or outpatient/Domiciliary only in India subject to ceiling limit, on account of retirement on attaining the age of superannuation or are separated by the Company on medical ground or retirement under Voluntary Retirement Scheme under common coal cadre or Voluntary Retirement Scheme formulated and made applicable from time to time. Membership is not extended to the executives who resigns from the services of the CIL and its subsidiaries. The maximum amount reimbursable during the entire life for the retired executives and spouse taken together jointly or severally is ₹25 lakhs except for specified diseases with no upper limit. The Scheme is funded through trust maintained by the CIL at group level solely for this purpose. The liability for the scheme is recognised based on actuarial valuation done at each reporting date.

iii. Post-Retirement Medical Benefit – Non- Executive (CPRMS-NE)

As a part of social security scheme under wage agreement, Company is providing Contributory Post-Retirement Medicare Scheme for non-executives (CPRMSE-NE) to provide medical care to the non-executives and their spouses and Divyang Child(ren) in Company hospital/empaneled hospitals or outpatient/Domiciliary only in India subject to ceiling limit, on account of retirement on attaining the age of superannuation or are separated by the Company on medical ground or retirement under Voluntary Retirement Scheme formulated and made applicable from time to time or resigns from the company at the age of 57 Years or above or on death to the spouse and Divyang Child(ren). The maximum amount reimbursable during the entire life for the retired non-executives, spouse and Divyang Child(ren) taken together jointly or severally is ₹ 8 lakhs except for specified diseases with no upper limit. The Scheme is funded through trust maintained by the CIL at group level solely for this purpose. The liability for the scheme is recognised based on actuarial valuation done at each reporting date except CPRMS-NE existing employees, which is started from current year.

b) Defined Contribution Plans

i. Provident Fund and Pension

Company pays fixed contribution towards Provident Fund and Pension Fund at pre-determined rates based on a fixed percentage of the eligible employee's salary i.e. 12% and 7% of Basic salary and Variable Dearness Allowance (VDA) towards Provident Fund and Pension Fund respectively. These funds are governed by a separate statutory body under the control of Ministry of Coal, Government of India, named Coal Mines Provident Fund Organisation (CMPFO). The contribution towards the fund for the period is recognized in the Statement of Profit & Loss.

ii. CIL Executive Defined Contribution Pension Scheme (NPS)

The company provides a post-employment contributory pension scheme to the executives of the Company known as "CIL Executive Defined Contribution Pension Scheme -2007" (NPS). NPS is being administered through separate trust at group level solely formed for the purpose. The obligation of the Company is to contribute to the trust to the extent of amount not exceeding 30% of basic pay and Variable Dearness Allowance (VDA) less employer's contribution towards provident fund, gratuity, post-retirement medical benefits -Executive i.e. CPRMSE or any other retirement benefits. The current employer contribution of 6.99% of basic and Variable Dearness Allowance (VDA) is being charged to statement of profit and loss.

c) Other Long Term Employee Benefits

i. Leave encashment

The company provides benefit of total Earned Leave (EL) of 30 days and Half Paid Leave (HPL) of 20 days to the executives of the company, accrued and credited proportionately on half yearly basis on the first day of January and July of every year. During the service, 75% EL credited balance is one time encashable in each calendar year subject to ceiling of maximum 60 days EL encashment. Accumulated HPL is not permitted for encashment during the period of service. On superannuation, EL and HPL together is considered for encashment subject to the overall limit of 300 days without commutation of HPL. In case of non-executives, Leave encashment is governed by the National Coal Wage Agreement (NCWA) and at present the workmen are entitled to get encashment of earned leave at the rate of 15 days per year and on discontinuation of service due to death, retirement, superannuation and VRS, the balance leave or 150 days whichever is less, is allowed for encashment. Therefore, the liabilities for earned leave are expected to be settled during the service as well as after the retirement of employee. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. The liability under the scheme is borne by the Company as per actuarial valuation at each reporting date.

ii. Life Cover Scheme (LCS)

As a part of social security scheme under wage agreement, the Company has Life Cover Scheme under Deposit Linked Insurance Scheme, 1976 notified by the Ministry of Labour, Government of India, known as "Life Cover Scheme of Coal India Limited" (LCS). An amount of ₹ 1,25,000 is paid under the scheme w.e.f 01.10.2017. The expected cost of the benefits is recognised when an event occurs that causes the benefit payable under the scheme.

iii. Settlement Allowances

As a part of wage agreement, a lump sum amount of ₹ 12000/- is paid to all the non-executive cadre employees governed under NCWA on their superannuation on or after 31.10.2010 as settling-in allowance. The liability under the scheme is borne by the Company as per actuarial valuation at each reporting date.

iv. Group Personal Accident Insurance (GPAIS)

Company has taken group insurance scheme from United India Insurance Company Limited to cover the executives of the company against personal accident known as "Coal India Executives Group Personal Accident Insurance Scheme" (GPAIS). GPAIS covers all types of accident on 24 hour basis worldwide. Premium for the scheme is borne by the Company.

v. Leave Travel Concession (LTC)

As a part of wage agreement, Non-executive employees are entitled to travel assistance for visiting their home town and for “Bharat Bhraman” once in a block of 4 years. A lump sum amount of ₹ 8000/- and ₹ 12000/- is paid for visiting Home town and “Bharat Bhraman”, respectively. The liability for the scheme is recognised based on actuarial valuation at each Balance Sheet date.

vi. Compensation to Dependent on Mine Accident Benefits

As a part of social security scheme under wage agreement, the company provides the benefits admissible under The Employee's Compensation Act, 1923. An amount of ₹ 15 lakhs is paid to the next of kin of an employee in case of a fatal mine accident w.e.f 07.11.2019. The expected cost of the benefits is recognised when an event occurs that causes the benefit payable under the scheme.

The Company does reasonably expect that all the claims/suits (including lawsuit filed by other Companies) against the Company in legal disputes/litigations, when ultimately concluded and determined, will not have a material and adverse effect on the Company's result of operations or financial condition.

- ii. **Penalty pursuant to Supreme Court Judgment in WP (Civil) 114 of 2014- Common Cause Case :** Demand notices amounting to ₹ 17344.46 crore have been issued in respect of 47 Projects/Mines/Collieries of the Company by State Government (District Mining Officers) in pursuance of the judgment dated 02.08.2017 of Hon'ble Supreme Court of India vide W.P. (C) No. 114 of 2014 in Common Cause vs. Union of India & Ors. It has been alleged that Coal Production have been undertaken either without Environmental Clearance, Forest Clearance, Consent to operate and/or NOC/Consent to Establish or beyond the approved limits of production given under such clearances. The execution of the above demand notices is stayed in exercise of the power under rule 55(5) of Mineral Concession Rules, 1960 read with Sec 30 of the MMDR Act, till further order. An order dated 03.11.2022 issued by JS& RA under Sec 30 of the MMDR Act, 1957 set-aside demand notices amounting to ₹ 9641.56 crore in respect of 20 Projects/Mines/Collieries of the Company.

BCCL has evaluated the balance 27 demand notices of compensation, which are same and similar in nature to the 20 demand notices, which has already been set-aside by Revisional Authority under Sec 30 of the MMDR Act, 1957. Considering the same, these demand notices have not been considered as contingent liability for the purpose of reporting.

- iii. Various Certificate Cases are pending before Certificate Officer in District Mining Officer's (D.M.O's) Office in respect of Royalty on shortage of Stock of Coal at Areas. Hon'ble Supreme Court has directed the D.M.O's to quantify the demand for Royalty payable after determining shortages arising from inflation, pilferage, over reporting of production of Coal etc.

In view of above direction of the Hon'ble Supreme Court, the amount involved as per Certificate Case is yet to be revised/confirmed by the D.M.O. Hence the same has not been provided in the financial statements but has been considered as contingent liabilities as shown above.

- iv. Due to dispute on Lease Agreement of Captive Power Plant (WJ Area), the Service Tax on outstanding Lease Rent from 2nd Year of 2014-15 (Service Tax for the 1st Year of 2014-15 on the corresponding outstanding Lease Rent already paid) to 3rd Year of 2015-2016 (Plant handed over to the Company on 15.12.2016) amounting to ₹1.06 Crore has been shown under Contingent Liability.
- v. The Company has preferred a writ petition bearing no. WP(T)3583 of 2015 before Hon'ble Jharkhand High Court against Demand Notice from Dhanbad Municipal Corporation for payment of Holding Tax amounting to ₹252.23 Crore. Since the matter is sub-judice the same has been shown as Contingent Liability under the head "Holding Tax".

vi. DISPUTED RECEIVABLE / PAYABLE A/C DLF

As per the terms of Agreement, there are Receivables from DLF against cost of supply of (i) rejects and (ii) startup/back up / emergency power by Madhuban Coal Washery (MCW) to DLF and Payables to DLF for Energy received by MCW from Captive Power Plant (CPP) installed by DLF. The matter is sub-judice-one at Dhanbad Court and another at Appellate Tribunal for Electricity, New Delhi-on account of disputes over price/quality of rejects vis-à-vis below guaranteed performance of CPP. Accordingly, Interest receivable/payable on net outstanding has not been accounted for at this stage. However, the net interest @ 18% p.a simple upto 31st March, 2023 comes to ₹37.17 Crore (upto 31st March, 2022 ₹33.54 Crore) payable to DLF and has so been considered as Contingent Liability.

15. Other Matters:

a) Claims lodged by the Company in the Court of Law

The Company (BCCL, Kolkata Office) has filed a civil suit in the High Court at Kolkata (G.A. No. 2797 of 2013/ C.S. No. 11 of 2013) against M/s Turner Morrison Limited, Kolkata for (i) a declaration that the Company is the lawful owner of the its present office premises at 6, Lyons Range, Kolkata-700001, (ii) a declaration that there was no relationship as the landlord and the tenant between them and (iii) a decree of ₹ 187.74 crore with interest against the Rent etc. already paid by the Company to M/s Turner Morrison Limited, Kolkata.

Besides this there are some more claims of the Company in the court of law amounting to ₹0.04 crore.

b) Balances of Erstwhile Kustore Area

Liabilities' of erstwhile Kustore Area, appearing in the audited financial statements of PB Area, are under examination/ investigation. Similarly, 'Advances, Deposits & Claims etc.' of erstwhile Kustore Area are also under verification/scrutiny. Based on the outcome of the examination / investigation / verification / scrutiny, 'Liabilities' will be written back or paid and similarly Advances etc. will be adjusted or written off.

c) Physical Verification of Assets of Erstwhile Kustore Area merged with P.B. Area

In view of the observation of the Audit and assurance given thereon by the Management, the job of Physical verification of Assets of collieries / units of erstwhile Kustore Area merged with PB Area and their reconciliation with Asset Register / Plant Card etc. was assigned to a firm of Chartered Accountant during 2015-16. The firm reported based on physical verification that the Gross Block has been overstated by ₹ 9.63 crore and provision for depreciation is under-charged by ₹ 16.06 crore in financial statements as on date of merger. But, it has been recommended by the firm that 'under the reported limitations, having influence on the gross value, depreciation and net value of physically existing Assets (derived), there is no option but to consider the audited figures of gross value, depreciation and net value appearing in financial statements as assets physically existing. Management has accepted the aforesaid recommendation.

d) Possession of Parbatpur (Central) Coal Mine

Allocation of Parbatpur (Central) Coal Mine (Bokaro) in 2006 by Government of India (GOI) to Electro steel Casting Limited stood de-allocated w.e.f. 31.03.2015 and thereafter Govt. of India (GOI) assigned the said mine to the designated Custodian i.e. 'Chairman, CIL' in terms of the provisions of the Coal Mines (Special Provisions) Second Ordinance, 2014 (DO No. 13016/36/2015-CA-III dated 31.03.2015 issued by the Joint Secretary MOC). Chairman CIL, in turn, authorized 'CMD, BCCL' to act on his behalf (CIL/CH/CUSTODIAN/27/1608 dated 31.03.2015). Accordingly, Parbatpur (Central) Coal Mine was placed under the administrative control of Eastern Jharia Area (Dhanbad) of the Company (Office Order No. the Company: CS: F-17(A):138 dated 03/04/2015 issued by Company Secretary the Company).

Now, vide Office Memorandum No.13016/77/2015-CA-III dated 06.10.2015 of GOI/MOC, Parbatpur (Central) Coal Mine has been allotted to M/s SAIL and the Designated Custodian ie Chairman, CIL has been advised to hand over possession of the mine to SAIL. Accordingly, it has been handed over to SAIL as confirmed by GM, Eastern Jharia Area vide his Letter No. BCCL/GM/EJA/2016/1429 dated 28.07.2016 enclosing there with charge hand-over and take-over report. Further, the Company has spent ₹5.08 Crore upto 28.07.2016 (Power bill ₹4.04 Crore, Repair & Maintenance and others ₹1.04 Crore) on maintaining the possession of the mine as custodian which has been booked as 'Receivable' in the Financial Statements. The amount is adjustable from the sale proceeds from the coal stock lying at the mine.

It is updated that as against BCCL claim of ₹5.08 Crore, SAIL has also claimed ₹17.00 Crore towards de-watering of mine, etc. which was not reasonably accepted by BCCL Management.

Again, Government of India has appointed the Chairman, CIL to manage and operate Parbatpur-Central Coal mine vide notification in the Gazette of India (F. No. CBA2-13016/1/2018-CBA2 dated 13th Feb, 2020). Chairman, CIL authorized the CMD, BCCL to take appropriate action as per relevant provisions of Coal Mines (Special Provisions) Act, 2015 as amended by Mineral Laws (Amendment) Ordinance 2020 and the rules made thereunder, to manage and operate the said mine.

Accordingly, Parbatpur (Central) Coal Mine was placed under the administrative control of Eastern Jharia Area (Dhanbad) of the Company and GM (EJ Area), BCCL is authorized to take over the possession of the Parbatpur-Central Coal Mine and to manage and operate with immediate effect. (Authorization letter No: BCCL/D(T)P&P/F-83(B)/2020/45 dated 03/03/2020 issued by Director (Tech.) P&P of the Company).

Since from the date of second time take over possession of the mine as custodian to 31st March, 2023, the Company has spent ₹30.26 Crore on maintaining the mine as custodian which has been booked as 'Receivable' in the Financial Statements.

e) Excise Duty on Royalty & Cess for the period from Mar'2011 to Feb'2013

In the past, the Company was not paying the Excise Duty on Royalty & SED but on the advice of CIL, the Company released the payment of ₹73.99 Crore towards this for the period from 01.03.2011 to 28.02.2013. In consideration of the above, supplementary bills were raised on consumers amounting to ₹78.10 Crore for the earlier period besides regular billing of Excise Duty on Royalty & SED. The Company has so far (upto 31.03.2022) realized ₹73.15 Crore and the balance amount not yet realized is ₹4.95 Crore. The unrealized amount belongs mostly to e-auction consumers, out of which 17 consumers have opposed the demand by the Company amounting to ₹0.28 Crore in the court of law. Against the amount of ₹4.95 Crore, provision to the tune of ₹4.95 Crore stands as on 31.03.2023

f) Service Tax on eligible Input Services

In respect of payments made at HQ to some service providers like CMPDIL/CISF/MSTC/M-Junction etc., Service Tax on eligible input services could not be distributed among coal producing areas of the Company for availing Cenvat Credit (till Oct'2013) for want of registration for input service distribution and thereafter due to imposition of restriction on availment of Cenvat Credit after six months vide notification No. 21/2014 CE(NT) dated 11/07/2014 which was subsequently modified as one year vide notification 6/2015 CE (NT) dated 01/3/2015. Against the aforesaid non-availment of Cenvat Credit, CAG raised a Memo which subsequently converted into the Draft Para. However, the matter was analyzed/revisited in consultation with our tax consultant, from which, it finally emerged that there was scope for availment of the subject Cenvat Credit due to the fact that (i) restriction on availment of Cenvat Credit was applicable for manufacturer or producer of output services only not on Input Service Distributor and (ii) time and again it was held that the Cenvat Credit could not be denied on procedural ground when credit on goods and services were in principle eligible for credit. Accordingly, the un-availed Cenvat Credit amounting to ₹30.48 Crore till Oct'2013 as well as the balance period of 2013-14 and 2014-15 has been availed through the current Returns (ER1 of Sept'16 and ST3 of April-Sept'16) with an intimation to Jurisdictional Authority of Central Excise Department disclosing the entire facts.

Cenvat Credit amounting to ₹30.48 Crore was carried forward in ER-1 Return and later on included in CGST Credit of GST TRAN-01 after implementation of GST w.e.f. 01.07.2017 and the said amount has already been utilized in GSTR-3B Return for the period from Oct, 2018 to Feb, 2019.

g) Fund under Master Plan

The Company receives fund from Coal India Limited against Master Plan for dealing with fire and rehabilitation of persons dwelling in coal bearing / fire affected area of the Company leasehold land. The Company is the implementing agency for fire projects and rehabilitation of persons dwelling in the Company houses. BCCL is providing for shifting of BCCL employees Jharia from the fire endangered and coal bearing areas to non-coal bearing areas out of their capital Budget and accounted the same as per accounting principles.

Jharia Rehabilitation & Development Authority (JRDA) is the implementing agency for rehabilitation of persons dwelling in non-BCCL houses, for which the Company acts as a nodal agency. Fund received as nodal agency is advanced to JRDA and such Advance (shown under Other Deposits and Advances in Note-11) as well as the relevant Fund, both are adjusted on the basis of utilization statement submitted by JRDA. There is an Advance of ₹111.21 Crore as on 31st March, 2023 (as on 31st March, 2022 ₹428.86 Crore) to JRDA awaiting utilization certificate for their adjustment.

j) Ratios

Sr No.	Description	For the Year ended 31.03.2023	For the year ended 31.03.2022	Variance
1	Current Ratio	0.96	0.99	-2.65%
<p>The current ratio indicates a company's overall liquidity position. It is widely used by banks in making decisions regarding the advancing of working capital credit to their clients. Current ratio has been calculated as Current Assets divided by Current liabilities.</p>				
2	Debt-Equity Ratio	0.00	0.00	NA
<p>Debt-to-equity ratio compares a Company's total debt to shareholders equity. Both of these numbers can be found in a Company's balance sheet. Debt-Equity Ratio has been calculated as total debt divided by Shareholder's Equity.</p>				
3	Debt Service Coverage Ratio	16.98	6.20	173.77%
<p>Debt Service coverage ratio is used to analyse the firm's ability to pay-off current interest and instalments. Debt Service Coverage Ratio is calculated as Earning available for debt service divided by Debt Service.</p> <p>Earning for Debt Service = Net Profit after taxes + Non-cash operating expenses like depreciation and other amortizations + Interest + other adjustments like loss on sale of Fixed assets etc. Debt service = Interest & Lease Payments + Principal Repayments</p> <p>"Net Profit after tax" means reported amount of "Profit / (loss) for the period" and it does not include items of other comprehensive income.</p>				
4	Return on Equity Ratio	18.28	3.51	420.93%
<p>It measures the profitability of equity funds invested in the Company. The ratio reveals how profitability of the equity-holders' funds have been utilized by the Company. It also measures the percentage return generated to equity-holders. The ratio is computed as: (Net Profits after taxes less Preference Dividend (if any)) divided by Average Shareholder's Equity</p>				
5	Inventory Turnover Ratio	13.46	9.33	44.28%
<p>This ratio also known as stock turnover ratio and it establishes the relationship between the cost of goods sold during the period or sales during the period and average inventory held during the period. It measures the efficiency with which a Company utilizes or manages its inventory. Inventory turnover ratio is calculated as Cost of goods sold OR sales divided by Average Inventory.</p> <p>Average inventory is (Opening + Closing balance / 2)</p> <p>When the information opening and closing balances of inventory is not available then the ratio can be calculated by dividing COGS OR Sales by closing balance of Inventory.</p>				
6	Trade Receivables Turnover Ratio	12.46	5.53	125.25%
<p>It measures the efficiency at which the firm is managing the receivables.</p> <p>Trade receivables turnover ratio = Net Credit Sales / Avg. Accounts Receivable</p>				

Net credit sales consist of gross credit sales minus sales return. Trade receivables includes sundry debtors and bills receivables.

$$\text{Average trade debtors} = (\text{Opening} + \text{Closing balance} / 2)$$

When the information about credit sales, opening and closing balances of trade debtors is not available then the ratio can be calculated by dividing total sales by closing balances of trade receivables.

7	Trade Payables Turnover Ratio	5.57	3.83	45.22%
----------	--	-------------	-------------	---------------

It indicates the number of times sundry creditors have been paid during a period. It is calculated to judge the requirements of cash for paying sundry creditors. It is calculated by dividing the net credit purchases by average creditors.

$$\text{Trade payables turnover ratio} = \text{Net Credit Purchases} / \text{Average Trade Payables}$$

Net credit purchases consist of gross credit purchases minus purchase return

When the information about credit purchases, opening and closing balances of trade creditors is not available then the ratio is calculated by dividing total purchases by the closing balance of trade creditors.

8	Net Capital Turnover Ratio	3.26	2.89	12.96%
----------	---------------------------------------	-------------	-------------	---------------

It indicates a company's effectiveness in using its working capital. The working capital turnover ratio is calculated as follows: net sales divided by the average amount of working capital during the same period. Net capital turnover ratio = Net Sales / Working Capital

Net sales shall be calculated as total sales minus sales returns.

Working capital shall be calculated as current assets minus current liabilities.

9	Net Profit Ratio	5.23	1.18	342.56%
----------	-------------------------	-------------	-------------	----------------

It measures the relationship between net profit and sales of the business.

$$\text{Net Profit Ratio} = \text{Net Profit} / \text{Net Sales}$$

Net profit shall be after tax.

Net sales shall be calculated as total sales minus sales returns.

10	Return on Capital Employed	14.76	8.22	79.60%
-----------	---------------------------------------	--------------	-------------	---------------

Return on capital employed indicates the ability of a company's management to generate returns for both the debt holders and the equity holders. Higher the ratio, more efficiently is the capital being employed by the company to generate returns.

$$\text{ROCE} = \text{Earnings before interest and taxes} / \text{Capital Employed}$$

$$\text{Capital Employed} = \text{Tangible Net Worth} + \text{Total Debt} + \text{Deferred Tax Liability}$$

11	Return on Investment	17.05	3.41	399.93%
-----------	---------------------------------	--------------	-------------	----------------

Return on investment (ROI) is a financial ratio used to calculate the benefit received by the company in relation to its investment cost. The higher the ratio, the greater the benefit earned.

k) Changes in Accounting Policies, Changes in Accounting Estimates and Errors (Ind AS 8)

The Significant accounting policy (Note-2) adopted by the Company is in accordance with Indian Accounting Standards (Ind ASs) notified by Ministry of Corporate Affairs (MCA) under the Companies (Indian Accounting Standards) Rules, 2015 (as amended).

l) Events Occurring after the Reporting Period (Ind AS 10)

No adjusting or non-adjusting events occurred after the reporting period.

m) Change in Capital Structure

There is no movement in the equity share capital held by Coal India Limited (100%) during the current period.

Nominal Dividend of ₹ 888.65 Crore on erstwhile 5% Non-Convertible Cumulative Redeemable Preference Shares was not due as the Company was carrying accumulated losses.

n) Recent Accounting Pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The amendments are as below:

Ind AS 1 - Presentation of Financial Statements - This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The Company does not expect this amendment to have any significant impact in its financial statements.

Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors - This amendment has introduced a definition of ‘accounting estimates’ and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The Company has evaluated the amendment and there is no impact on its financial statements.

Ind AS 12 - Income Taxes - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The Company does not expect this amendment to have any significant impact in its financial statements.
